U. S. TO WIND UP SKIDMORE TRIAL EVIDENCE TODAY

Speed Creates Stir in Courtroom.

(Pictures on page 2.)

BY GEORGE MORGENSTERN.

The government today will rest its case against William R. Skidmore—accused of evading $505,767 in income taxes for the years 1933 thru 1938—on the fifth day of actual testimony and after calling fewer than half of the 110 witnesses under subpena.

Prosecutor Woll.

The announcement, made yesterday to Federal Judge Philip L. Sullivan by J. Albert Woll, United States attorney, that the government would wind up its case after the testimony of one or two more witnesses came as a surprise.

Court observers had believed many more prosecution witnesses would be heard and that the case would not be completed for many days.

More Gamblers Expected.

It had been expected, in particular, that the government was by no means thru summoning gamblers to testify to payments made to Skidmore, allegedly in exchange for immunity from police interference.

Woll explained out of court that when the trial started he told Judge Sullivan the government expected to require only two weeks. He said evidence had been presented with more speed than he had expected and that the essential facts already were before the jury.

He indicated the government would rely on the evidence of nine handbook owners and one policy wheel operator who have testified to making payments aggregating $15,000 to indicate to the jury the source of Skidmore's income.

Complete Showing Unnecessary.

It was explained that in a criminal prosecution involving income tax the government need not show all of the charged evasion but is required merely to show that the defendant concealed some income on which he was liable for tax during each of the years covered in the indictment.

Testimony yesterday outlined the government's thesis as being that Skidmore was broke in 1919, that he made no income tax returns until 1932 and accordingly had no income between 1919 and that year, but that between 1933 and the end of 1938 he spent $642,794.

The government contends that if Skidmore was without taxable income for the 14 years prior to the indictment—and then spent this sum in the six years covered by the indictment—he must have earned the money which he spent during those same six years.

Status in 1919 Told.

Skidmore's financial status in 1919 was described by Edwin J. Raber, at that time first assistant state's attorney. He testified he called Skidmore as a witness in 1919 during an investigation of the Graham and Sons bank crash. Raber said Skidmore swore he had no funds to meet a $15,000 note held by the bank.

Skidmore's disbursements from 1933 thru 1938 were listed by Nicholas Riewer, an internal revenue agent, who began investigating Skidmore's income tax in 1936. Riewer testified that during this period Skidmore spent $85,822 on city real estate. Riewer said Skidmore's expenditures on the acquisition and improvement of his seven farms near McHenry, Ill., his mansion house, summer home, greenhouse, and golf course totaled $538,972.

Unconcerned About Source.

Earle C. Hurley and Paul Plunkett, assistant United States attorneys, while occupying themselves in getting into the record all these facts about how much money Skidmore had spent, showed unconcern about its source.

One witness, however, introduced into the trial the motif of the little black bag. It wasn't exactly a bag, but rather more on the order of a shoe box, according to the witness, Louis Witt, but it was stuffed full of currency.

Witt, a former gardener for Skidmore, said Leo Mongoven carried the money to Skidmore's mansion in 1938. He said Mongoven, a gambler and prohibition era gangster, dumped the box in Skidmore's lap.

OPPOSE LETTING GERMAN TROOPS OCCUPY NATION

Charge Act Spreads 'Sphere of War.'

(Map on back page.)

MOSCOW, March 3 (AP).—The soviet foreign commissariat informed Bulgaria today that Russia "cannot share the opinion of the Bulgarian government as to the correctness of the latter's position" in granting admission to German troops.

The communication to Bulgaria, handed to her minister at Moscow, expressed disapproval on the grounds that Bulgaria's action "does not lead to consolidation of peace but to extension of the sphere of war and to Bulgaria being involved in it."

"In view of this the soviet government, true to its policy of peace, cannot render any support to the Bulgarian government in the application of its present policy," the note added.

Criticizes Bulgarian Press.

"The soviet government is compelled to make the present statement especially in view of the fact that the Bulgarian press freely circulates rumors fundamentally misrepresenting the real position of the U. S. S. R."

The note was delivered to the Bulgarian envoy by Vice Commissar of Foreign Affairs Andrei Y. Vishinsky.

The text of the statement and an outline of events leading up to it were issued by Tass, official Russian news agency.

Tass said that on Saturday in Sofia the Bulgarian foreign office informed the Russian minister that Bulgaria had given her consent to entrance of German troops, "having in view preservation of peace in the Balkans."

It was on "preservation of peace" that Russia sharply differed with Bulgaria. Bulgaria long had looked to Russia for guidance in foreign policy.

See No Action by Russia.

LONDON, March 4, Tuesday (AP).—The British Press association said today that Russia's disapproval of Bulgarian policy in admitting German troops was "not expected to presage action" on Russia's part. Autoritative British quarters refused to discuss the soviet frown administered to Bulgaria.

The press association said Russia made "a mere verbal protest," and concluded: "Those in close touch with the Balkan situation have yet to be convinced that it presages any action on the part of the U. S. S. R. They instance the fact that she chooses to inform Bulgaria and not Nazi Germany of her dislike of German troops in Bulgaria."

[The British radio termed the Russian statement a "rebuke to the axis."]

Declare Break Is Near.

Authoritative British sources declared that a break in diplomatic relations with Bulgaria was "imminent" and would come as soon as the situation there became either "dangerous or humiliating." That time, they added, "apparently has just about been reached."

George W. Rendel, British minister to Sofia, was said to have been authorized to sever relations "as quickly as he sees fit."

Report Turkish Parley Today.

ISTANBUL, Turkey, March 3 (AP).—Unofficial reports, not confirmed by the Associated Press, said today that "a high German official" would arrive at Ankara tomorrow to confer with Foreign Minister Sukru Saracoglu of Turkey. There have been persistent rumors that Foreign Minister Joachim von Ribbentrop of Germany would visit the Turkish capital.

[The British news agency, Reuters, in a dispatch from Ankara, Turkey, reported that a German plane "believed to be bringing a courier with a special message from Adolf Hitler to President Ismet Inonu" landed at Istanbul Monday.]

The Turkish navy has mined all except a narrow channel in the strategic Dardenelles straits.

The mining followed closing of the Dardanelles to all ships except those given special permits and employing Turkish naval pilots. Turkish naval units also had been reported steaming toward the Dardanelles.

Turkey was calm as German armies swarmed into Bulgaria.

[Dispatches from Belgrade, Jugo-Slavia, said Turkey had called up all naval reservists and that the Turkish general staff had been in secret session at Ankara thruout the day. The dispatches said additional Turkish troops were moving out of Istanbul toward the Bulgarian frontier.]

U. S. Ordering Gas Masks for Civilian Use

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—The war department today placed orders for a limited supply of "noncombatant" gas masks. The department also is negotiating for construction of a government owned gas mask charcoal plant at Fostoria, O., to cost approximately $1,000,000.

The army command, which has admitted surveying the coffin industry for emergency purposes, and ordering 4 million identification tags and 1,500,000 casualty tags, described the gas mask orders as "educational."

"Developing Sources of Supply."

The masks are being ordered, said the officials, for the purpose of "developing sources of supply should such masks be required in any considerable number. The orders totaled $37,500.

No disclosure was made of the number of masks the orders will provide. The new type of mask was designed, the war department explained, to meet requirements of a military commander for noncombatant protection in areas under military control.

"The noncombatant gas mask is of a type which the war department believes would be suitable for civilian use," the department added.

It Isn't So Rugged.

"The masks provide protection against all known gases in the same manner as does the service gas mask issued the troops, but is not designed for the long life and rugged use of the service gas mask."

The plant to manufacture charcoal for gas masks would be operated by the National Carbon company, according to the army plans. It is to be located on a 16 acre site adjoining the National Carbon company works at Fostoria.

'Free French' Recruiting Bared in Occupied France

VICHY, France, March 3 (AP).—An extensive "Free French" recruiting organization in occupied France was reported yesterday by the Bordeaux newspaper Petite Gironde. It told of the execution of one enlisting agent. Death sentences of four who enlisted were commuted, the newspaper said. It stated the organization was headed in Paris by a member of Marcel Pivert's extremist group of left Socialists.

PRESIDENTIAL ORDER FREEZES BULGARIAN ASSETS IN AMERICA

Washington, D. C., March 3 (AP).—President Roosevelt tonight signed an order freezing all Bulgarian assets in the United States.

In spite of strong intimations from the treasury that the President might extend freezing orders to the other axis nations, or even to the entire world, the President's order pertained only to the little kingdom occupied by Germany during the week-end.

The treasury has been in favor of a general freezing order for some time, but has been opposed by the state department on certain points. It was learned that at the time the President signed the order for Bulgaria, blank orders were on his desk which would have frozen the funds of all nations.

The order prevents, except under treasury license, the widrawal, movement, or spending of any Bulgarian cash or other assets in this country. The order affects funds of both the Bulgarian government and Bulgarian citizens, but estimated to total less than $500,000. About 4½ billion dollars already was tied up in orders freezing funds of France, Holland, Belgium, Denmark, Norway, Luxemburg, Rumania, Latvia, Estonia, and Lithuania.

IN DRAFT, SIDLEY HEIR MAY GIVE UP HIS $100,000 HOME

Racine, Wis., March 3 [Special].—William Horlick Sidley, heir to his late mother's malted milk fortune, may abandon her $100,000 home and turn it over to the Salvation Army while he answers a draft call for a year's service in the United States army, it was learned tonight, when a hearing on interpretation of parts of her oft-disputed will was set for March 25.

The will of the late Mabelle Horlick Sidley specified that the home, the Oaks, was to be left in trust for young Sidley "as long as he chose to use it as a home." It then was to be given to the Salvation Army, with as much land as was attributable to the home. However, the will failed to set up the trust and did not create any trustees.

Sidley, an executor of the will, and Col. Roy F. Farrand, have petitioned the court to interpret the part of the will regarding the disposition of the home, and to give permission to the executors to plat the remaining nine acres of heavily wooded estate into a real estate subdivision.

Admits Setting Fatal St. John's Academy Fire

Waukesha, Wis., March 3 [Special].—John Wenzel, a second year student in St. John's Military academy at Delafield, Wis., today confessed he started the fire which on Feb. 12, 1940, destroyed DeKoven hall and cost the life of William J. Birk Jr., a Chicago student. Birk was 14 years old.

Wenzel, 16 years old, whose home is in Merrill, Wis., confessed the 1940 fire to William A. Greenwood, deputy state fire marshal, and Col. F. W. Mouso, secretary and treasurer of the school.

Wenzel also admitted that he set fire to the school hospital last Jan. 20. The 1940 fire caused a loss of $115,000 and the latest fire inflicted $1,100 damage.

Undecided on Charge.

Wenzel is held in the Waukesha county jail on an open charge. District Attorney Homer J. Williams said he was undecided whether to file a charge of arson or juvenile delinquency.

Greenwood investigated both fires. He became suspicious of Wenzel in January when he learned that he was one of five patients in the school hospital and recalled that he had been the first to report the 1940 blaze.

In 1940 it was reported that Birk was the only boy in the school who had been excused from attending luncheon. Today Wenzel admitted that he, too, had been excused on the pretext of an aching tooth.

Tells of Kindling Flames.

Wenzel said he left his room when the others were at luncheon, started the fire in a refuse box on the second floor, returned to his room for a time and then returned to the hall. Seeing that the fire had a good start, he ran to the office of Col. Roy W. Farrand, headmaster of the school, and reported the blaze.

In the second fire Wenzel and four other students were confined to the hospital by influenza. He said he left his bed, started the fire and returned to bed. The fire damaged the attic of the building.

Asked why he started the flames, Wenzel said he was moved by an urge to see flames.

Birk was the son of Mr. and Mrs. William J. Birk, 4141 Greenwood avenue, Chicago. Mr. Birk is an official of Birk Brothers Brewing company.

ASSISTANT WAR SECRETARY ASKS CURB ON STRIKES

BY WILLIAM STRAND.

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—Alarm over the mounting tide of strikes and labor disorders in rearmament industries has penetrated to inner circles of the Roosevelt administration, it became known today. After nine months of inactivity administration leaders were trying frantically to find a way to halt the labor disputes and to bolster up the sagging preparedness program.

Representative Randolph [top] and Robert P. Patterson.

Newest developments amid increasing tension were:

1. Charging a general breakdown in New Deal procedure on labor problems, Representative Jennings Randolph [D., W. Va.] told the house that 850,000 man-days of labor were lost to the program in February because of labor strife. This, records show, is equal to the record loss for 1940, which was set in October.

Urges Mediation System.

2. Undersecretary of War Robert P. Patterson admitted before a house investigating committee that the loss of time because of strikes is causing rearmament officials as much concern as would a shortage of basic materials. Patterson urged a return to the world war labor mediation system.

[Details on the latest developments in current strikes in armaments industries will be found on page 11.]

3. Figures released by the labor department revealed that in the latter half of last year, when the rearmament program was being launched, man days lost in labor disputes thruout the nation reached the staggering total of 3,908,922, nearly 1,500,000 more than in the first half of the year.

Back Knudsen Proposal.

4. Members of congress rallied to the proposal of William S. Knudsen, director general of the Office of Production Management, for drastic curbs on strikes affecting preparedness production. Knudsen came out for a secret strike vote, a 10 day grace period for an inquiry by the OPM, and a 30 day cooling off period before strikes could take effect.

5. Representative Clare E. Hoffman [R., Mich.], member of the house labor committee, charged the communist party, thru C. I. O. unions, is attempting to wreck the armaments program to further its revolutionary objectives. Similar views have been expressed by Representative Martin Dies [D., Tex.], chairman of the committee investigating un-American activities, and Representative Howard W. Smith [D., Va.], chairman of the committee which investigated the National Labor Relations board.

Survey Shows Effect.

As of today, a survey showed, labor disputes have caused an estimated 38,000 workers in 20 strikes to stop work on government contracts aggregating 210 million dollars. The vast majority of the strikes have been called by the C. I. O., which, according to testimony before the Dies committee, has many leaders under the

ANTI-WAR GROUP HURLS THREAT OF FILIBUSTER

Thousands Demand One—Wheeler.

BY CHESLY MANLY.

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—Anti-war senators today blocked administration efforts to gag debate on President Roosevelt's war dictatorship bill and then indicated willingness to fight it if necessary with a filibuster.

[Charges were made in the senate yesterday that the dictator bill would empower the President to impose press censorship. Details on page 2.]

Denying administration charges that a filibuster already is in progress, Senator Burton K. Wheeler [D., Mont.], leader of the opposition to the dictator bill, told the senate:

"I expect to fight the bill in any way, shape, or form that I can."

Thousands of Appeals.

Wheeler said he had received thousands of letters and telegrams from all parts of the country urging defeat of the dictator bill by a filibuster if necessary. The people, he asserted, are "justified in making those demands."

The opposition strategy, it was learned, is to continue debate on the dictator bill until the people are fully acquainted with its provisions. While the opposition leaders have little hope of preventing passage of the bill, they believe that extended debate will result in such a popular uprising against the measure as to force the adoption of major restrictive amendments.

Among other proposed amendments is one by Senator Allen J. Ellender [D., La.] to prevent the dispatch of American armed forces to fight in foreign wars.

Broadcasts a Warning.

In a radio address tonight, Senator Wheeler imputed ominous significance to the administratior's stand against the Ellender amendment.

"Administration opposition to a prohibition against a new A. E. F.," he said, "certainly lends credence and gives great force to the current rumor that American boys are being trained at Fort Bliss, Tex., and San Diego, Cal., in methods to defend Singapore, and that orders for embarkation to that British stronghold in the Orient are expected momentarily."

The fact that Ellender, a southern Democrat, has offered an amendment to prohibit the dispatch of an American expeditionary force without a declaration of war by congress has occasioned widespread surprise, the south being the most warlike section of the United States. Ellender's amendment, however, does not signify opposition to the bill.

Favors Bill's Passage.

Ellender explains that he favors passage of the bill but wishes the American people to understand clearly that "the aid to England which it contemplates means war." The country will understand this, Ellender believes, if the senate rejects his amendment. On the other hand, if the amendment prevails, congress will retain for itself the right to a final vote on the issue of going to war, according to Ellender.

Senator Wheeler explained after leaving the senate floor that a bill which is strongly supported can be filibustered to death only in the closing days of a session.

"If I could beat this bill by a filibuster I'd do it," he said, "but I don't think it can be done."

Opposes Any Limitation.

Wheeler made it plain, however, that he and other opposition leaders would oppose any limitation of debate at any time. Privately it was estimated that the debate, which began two weeks ago, will continue at least all this week and next week and probably longer.

Senator Bennett C. Clark [D., Mo.] blocked an attempt by Senator Walter F. George [D., Ga.], chairman of the foreign relations committee, to limit debate, beginning tomorrow, to one speech of not more than one hour for any senator on the bill and one speech of not more than 30 minutes for any senator on any amendment.

In objecting to George's request for unanimous consent, Clark said he thought the debate had been "very brief, considering the tremendous importance of this measure, involving the destiny of the American republic."

Denies There Is a Filibuster.

Senator Clark also denied administration charges that a filibuster already is in progress, pointing out that three supporters of the bill delivered prepared speeches today. They were James M. Tunnell [D., Del.], William H. Smathers [D., N. J.], and Styles Bridges [R., N. H.]

Clark noted that Smathers "inveighed against any further discussion of this bill."

"When I sought to interrogate him he dashed out of the side door,' Clark said. "The senator from New Jersey said he thought that any one ought to be able to express any views he had on the bill in 20 minutes. After listening to the senator from New Jersey today, I am convinced that he could have expressed his views without addressing the senate at all."

Senator Wheeler, seconding Clark's objection to the gag proposal, alluded to the fact that southern Democrats who have filibustered repeatedly against antilynching legislation now are shouting "filibuster" charges at the opposition to the dictator bill, some of them even favoring invocation of the senate's drastic cloture rule to pass the measure. The cloture rule, requiring a two-thirds vote, has no chance of adoption.

Flood of Mail.

"Thousands of communications are coming to my office at the present time from every part of the country—not only from New York, Chicago, and Detroit, but from away out in the 'sticks," from farmers and others who are saying that if there is no other way to defeat the bill now before the senate, a filibuster should be conducted against it," Wheeler said.

"I do not wonder that some of the proponents of the bill want it jammed thru the congress at the earliest possible moment, because they know, as I know, that when the American people come to understand it in its details—if it is possible for them to understand it—there will be an uprising in this country against the bill such as has never before been witnessed in this country.'

Senator Robert R. Reynolds [D., N. C.], making his second speech against the bill, said he had no intention of participating in a filibuster, but added that "there is a great distinction between a filibuster and legitimate discussion of any legislation."

Reynolds suggested three amendments to the bill—to forbid aid to Russia under the measure, to deport Harry Bridges, west coast labor leader, and to prohibit "communists, Fascists, or Nazis" from holding government jobs.

Warning from Walsh.

Senator David I. Walsh [D., Mass.], chairman of the naval affairs committee, told the senate today in his first speech against the dictator bill that it means war.

"It seems to me preferable," said Senator Walsh, "to risk the future, prepared to the limit for our own and for hemisphere defense, and with a strong and free people, a stable and truly democratic government, a sound, self-contained industrial economy coupled with every possible defense against attack from any quarter—it is infinitely preferable, I repeat, to take these risks of the unknown future than to intervene in the war now, when to do so means irretrievable ruin, a self-inflicted destruction of our own democracy, a self-imposed totalitarian government, fetters that once they have been riveted may never be unloosed.

"Our choice today is either to keep out of war and risk whatever the future holds in store, or to get into the war and at once cast to the winds our heritage of freedom, make of our constitution a scrap of paper, conscript millions of our youth for fighting, put private property in the hands of the government, and proceed to national bankruptcy."

MASSMEETING CHEERS ATTACK IN DICTATOR BILL

Fort Wayne, Ind., March 3 [Special].—A massmeeting of 1,000 persons in St. Peter's school auditorium here tonight cheered Father John A. O'Brien, professor of philosophy at Notre Dame, when he denounced the dictator bill as an effort to lead the American people into a foreign war against their will, as "an un-Christian—yes, a criminal—undertaking."

Father O'Brien denied this is in any sense "our" war. "The plain people in all the countries are eager for peace," he said. He assailed the Roosevelt administration for insisting upon unconditional victory for one side or the other.

"God Almighty," he said, "is not irrevocably committed to the indefinite perpetuation of the far-flung British empire in its entirety."

Father O'Brien called for a new flood of telegrams to senators and to the White House, declaring he still hopes and prays "the people's servants will not turn a deaf ear to their wishes."

HADLEY ASSAILS DICTATOR BILL AS KING'S DOCTRINE

If the war dictator bill is passed it will impose on the American people the doctrine that the king, in this case the President, can do no wrong, Charles W. Hadley, a former assistant attorney general of Illinois, said last night.

He spoke at a meeting in the Austin Presbyterian church, 5710 Fulton street, under auspices of the David Kennison chapter of the Daughters of the American Revolution.

Hadley said the bill "would place the fate of the United States, for good or evil, in the hands of one man, with not even the power left to congress to remove him from office if he should make disastrous mistakes."

WARN OF THREAT TO A FREE PRESS IN DICTATOR BILL

Charge Measure Makes President a Censor.

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—A charge that President Roosevelt's war dictatorship bill would authorize him to mobilize and direct the press, the radio, and all other communication facilities resulted in a spirited senate debate today on censorship, propaganda, and freedom of speech.

Senator Robert A. Taft [R., O.] precipitated the discussion when he read into the record a telegram from Carl Ackerman, dean of Columbia university's graduate school of journalism, stating that the dictator bill, unless amended, "will confer upon the President the authority to establish a censorship of news and opinion that exceeds any defense need."

Senator Bennett Champ Clark [D., Mo.] immediately inserted in the record a magazine article which, he said, exposed the purpose of "the Hill censorship bill."

Senator Hill Protests.

Senator Lister Hill [D., Ala.] vehemently protested that he had introduced no censorship bill. He insisted that the bill introduced by him and Representative James A. O'Leary [D., N. Y.] merely authorizes the annual appropriation of $1,500,000 to finance the office of government reports, which President Roosevelt created by executive order in 1935 and heretofore has financed out of blank check appropriations.

Senator Clark, after listening to Hill, said he would revise his previous statement and refer to the measure as "the Hill-O'Leary censorship bill."

The Hill-O'Leary bill would legalize the establishment of the office of government reports as a central clearing house, in the executive office of the President, for the collection and dissemination of government information. Opponents of the measure say this would mean censorship at the source of news about the activities of the government.

Dean Ackerman's Warning.

Dean Ackerman's telegram to Senator Taft said the dictator bill's definition of the terms "defense article" and "defense information," together with the broad powers vested in the President respecting the procurement and disposition of such articles and facilities, "would grant the chief executive authority to mobilize and direct the facilities of the press, radio, forum pulpit, and classroom for propaganda purposes at home and aboard."

Dean Ackerman urged amendment of the dictator bill to forbid censorship.

Senator Warren R. Austin [R., Vt.] offered for the record a petition signed by some 100 members of the faculty of the University of Illinois urging passage of the dictator bill.

Senator Burton K. Wheeler [D., Mont.] wanted to know whether Austin had any petitions signed by students of the university—"the boys of military age." Majority Leader Alben W. Barkley of Kentucky assailed Wheeler's statement as a slur upon the faculty members.

CHICAGO DRAFTEE HELD IN MEXICO IS BACK IN ARMY

El Paso, Tex., March 3 [Special].—Private Henry J. Wolfstein, battery C, 202d coast artillery [antiaircraft] of Chicago, was back on duty in Fort Bliss tonight after an enforced absence without leave spent in Juarez, Mexico. Hereafter, Wolfstein, two years out of Kassel, Germany, is going to stay in the United States until he becomes a citizen.

Wolfstein, formerly of 1121 East 54th street, Chicago, was drafted into the army Jan. 6 and came here two weeks later. On leave Saturday he went to Juarez on a sightseeing trip. Like all soldiers, he had an identification card, but his German accent and admission that he was born in Germany caused him to be stopped by immigration officers. The state department today found his entry into the United States legal and issued an order permitting him to reënter from Mexico.

FRANK GETS BIG SENDOFF WHEN THE ARMY CALLS

(Picture on back page.)

There are 15 sons and daughters in the family of Joseph Bedoe, a Lincoln park landscape gardener. And all of them except Mrs. Mary Mahoney, who is in a hospital, were present last night at the family home, 3441 North Western avenue, for a going away party in honor of Frank Bedoe, one of the sons. Frank, a tool and die maker, 24 years old, has been called to join the army today. The youngest of the family is Barbara, 8, the oldest is 29. The father is 49 years old, and his wife is 48. Frank's elder brother, Anthony, 27, is expecting a call soon, altho he may be exempted because he is married.

'UNION NOW' GETS COLD RECEPTION IN CHICAGOLAND

Program Falls Short of Eastern Spread.

A drive to enlist support of Chicago and its suburbs for the "Union Now" plan — union of the United States, England, and other English speaking countries — is beginning here, officials of Federal Union, Inc., disclosed yesterday.

It was admitted nothing like the success found along the eastern seaboard has attended the efforts of organizers here. It was said between 1,000 and 1,500 persons have been placed on mailing lists and that the number of dues paying members is less.

Most activity has been on the north shore thus far. Approximately 350 persons are claimed by the Chicago chapter, the remainder being divided among Winnetka, Evanston, Wilmette, and Hinsdale chapters of the movement.

Chairman Tells of Plans.

Jonathan J. Steen, chairman of the Chicago chapter and director of the private Chicago School for Adults, said an intensified drive is starting to expand the organization.

"We'll have a dinner meeting with prominent speakers on March 15, and a massmeeting next month with perhaps Thomas Mann or Clarence K. Streit, author of the plan, as speaker," he said.

He said the Chicago chapter has not been invited to participate in the campaign to raise $250,000 for "Union Now" which has been initiated in New York City.

Other Chapter Heads.

Other chapter chairmen are Winnetka, Mrs. Dorothy Bushnell Cole; Evanston, Mrs. Homer S. Davis; Wilmette, Mrs. L. H. Miller, and Hinsdale, Everett Addoms. William A. McKinney, president of Kitchen Art Foods, Inc., is head of a metropolitan council coördinating their activities. Among sponsors of the council are Mrs. Cyrus Bentley, Mrs. Emmons Blaine, Miss Sophonisba Breckenridge, Dr. Horace J. Bridges, Joel V. Hunter, Mrs. Andrew MacLeish, Harry Dunlap Smith, and Carroll H. Sudler.

Steen said a majority of members want this country to intervene in the war, with soldiers if necessary. "So far as I am concerned, this is a labor of love," Steen said. "Of course, England must win, or else we will have nothing to unite with."

GUTZON BORGLUM IS REPORTED ILL; FAMED SCULPTOR

Gutzon Borglum, the sculptor, was reported seriously ill in the Henrotin hospital last night. Hospital officials declined to issue a statement. It is understood that Borglum suffered a heart attack following a recent operation, and that his present condition results from the heart ailment. Borglum's wife and son, Lincoln, are staying at the Drake hotel. She suffered an arm injury two weeks ago when she fell while on her way to the hospital from the Drake hotel. Borglum will be 74 years old March 25.

U. S. AID WILL ARRIVE IN TIME, AMBASSADOR WINANT TELLS BRITAIN

[Chicago Tribune Press Service.]

LONDON, March 3.—The new American ambassador, John G. Winant, told British newspapermen in his first press conference today that American aid to Britain would not come too late. An "increasing amount of material is leaving the United States every day," he said.

The press here emphasizes the new ambassador's "diffidence, modesty, and shyness" and his personal appearance. Warned in advance in the press of the ambassador's "untidiness," Daily Telegraph readers tomorrow will be informed that the dark gray suit he wore today "fitted him loosely and his trousers were not pressed."

Before receiving the British press, Winant saw American newspapermen but said it was merely to say "how do you do." Embassy officials were reported busy working out a program of appointments for him. He is expected to see Prime Minister Winston Churchill and other ministers tomorrow and will make his first public speech at a Pilgrims society luncheon in two or three weeks.

CAPPER THANKS MOTHERS ON WAR REFERENDUM AID

Mrs. Barbara Winthrop, president of "We, the Mothers, Mobilize for America," made public yesterday a telegram from Senator Arthur Capper [R., Kas.] thanking the organization for its support of his war referendum bill. The bill, reintroduced in congress Feb. 24, would seek a constitutional amendment requiring a vote by the people before the nation could engage in war.

"You asked what you could do to help," the telegram reads. "I believe you would render a real service by arousing public opinion on the subject and gaining popular support for the war referendum measure."

Mrs. Irene Castle McLaughlin, it was reported, has become a member of the organization.

AMERICA FIRST SEEKS A.E.F. BAN IN DICTATOR BILL

But Drive to Kill the Whole Measure Goes On.

The Illinois America First committee began a drive yesterday to insure passage of the Ellender amendment to the President's war dictatorship bill. It was made clear, however, that pressure to defeat the entire war powers measure would not be eased.

Mrs. Janet Ayer Fairbank, vice chairman of the Chicago chapter, urged members of the 50 America First chapters in Illinois to write to Senator Scott W. Lucas [D., Ill.] and Senator Wayland Brooks [R., Ill.] asking them to support the amendment, which would prohibit the sending of American troops outside the western hemisphere.

Want Curb on President.

"We have not given up the fight to defeat the war bill by any means," Mrs. Fairbank said. "But we want to make sure that even if it is passed by congress it will contain a clause against sending American youths to die on foreign battlefields. The Ellender amendment will do that."

The amendment, introduced by Senator Allen J. Ellender [D., La.], has the support of many senators committed to the war dictatorship bill. Senator Lucas has indicated that altho he would vote for the dictator measure, he favors a ban on the transport of American troops abroad.

Carlson to Talk in Evanston.

Mrs Elizabeth Landa, chairman of the speakers bureau of the Chicago chapter, announced that Dr. Anton J. Carlson, University of Chicago professor, would address a meeting of the Evanston chapter of the America First committee tonight at 8 p. m. in the auditorium of the State bank building in Evanston. Dr. Carlson will speak on "The Lend-Lease Bill and War."

Dr. Howard G. Swann, also of the University of Chicago, and Dr. John A. Morrison, executive director of the Committee to Defend America by Aiding the Allies, will debate the war dictatorship bill tonight at 8 p. m. in the Winnetka Community house. The debate is sponsored by The Women's Republican club of New Trier.

Italy Puts Curb on News of Nazi Troop Movements

ROME, March 3 (AP).—The ban which prohibits the foreign press from telling of Italian troop movements was enlarged today to include German and other axis troops. Foreign correspondents were forbidden to send news even when printed in Italian papers. Such news may be sent only when included in the official communiques.

Mrs. Dilling and Her Followers Have a Quiet Session in Court

BY MARCIA WINN.

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—The feminine attack on Capitol hill was held in abeyance today. Mrs. Elizabeth Dilling of Chicago and 30 of her mother crusaders sat quietly in police court awating the outcome of Mrs. Dilling's latest encounter with police.

She was arrested last Friday for leading her followers in a "sitdown strike" before the locked doors of the office of Senator Carter Glass, the aging Democrat from Virginia. He espouses H. R. 1776, the dictatorship bill, against which the crusaders are crusading.

The women contend they sat down because they were tired. They say Senator Glass locked his doors against them when they attempted to present him with an American flag as a "reminder of patriotism." Senator Glass accused the ladies of a noisy disorder unworthy even of fishwives and asked the Federal Bureau of Investigation to investigate them.

One Crusader Testifies.

Today's trial started out in fine fettle, but Judge Hobart Newman heard only one witness, Mrs. L. R. Miller, a leathery little woman from a Gove county, Kansas, farm, before he continued the hearing until tomorrow.

Mrs. Miller, mother of three children, one a son of 23 years, testified she joined the mother crusaders somewhat by accident. She heard by radio that mothers were coming to Washington to fight the war dictatorship bill and decided to come. Once here, she didn't know what to do.

Setback for Prosecutor.

"I was wandering around in those big halls and in the senate office building, sometimes lost and sometimes not," she said. "Then I ran into these mothers. I found we had the same mission here."

"What is that?" she was asked.

"To defeat bill 1776," she said.

At this point the prosecutor, George R. Littlehales, attempted to impugn her motives by asking whether she were not somewhat of an anglophobe.

"I am a descendant of the British aristocracy," she told him proudly. "There was Lord Nottingham on my father's side, and on my mother's side Lady——" Laughter from the courtroom submerged the name of her noble maternal ancestor.

"But what was the purpose of the flag for Senator Glass?" the judge inquired.

"Well, to recall to his mind," she began, "that this is America and to remind him of the Declaration of Independence."

At this point the hearing was adjourned. Mrs. Dilling took no part in it, but later said her crusade has just begun.

Other Groups' Attitude.

Elsewhere in Washington groups of men and women alike, even groups who are in accord with the Dilling objectives, defeat of H. R. 1776, drew loud and vocalized sighs of relief at the temporary quietude of the day. They point out that Mrs. Dilling's methods, which have included picketing, effigies, and a good bit of noise, are not theirs.

"We've been trying to do our bit," the spokesman for one such group said today, "but we've done it quietly. I think this circus has been harmful and unpleasant. I think it has done the cause and our work a great deal of harm."

Samoa Struck by Worst Hurricane in 20 Years

TUTUILA, American Samoa, March 3 (AP).—A hurricane, described in some sections of the islands as the worst in 20 years, struck American Samoa last night. The United States naval station here was not damaged. The gale at times reached an estimated velocity of 90 miles an hour. Banana crops were ruined in much of the native area. Some native villages were virtually leveled.

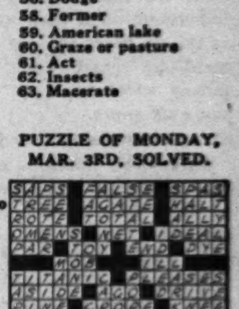
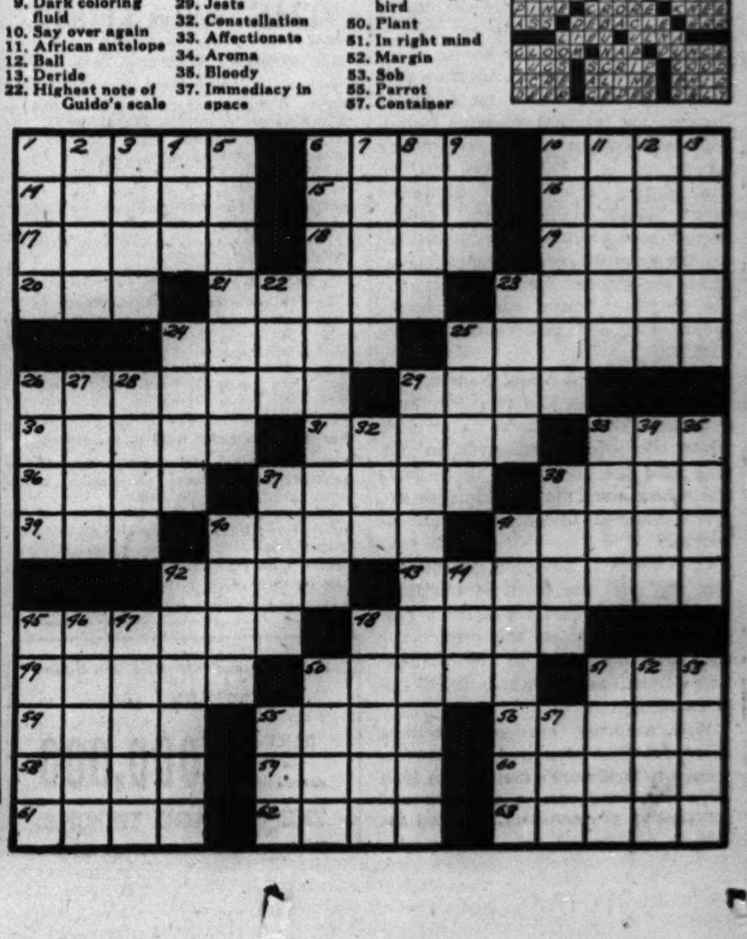
PUZZLE OF MONDAY, MAR. 3RD, SOLVED.





CHICAGO GROUPS UNITE TO BUILD AIRPORT ON LAKE

Dewey Committee to Ask U. S. Aid in 30 Days.

BY WAYNE THOMIS.

Leaders of virtually every business group in Chicago have promised to support a renewed effort to obtain a downtown lake front airport. As a result, a representative group of citizens will go to Washington within 30 days to ask federal assistance in raising funds.

This was announced yesterday by Ben E. Regan and Nathaniel Leverone, who are assisting Congressman Charles S. Dewey, Republican, in reviving interest in the airport. They spoke after an executive meeting of the committee created last January by the congressman to push the project.

Finish Six Week Survey.

Regan said no opposition to the field had been encountered from any of the groups approached by the committee during six weeks of intensive surveys. Hospital groups, the Greater Chicago Hotel association, State street merchants, bankers, and manufacturers alike have expressed complete approval, he asserted.

"Three committees within the Chicago Association of Commerce—which never has given its approval to the projected lake front field—now are favorably disposed toward the project," said Regan. "The new plans will be put before the A. of C. aviation committee next week.

"Marvin Probst, one of the best airport architects in the country and the man who is building the huge new government flying field in Puerto Rico, yesterday offered his services free to the committee.

"Theodore T. McCrosky, executive director of the Chicago Plan commission, is to deliver to us tomorrow or the next day an up to date plan for an island airport. This plan will be essentially the same as the one developed by Civil Aeronautics administration engineers a year ago, but it will be modernized to contain everything a class No. 4 'super' air terminal should have."

Call It "Virtually Only Site."

Surveys made by E. P. Querl, industrial development manager of the Association of Commerce, Regan said, show that Cook county has virtually no possible site for a superfield other than the downtown Chicago lake front area.

Business leaders supporting the lake front airport, Regan said, include George A. Kelly, Pullman company executive; Anderson Pace, industrial engineer for the Illinois Central railroad; Joseph Benz, managing director of the Stevens hotel and a leader in the Chicago Hotel association; Paul H. Davis, investment banker, and Sterling Morton and Joseph T. Ryerson, manufacturers.

A complete report of the airport committee's work will be presented soon to Gov. Green at Springfield, Leverone said. Green's approval is anticipated, Leverone asserted.

"For the first time in the 10 years in which a lake front airport project has been considered seriously," Leverone said, "the city seems to be united in approving it."

CHICAGO INCOME TAX FILINGS BEAT 1940 PACE 2 TO 1

More than twice as many persons in the Chicago district filed income tax returns during January and February as compared with the same period in 1940, according to figures released yesterday by Carter H. Harrison, collector of internal revenue.

This year 93,000 persons filed returns and their taxes totaled $27,238,482 during the two month period. Up to March 1, 1940, 42,225 persons filed returns and their taxes totaled $14,003,697.

Thruout the nation, income tax filings were reported to be 58 per cent ahead of last year.

In Chicago returns, income taxes this year are averaging $299, as against $332 last year, Mr. Harrison said. He attributed this to the fact that the large number of persons filing returns for the first time this year are in the lower income brackets.

Most of the very large returns are not expected until the last day or two before the March 15 deadline.

BUDGET SURVEY GROUP APPROVED BY COUNTY BOARD

The Cook county board of commissioners yesterday approved the appointment of a seven man budget survey commission to make recommendations for cutting the 1942 budget. The survey will cost $20,000.

The committee members are Lee J. Howard, county auditor; Sylvester O'Donohue, assistant to the controler; Arthur Sullivan, attorney for the county treasurer; William McFetridge, president of the Building Service Employés union; Philip F. W. Peck, vice president of the Civic Federation and Bureau of Public Efficiency; Whipple Jacobs, president of the Belden Manufacturing company, and Simeon E. Leland, acting chairman, department of economics, University of Chicago.

A similiar survey for the city of Chicago eliminated 260 pay rollers and saved $500,000 a year.

JUDGE DISSOLVES RECEIVERSHIP OF BARTENDER UNION

Operation of local 278 of the bartenders' union was returned to its members yesterday when Circuit Judge Robert Jerome Dunne signed a decree dissolving the union's receivership and making permanent an injunction restraining remnants of the Capone gang, headed by Frank [The Enforcer] Nitti, from interfering with the local.

The decree also criticized county law enforcing agencies for failing to protect the union from gangster domination.

It praised the efforts of Roy D. Keehn, who was union receiver since last summer. Keehn now will turn over management of the union to James Crowley, president, and other officers.

BROKER SEIZED IN $25,000 STOCK JUGGLING THEFTS

New York, March 3 [Special].—Waldorf Gutmann, 48, a member of the firm of Merrill, Lynch, E. A. Pierce & Cassat, one of the largest securities firms in the country, was arrested today for alleged thefts of $25,000 from the company.

The arrest came less than an hour after the New York Curb exchange governors had expelled him. He allegedly had admitted embezzlement of $28,000. Gutmann is said to have admitted he spent large sums in night clubs. He is married and has a child.

Police charge the frauds have been going on since 1936.

CO-EDS FIND 3 TO 1 ODDS DON'T MAKE THEM FAVORITES

They Try Something New in Race for Dates.

Bloomington, Ill., March 3 [Special].—Co-eds are wearing the galluses at Illinois Wesleyan university this week. They're doing the dating—taking the men to the movies and parties, and helping them with their galoshes and coats. And the girls are paying the bills.

They're tired of sitting in their rooms studying at night while the campus men dance and dine with off-campus beauties.

Three Men to a Girl.

One of the attractions of Illinois Wesleyan is the fact that there are three men for every girl. But the co-eds complain that once they're enrolled they discover that the three men they were expecting to entertain them are all busy with high school girls and charmers who work in offices downtown.

That's why the campus girls made this Spinster week. They announced that they're going to ask for the dates, keep the men out every night, and take them to a prom Friday night. They hope the dummies will get the idea themselves after that.

The girls are opening the doors for the demure gentlemen they escort, giving them cigarets and lighting them, taking them home after dates, and protecting them incidentally from too gorgeous flirts.

Some Typical Plans.

Phyllis Ann Smith said that she was going to spend 88 cents tonight to take William Wilmoth to a movie. And then, she said, she was going to feed him at the best place in town. Connie Hasenwinkle said she was going to spend $2 on her date.

There's just one thing the girls don't like—tipping their hats. They say it's darnednearimpossible [a Greek word meaning difficult] to get their bonnets on straight again.

The men think the vice versa system is swell. And they have an alibi: "We thought the campus girls were high hat."

DOWN 5 ITALIAN PLANES BOMBING VICTIMS OF QUAKE

ATHENS, March 3 (AP).—The quake stricken city of Larissa was bombed a second time today by a group of five Italian planes, all of which, the Greek government said, were shot down.

After a preliminary survey engineers estimated 60 per cent of the town's 6,000 houses were made uninhabitable by Saturday's quake and that others might be used after repairs. Some inhabitants expressed the opinion that only about 5 per cent of the buildings were safe. The dead were reported to total 36 in an official count.

Headquarters of British forces in Greece announced British pilots heavily attacked the Italian airdrome at Berat, Albania, yesterday, hitting hangars and other buildings, setting fires, and damaging three grounded planes.

First Colored Artillery Brigade Formed by Army

Washington, March 3 (AP).—The first field artillery brigade in the army's history composed of Negro enlisted men is being formed this month, in conformity with official policy to organize Negro units in all major branches of the land forces. The war department announced today that the newest organization, the 46th field artillery brigade, was being formed at Camp Livingston, La. It will be made up of three all-Negro artillery regiments.

PETRILLO NAMES STARS WHO JOIN MUSICIANS' UNION

New York, March 3 [Special].—James C. Petrillo, president of the American Federation of Musicians, declared today that he expects 99 per cent of the solo instrumentalists not now members of the A. F. M. to join by Saturday.

Petrillo recently set March 1 as a deadline for the instrumentalists belonging to the American Guild of Musical Artists, threatening them with a boycott by 130,000 A. F. M. members if they failed to join the larger body.

Petrillo gave out a long list of instrumentalists who, he said, had joined the A. F. M. Among them are Eugene List, pianist; Max Rosen, violinist; Vladimir Sokoloff, accompanist for Efrem Zimbalist, violinist; Oscar Straus, composer; José Iturbi, pianist; Albert Spalding, violinist, and Zimbalist. Sergei Rachmaninoff and Josef Hoffman, pianists, have been made honorary members of the New York local, Petrillo said, and Fritz Kreisler, violinist, has been made an honorary member of the Chicago local.

NEW YORK TO ASK ARMS FUNDS FOR 4 CITY HIGHWAYS

Claim Super-Roads Have Military Value.

BY HAL FOUST.

[Chicago Tribune Press Service.]

New York, March 3. — This city, with a record for success in such projects, is prepared to ask the government for armament funds for construction of four superhighway projects estimated to cost 65 million dollars, including 23½ millions for rights of way.

In Washington, D. C., federal road officials, who have been confering with the war department, believe the present congress will appropriate large sums for such projects. To qualify for this money, the jobs must be of importance for motorized military movements or for transportation for armament industries, and must be capable of rapid completion, within a year or thereabouts.

Close Traffic Gaps.

New York is ready to benefit from such an appropriation. Chicago is not. Neither Chicago nor the Illinois highway department has prepared plans meeting the requisites. All Chicago has is a discredited proposal for superparkways, including Congress street, which would require years for right of way acquisition.

New York's four projects close gaps in a system of modern traffic facilities on which half a billion dollars has been spent in the last two decades. They are now advocated as a necessity for movements of motorized military equipment. However, they were originally conceived long before the present war hysteria.

Perhaps the most spectacular proposal is for a double decked elevated highway across lower Manhattan to provide an uninterrupted flow of traffic thru the most congested area of the tower studded island. The construction is estimated to cost $10,300,000. Land assessed at $8,800,000 would have to be acquired.

Plan Midtown Cross Artery.

A midtown elevated highway across Manhattan between the Lincoln tunnel under the Hudson and the Queens tunnel under the East river is also being planned, but it is not urged for construction with the armament appropriations because the acquisition of right of way could not be completed within a year.

A second project on the emergency list is a Pelham-Portchester express highway. It would connect the Merritt parkway and the Boston Post road in Connecticut with corridors to the Triborough bridge and the new East River drive. Construction is estimated to cost $14,400,000 plus $8,750,000 for right of way.

A third project on the list is a connection between the George Washington bridge over the Hudson river and the Triborough bridge to Long Island. Construction is estimated to cost $11,700,000 plus $5,800,000 in land to be acquired and $1,800,000 in land now owned by the city.

The fourth proposal is for a Brooklyn-Queens connecting highway that would pass thru the Brooklyn navy yard and feed the Brooklyn docks at one end and lead to the municipal airport at the other end. Construction is estimated to cost $5,100,000 plus $7,000,000 for right of way and plus $345,000 of city owned land for right of way.

This four point program was prepared by Robert Moses, chairman of the Triborough Bridge authority, for Mayor Fiorello La Guardia.

FIRST GERMAN VESSEL TO PIERCE BLOCKADE REACHES BRAZIL PORT

RIO DE JANEIRO, March 3 (AP).—Capt. Friedrich Brinkmann of the blockade running German freighter Lech, said today his vessel would remain here until the end of the war, "which I think will be very soon."

The 3,290 ton ship, built in 1939, was the first to get thru the British blockade of the South Atlantic from Europe. It docked here today. Brinkmann, formerly on North German Lloyd liners plying to New York, said the Lech carried no arms.

"During the whole trip of 31 days we did not sight any British vessel, warship, or merchant ship," he continued. "The only occurrences worthy of note were meetings at various points with a German ship and our long range bombers. All Germans believe the war will end this year," he added.

Brinkmann said the Lech carried one airplane and medical and chemical products for Brazil. He said only that the ship sailed "out of a European port under German sovereignty." Other informants said the point of departure was Bordeaux, France.

STORM PASSES CITY RAPIDLY; FORECAST: FAIR

Chicagoans may expect some sunshine today, tho the weather will continue cold, Forecaster Gordon E. Dunn predicted last night after a sudden drop in temperature yesterday coated city streets and drives with ice and slowed automobile traffic.

Dunn said the clouds that darkened the city during the day and the rain which later turned to snow was part of a storm that began last Friday on the west coast and was moving east rapidly. By midnight the storm had passed Chicago. Cold north winds yesterday dropped the temperature swiftly from a high of 51 degrees at 9 a. m.

Hundreds of motorists were stalled temporarily on the icy drives last night and all police cars were ordered to remain at the various stations unless called for duty. Park and city workers scattered cinders and sand on the hazardous drives.

RICKENBACKER IS BETTER; GETS HIS SANDWICHES

Atlanta, Ga., March 3 (AP).—The scene was Capt. Eddie Rickenbacker's hospital room tonight. Watchful doctors had gathered about the world war flying ace, seriously injured Thursday night in the crash of a big sleeper plane.

"How am I?" he asked from beneath an oxygen tent placed about him to facilitate breathing, made difficult by fractured ribs.

"You are pretty sick, Eddie, but you are better," said one of the doctors. "We want you to eat something. Do you feel like eating?"

"Yes, I do," Capt. Rickenbacker replied. "I want a ham sandwich, an egg sandwich, and something to drink."

The doctors looked at each other, seemingly puzzled.

"Maybe a poached egg, Eddie, and a little milk," suggested one.

"No," said the Eastern Air Lines president, "I want something to eat. I want a ham sandwich and an egg sandwich and——"

"All right, Eddie," said one of the doctors.

And that's what he got.

BULGARIAN REDS FIGHT FASCISTS IN RIOT AT SOFIA

Nationalists Shout 'Down with Jugo-Slavia.'

SOFIA, Bulgaria, March 3 (AP).—An old nationalistic aim of a vastly bigger Bulgaria, to take in territory now held by Greece, Jugo-Slavia, and Albania, was revived today by shouting Bulgarian Fascists. They became bold in the presence of German troops rapidly filling the country and pouring to the Grecian and Turkish frontiers.

Singing "Down with Jugo-Slavia," groups of parading Fascists fought with communist students in the streets within a block of the royal palace. The police made many arrests in breaking up the riot.

There had been speculations that there would be a communist uprising when the Nazis came in, but by grapevine communist leaders had ordered the followers in advance to resist only by propaganda and passive noncoöperation.

Most Leaders Gone.

Meantime, however, such leaders for the most part now are gone: in concentration camps or hiding in the hills.

In Sofia there were significant parades other than that disrupted by fighting. Demonstrators sang the historic revisionist chants of the Macedonian terrorist organizations of bygone days, in celebration of the 63d anniversary of the projected—but never effective—treaty of San Stefano. That treaty theoretically established new frontiers for a mighty Bulgaria.

Semiuniformed students and other followers of Prof. Tsankov's National Socialist movement cheered revisionist speeches thunderously before the statue of the Czar Alexander, who had tried vainly to impose the treaty of San Stefano.

Recall "Imro" Terror.

It was the Macedonian revolutionary organization "Imro"—whose gunmen spread terror in southeastern Europe for many years—that for years helped keep alive demands for a greater Bulgaria.

There were unconfirmed rumors here that Imro's leader, Ivan Mihailov, had returned to the country after more than six years in exile.

The fact that Fascist groups now are publicly singing the Macedonian revolutionary songs despite a ban imposed by the government led to speculation as to what is to happen to the cabinet of Premier Bogdan Philov.

German troops already had reached the Greek frontier at a point only 65 miles from Salonika and others were heading for the Turkish border.

U. S. LEGATION IN SOFIA PREPARES TWO PROTESTS

SOFIA, Bulgaria, March 3 (AP).—The United States legation prepared two protests to the Bulgarian government today.

One concerned the arrest of a Bulgarian subject, Boris Yanev, an employé of the Chicago Daily News, who was taken from his home at dawn Friday and still is missing. The legation took especial exception to the reported seizure of the American flag, which the arresting officers were said to have taken from Yanev's home "as evidence."

The second protest is against the refusal of the Bulgarian military to allow George Earle, American minister, to cross the frontier into Jugo-Slavia Saturday.

The legation announced also that the secretary of the American military attaché in Rumania, Col. John P. Ratay, had ben sent to a concentration camp by Rumanian authorities in a roundup of Rumanian men and women with British connections.

REPORT GERMAN GENERAL SETS UP OFFICES IN SOFIA

BELGRADE, Jugo-Slavia, March 3 (AP).—Field Marshal General Sigmund List, commander in chief of Germany's Balkan armies, was reported today to have installed headquarters in Sofia.

German troops continued to roll into Bulgaria from Rumania. Bulgaria's Black sea ports of Varna and Burgas were completely in German hands.

Premier Dragisha Tsvetkovitch and Foreign Minister Aleksander Cincar-Markovic conferred with Regent Prince Paul after the premier had returned suddenly by airplane from his home province. Authoritative quarters said the talks concerned the possibility of Jugo-Slav membership in the axis three power pact.

Dr. Baer, German Consul Here, Goes to Hospital

BRITISH TAKE NEW AFRICAN TOWN IN 80 MILE ADVANCE

CAIRO, Egypt, March 3 (AP).—British imperial forces pursuing their cleanup in Italian Somaliland have struck onward 80 miles northeast of Mogadiscio, along the coast of the Indian ocean, to occupy Villagio Duca Degli Abruzzi, middle eastern headquarters announced here today.

The town—literally the Village of the Duke of Abruzzi—is on the rail route from Mogadiscio, the captured Somaliland capital and principal port, and is an agricultural center.

In Italian Eritrea the British were declared to have smashed thru a guarded mountain pass protecting the strategically important town of Keren.

Germans in Second Clash.

BERLIN, March 3 (AP).—Clashes between German and British scouting troops in Italian Libya were reported tonight by authorized sources, which said the Germans took a number of prisoners and captured one armored car. This was the second encounter reported between Germans and the British in North Africa. Nazi planes bombed the British at Tobruk and troop concentrations elsewhere.

AUHAGEN SEIZED AT LA SALLE FOR NAZI ACTIVITIES

Ottawa, Ill., March 3 [Special].—Federal agents tonight arrested Dr. Friedrich Ernst Auhagen, an alien visitor in the United States, on a fugitive warrant from Washington, D. C., where he was indicted today on a charge of having failed to register with the state department as a paid publicity agent of Germany. The indictment said he lectured, conducted meetings, exhibited movies, and wrote magazine articles to promote Nazi interests.

He was seized in the home of Mr. and Mrs. Edward H. Carus in La Salle, where he has been a guest for two months. He was arraigned in Ottawa before United States Commissioner T. E. White, waived examination, and was held for federal grand jury action. Carus and his wife posted $5,000 bond and obtained Auhagen's release.

Commissioner White said Dr. Auhagen protested the charge was a "bum rap."

Auhagen has been a frequent visitor in Chicago and the guest of a number of widely known persons. He was arrested last September in San Francisco when he was about to board a boat for Japan and returned to Washington, D. C., for examination by the Dies committee. The committee said he was a German propagandist.

EDEN IN SECRET WAR TALK WITH GREEK LEADERS

British General Attends Athens Parley.

BY SAM BREWER.

[Chicago Tribune Press Service.]

ATHENS, Greece, March 3.—Anthony Eden, British foreign secretary, and British military leaders conferred with Greek leaders today in continuation of the talks begun last night as part of the fence mending tour that took Eden to Turkey and now has brought him to Greece.

The foreign secretary and Gen. Sir John G. Dill, chief of the British imperial staff, met with King George II., of Greece, Premier Alexander Korizis, Generalissimo Alexander Papagos, and other Greek government leaders. Details of the talks were kept a secret. However, those observers said the conversations embraced expansion of British aid to Greece in the event German troops invaded her from Bulgaria.

U. S. Envoy Sees Eden.

Before the conference Lincoln MacVeagh, the American minister, called on Eden at the British legation.

The visit of the British foreign secretary has aroused tremendous enthusiasm in Athens. For more than an hour before he appeared to attend an official luncheon at the Hotel Grande Bretagne a crowd waited outside to see him. When he appeared the Athenians cheered him and a band struck up "It's a Long Way to Tipperary."

Newspapers praised Eden as the man who first recognized the danger of "appeasing" a dictator.

It is understood that Eden and his party will stay in Athens for several days in order to complete studies of the situation and to prepare plans to deal with any new troubles that may arise in the Balkans.

Report British in Salonika.

ROME, March 3 (AP).—Virginio Gayda, authoritative Fascist editor, asserted today that the British have been landing strong forces at the Greek port of Salonika.

This was put forward in an apparent attempt to substantiate the axis contention that German troops entered Bulgaria to prevent British advance in that sector.

Remarking on the importance of the Mediterranean area to British war plans, Gayda said that was why the British had "concentrated in the Mediterranean such imposing masses of armed forces and mechanized means gathered from all parts of the empire and the United States, and so many plans of offensive and defensive action."

"Again in recent days," he added, "movements of British arms into various points of the Mediterranean and notable disembarkations in Salonika are noted. If England itself, which is using Greece as a base of offensive operations against Italy desired to create an essential theater of war in the Mediterranean, it is natural that the axis should react by opposing similar forces and plans."

Britain Fixes Coffee Price Limit at 54 Cents a Pound

LONDON, March 3 (AP).—The food ministry fixed the price of coffee today at not more than 54 cents a pound.

BRITISH DISCLOSE TRAWLER LOST; FOE'S SHIP SUNK

LONDON, March 3 (AP).—The sinking of the British trawler Ouse was announced tonight. The admiralty gave no further details. The air ministry announced a 2,000 ton vessel was torpedoed amidship yesterday in an air assault on a German convoy in the North sea.

Claim 21,000 Tons.

BERLIN, March 3 (AP).—German air and U-boat raiders were claimed yesterday to have sunk three merchantmen totaling 21,000 tons and damaged two others in raids on British shipping.

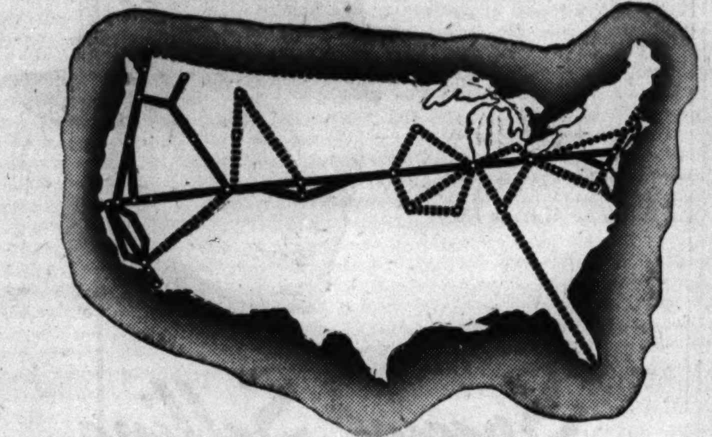
WILL YOU BE ONE OF THE 3,500,000 AIR PASSENGERS IN 1941?

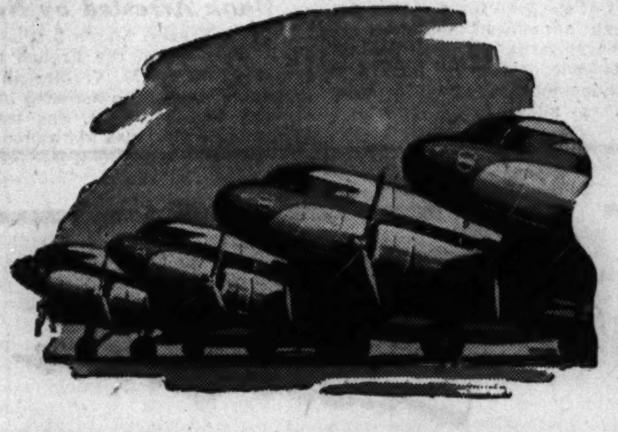
IF YOU have important work to do: if your skill and effort can contribute to essential industry and national re-armament; if the letters you mail and the materials you make concern faster, better work and *more production*—then the use you make of air transportation during 1941 is of vital importance both to you and to the nation.

It is conservatively estimated that three and a half million passengers plus millions of pounds of mail and express, will fly the airways this year. They will add years of man-hours and machine-hours to our nation's productivity. To them, United Air Lines offers nation-wide service, frequent schedules, low fares.



THE CENTRAL YEAR 'ROUND AIR ROUTE

United's Main Line Airway is the shortest, fastest, most direct route between many of the principal centres of industry, agriculture, commerce and finance. That's why it is the world's busiest long-distance airway. It joins New York, Philadelphia, Cleveland, Chicago and other great eastern and mid-western areas, to Omaha, Denver and every major Pacific Coast city from San Diego to Vancouver.



THE MAINLINERS ARE READY

United's great fleet of seventy multi-engined airliners is already on its way to a record year in 1941. Three thousand United men and women, working with the smooth, seasoned teamwork of long association, are carrying out the many highly specialized tasks required by an airline transporting the greatest traffic in its history. *1941 fares are the lowest they have ever been—probably much lower than you think.*

YOU'LL ENJOY MAINLINER SERVICE

When you make a trip, even on the most urgent business, you will find that United's famous Mainliner Service is planned to make every moment of your journey enjoyable, from the quick, efficient handling of your reservations until you reach your destination. From 190,000,000 miles of flying United has developed a service which causes seasoned air travelers to say: "United is my favorite airline."

NEW 'CHANDELIER FLARE' USED IN RAID ON BRITAIN

Gains in Brilliancy When Struck by Shells.

LONDON, March 4, Tuesday (AP).—German raiders, using a new "chandelier flare" to guide them to their targets, heavily attacked northeast England and a town in south Wales overnight. The flare burst into additional brilliancy when hit by antiaircraft shells.

[*The Welsh town was Cardiff, German reports said.*]

The flare as used over East Anglia consisted of a main orange section which appeared to be strung on a cable of white lights extending below and above the main flare. It remained stationary for 15 minutes. Then British antiaircraft guns fired and the flare burst into thousands of smaller lights.

Early reports said casualties were "fairly heavy" in the Welsh town where the greatest number of incendiary bombs yet dropped were reported "scattered recklessly over wide areas." All of the fires were extinguished before dawn, a communique said.

Bombed by Waves of Planes.

A northeast England town underwent bombings by waves of planes. Southeast Scotland, southeast England and the western Midlands also were under attack.

Fire watchers pounced on the incendiary bombs dropped during three hours of light raiding of London. Intervals between bursts of antiaircraft fire indicated that night fighter planes had gone up to challenge the Germans. Few raiders were over Britain in daytime yesterday.

British bombers made their second successive night sweep over the French "invasion coast" and bombed targets in the industrial Rhineland.

The night offensive was concentrated along the French coast from Boulogne to Dunkirk. The raids followed up a heavy attack Sunday night on Brest, where bombs were poured on a German cruiser of the Hipper class. Docks at Calais and Rotterdam and the seaplane base at List also were bombed.

Big Bomber Crashes in Ireland.

DUBLIN, Ireland, March 3 (AP).—A four motored German bomber crashed tonight near Rosslare on the Irish southeast coast. One crewman was killed and the four others were interned.

10 Killed in Holland.

AMSTERDAM [via Berlin], March 3 (AP).—German press authorities announced today that 10 persons were killed and 28 injured by British bombs loosed upon the Netherlands during the week-end. Fatalities, it was added, included nine at The Hague, where it was stated that scores of houses in the center of the city were demolished or damaged.

STRIKES FEARED AS BRITAIN ACTS TO RULE DOCKS

Half of Clydeside Labor Is Expected to Quit.

BY LARRY RUE.

[Chicago Tribune Press Service.]

LONDON, March 3.—Serious labor trouble threatens the Clyde river area in Scotland, according to information reaching THE TRIBUNE from Glasgow tonight, as a result of opposition to a government scheme to take over control of the docks and turn the workers into state employés on a weekly wage basis.

Ninety-nine per cent of Clydeside workers are against the plan, a docker's union spokesman declared, and are planning a massmeeting to air their grievances.

Minister of Labor Ernest Bevin has announced that the mobilization of docks and labor, which will come into force in the Mersey river area next Monday, will be extended to the Clyde district. The conservative Daily Telegraph warned that "50 per cent of Clydeside dockers will refuse to work" despite the government ban on strikes.

Delay of Ships Denied.

Bevin's scheme is designed to speed the clearance of ships and cargoes. Clydesiders claim, however, that no ship has been unnecessarily delayed at their docks. Employers and a majority of the union leaders have agreed to accept Bevin's scheme.

The Daily Telegraph's industrial correspondent stated:

"I am certain there is no communist influence behind the dockers' antagonism. The objections are that the regimentations are against all the traditions of Glasgow dock workers and they prefer the old system of daily payment rather than a regular weekly pay day."

Face Income Tax Levy.

Most Clydeside dockers are reported to be earning more than the government's guaranteed 82 shillings 6 pence weekly [about $16.50].

Regular payment by a government department would mean that for the first time many Glasgow dockers would have to pay an income tax. Now they work for two, three, or even seven employers weekly without any check on their total earnings.

It is believed the government plan will be accepted at Greenock, a port near Glasgow.

BULGARS NURSE A 63 YEAR OLD DREAM OF GLORY

The history of Bulgaria is a tale of bloody wars and suffering and years of lonely peace without a close friend among her Balkan neighbors.

Sixty-three years after the treaty of San Stefano promised her wide borders reaching across the Balkan peninsula, Bulgaria remains a tiny, backward agricultural country with much of her former territory in the hands of Greece, Jugo-Slavia, and Rumania.

Now that the German legions have overrun Bulgaria, Nationalists are again raising the cry for realization of the frontiers laid down by the treaty of San Stefano.

One Moment of Greatness.

For a short time after the armies of Czar Alexander II. of Russia freed her from five centuries of Turkish rule in 1878 Bulgaria boasted wide frontiers. The San Stefano treaty, which was signed on March 3, 1878, ended the Turco-Russian war and revived the ancient kingdom of Bulgaria annexed by Turkey in 1393. It gave to Bulgaria the larger part of ancient Moesia, Thrace, and Macedonia, with its boundaries the Danube river, the Black sea, and Aegean sea, Albania, and Serbia. The country constituted three-fifths of the Balkan peninsula, with a population of 4,000,000 inhabitants.

A Consistent Loser.

The treaty was revised, however, at the congress of Berlin three months later, despite the efforts of the Russian czar, and much of the former Bulgarian territory was thrown back into Turkish subjugation.

Since then Bulgaria has lost consistently in her efforts to win back territory and free herself from foreign domination.

In 1913 she was forced to give up lands won in the first Balkan war of 1912, her Balkan allies disagreeing over the division of the spoils.

Bulgaria picked Germany to win the first world war—and lost again. Southern Dobruja went to Rumania, Caribrod and Strumisa to Jugo-Slavia, and her Aegean coastline and her previous conquests in Macedonia to Greece. Dobruja was returned when Germany carved up Rumania last year.

Military Might Checked.

The Bulgars held to a policy of peace and neutrality after the world war. They couldn't do otherwise. The treaty of Neuilly limited her total military forces to not more than 20,000 soldiers, all volunteers. She surrendered her warships and submarines and was permitted to have only four torpedo boats and six motor boats to patrol the Danube and her Black sea coastline.

In 1938 an agreement between Bulgaria and the Balkan entente removed many of the restrictions of the treaty of Neuilly and the Bulgars began rebuilding their army.

More than 80 per cent of them peasant farmers, the Bulgars kept to themselves. Germany held the whip hand economically, but the peasants leaned toward Russia because of bonds of culture, speech, tradition, and the affection generated by the war of liberation.

CLUB WOMEN ACT TO DEFEAT RATS AND BILLBOARDS

Two Campaigns Voted by Board of Managers.

The Woman's City club acted yesterday to rid the city of two vexing problems. Its board of managers voted to:

1. Send letters to the city council zoning committee, the park district, and the Chicago Plan commission directing that ordinances be framed and passed which will bar the disfiguration of the city's parks and boulevards with unsightly commercial billboards.

2. Conduct a campaign in neighborhoods to do away with the menace of rats.

City's Beauty Blighted.

Regarding the antibillboard move, Mrs. John Sharpless Fox, the club's president, said: "Millions have been spent to make the city beautiful and these billboards blight that beauty. We intend to continue to fight until we get real action. People who say they erect the signs because they must have money to pay taxes are guilty of false reasoning. Without the billboards their property would be worth much more. The billboards tear down the value of the property."

In fighting the rats, the women will conduct their campaign on three fronts. Property owners will be asked to make their buildings ratproof. The Illinois Emergency Relief commission will be requested to distribute free rat bait in the slum areas and to furnish more men to the city public works department's exterminator squads. Finally, the club will seek the coöperation of the Chicago Real Estate board and the city council.

Cost to City Told.

This action was taken after Charles Scribner Eaton, former alderman and assistant to Oscar Hewitt, commissioner of public works, told the women that more than 850,000 rats infest the city. Seventy-five per cent of these, he estimated, are on private property.

Mrs. Herbert Siddall, who was selected to manage the anti-rat fight in neighborhoods, said the club will ask the city council to pass upon a recommendation for a rat-proofing ordinance which was referred to a committee last July. "Each rat's food," she said, "is said to cost Chicagoans $2 a year. That should reconcile property owners to the expense of rat-proofing.' '

WOMAN KILLED, 5 HURT IN CRASH AFTER FUNERAL

Mrs. Antica Sestan, 47 years old, 6047 South California avenue, was killed and five other persons were injured yesterday when the automobile in which they were returning from a funeral collided with a truck at 87th street and Kedzie avenue. The driver of the car was Robert Alvir, 29, of 6052 South Sacramento avenue. Ernest W. Wilkerson, 33, colored, of 5603 Michigan avenue, was the driver of the truck.

Earl Turpel, 23, whose car killed a soldier near Fort Sheridan on Feb. 23, was named in a manslaughter indictment returned by a Lake county grand jury before Circuit Judge Ralph J. Dady. Turpel, who lives at 406 Prospect avenue, Lake Bluff, was arrested after the hit-run death of Private Joseph Do Bos of Fort Sheridan. Another soldier was injured by Turpel's car, which ran onto the sidewalk near the fort.

Peter Riporto, 60, of 723 South Hermitage avenue, was killed by a car driven by Melvin Decker, 25, of 207 North Leclaire avenue. Witnesses said Riporto stepped from a safety island into the path of the car at Cicero and Wrightwood avenues.

Up to 4 p. m. yesterday 145 persons had been killed in Cook county traffic since Jan. 1. Of these 114 died in Chicago, where 3,603 were injured during the same period.

CRIME FIGHTERS ANALYZE CITY'S AGENCIES OF LAW

The Chicago Crime commission praised Police Commissioner James P. Allman yesterday and recommended increasing his force from 6,000 to 9,000 men, but said some of his policemen seemed apathetic in responding to calls.

The commission's report lauded State's Attorney Thomas J. Courtney for commendable aggressiveness in fighting racketeers, but commented his office did too much base running and scored too few runs in prosecuting them.

The commission said a good word for Sheriff Thomas J. O'Brien for retaining Frank Sain as county jail warden, but complained that the sheriff's policing work wasn't so commendable. Coroner A. L. Brodie's job, the commission found, should be abolished in favor of that of a medical examiner.

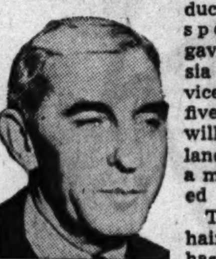
WHEAT EXPERT GOING TO BRITAIN ON SECRET TASK

Washington, D. C., March 3 (AP).—Thomas D. Campbell, the mass production wheat specialist who gave soviet Russia his expert advice for the first five year plan, will fly to England this week on a mission shrouded in secrecy.



Thomas Campbell
[A. P. Wirephoto.]

The rangy, gray haired Montanan has spent the last month here, calling frequently at the White House for confidential talks with President Roosevelt and conferring with a number of top ranking administration officials.

Campbell, when asked how and why his trip was arranged, said "there is no official connection with any person or any government."

Discussion in recent weeks has touched on England's food problem. Campbell's projected trip, coming at this time, aroused some speculation that his mission might be to direct an emergency attempt at mass production of wheat in the British Isles.

INQUEST DELAYED IN HIT AND RUN ACCIDENT DEATH

Deputy Coroner Jack Prybylinski yesterday continued an inquest into the death of George Floerke, 46 years old, 7959 Ingleside avenue, to April 4. Floerke, a mechanical engineer, and his wife, Myrtle, 40, were struck by an automobile of a hit and run driver Sunday morning. Mrs. Floerke is in critical condition in the Jackson Park hospital.

Grand Crossing police were holding Edward Petersen, 25, of 419 East 81st street, a grocery store manager, on a charge of manslaughter in connection with the accident. He was at the inquest, but did not testify. Petersen surrendered to police Sunday night and said his car was damaged, presumably from striking someone.

On advice of his attorney, Petersen has refused to make a statement to police. His car has not been found and no witnesses to the accident have come forward, police said.

JAPS SAY VICHY O. K.'S NEW PLAN FOR SIAM PEACE

Tokio Cuts Demands on Indo-China Grants.

VICHY, France, March 3 (AP).—Japanese circles said Tokio sent a third proposal for settlement of the Indo-Chinese-Thailand [Siam] border dispute and the French government accepted it tonight save for a few minor details.

The proposal agreed substantially to modifications the French asked for when Tokio made its "final offer" on Feb. 28, it was said. The new terms dropped previous requests for Thai bridgeheads on the French side of the Mekong river at Luang Prabang and Pakse, and a Thai frontier extending to Lake Tonle Sap.

U. S. Envoy Sees Petain.

Foreign circles were inclined to attach great importance to an interview between the United States ambassador, Admiral William D. Leahy, and Marshal Henri Philippe Petain, France's chief of state, just before the cabinet met, but observers said they did not see how the interview could have affected the ministers' decision if the Japanese account is correct.

"We yielded to Japan, not Thailand," an official stated in describing France's concessions as large.

Altho it was not stated specifically what territory was surrendered, the spokesmen denied that the whole of three Indo-China provinces and the greater part of two others had been yielded.

Unofficially observers said they believed the concessions were strips of upper and lower Laos province on the right bank of the Mekong river opposite Luang Prabang and Pakse.

A part of Cambodia also was believed to have been offered.

[When border warfare between Thailand and French Indo-China began to interfere with the flow of their supplies to Japan, Tokio offered to mediate. A truce was signed and peace negotiations were opened in Tokio. The Japanese immediately presented terms that were regarded as an ultimatum to the French. A dispatch from Saigon, Indo-China, said Japan's mediation was viewed there as a preliminary to Japanese expansion into South Indo-China. The Chinese press recently claimed to have information that the Japanese have massed about 150,000 troops for any eventuality in their "southward drive" for a "greater East Asia" sphere of influence.]

Report 100 Jap Ships Move South.

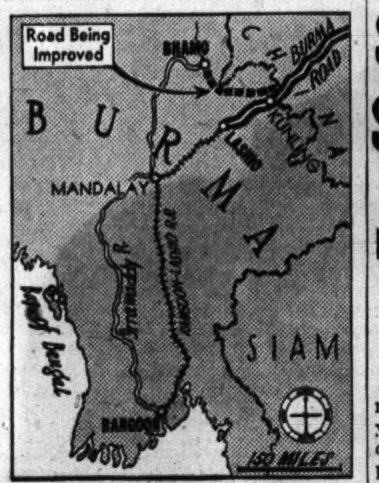
New Chinese Road



Map locates the road to the Chinese border from the Irrawaddy river, which is being improved to relieve congestion on the Burma road.

RANGOON, Burma [correspondence of the Associated Press].—Burma has sent an official mission to Chungking to help China open wider her back door to the inflow of war supplies from the United States and the British empire. These have been moving into China at a rate of 12,000 tons a month.

Burmese money and engineering effort have nearly completed the task of making the road that winds 130 hazardous miles from the railhead at Lashio to the Chinese frontier an all weather, two lane highway. The volume of traffic will be increased also by sending shipments up the Irrawaddy river to Bhamo. Engineers are improving the 75 miles of road from Bhamo to the Chinese border.

ALEC TEMPLETON SUES PARENTS IN $200,000 DISPUTE

Blind Pianist Says He Got Only $100 a Month.

A suit for an accounting of an estimated $200,000 in earnings was filed yesterday by Alec Templeton, blind concert and radio pianist, against his parents, Andrew and May Templeton, and their attorney, Emanuel E. Larson. The bill also seeks an injunction to restrain them from using any power of attorney he may have signed.

Among the allegations in the suit, which was filed in the Circuit court by Moses, Kennedy, Stein, and Bachrach, in behalf of Templeton, are:

1. Altho he allegedly has made $200,000 since he became 21 years old on July 4, 1930, the elder Templetons have given him only $100 a month for living expenses and, since last September, an additional $2,000.

Tells of Signing Documents.

2. He has been given various documents to sign; some of them were read to him, and others were not. One of the latter, signed last Sept. 12, gave power of attorney to Larson.

3. Templeton has not been allowed to name beneficiaries of annuities in $122,000 worth of policies held by his parents and, in two of them, there are clauses preventing him from changing beneficiaries, who at present are his parents.

The suit also charges that various books and records recently requested by Templeton from his parents are "inadequate" with respect to his income and earnings. One of these, a statement issued at the end of 1940, shows that he has only $1,000 in a local bank and a $500 United States government bond. Actually, according to the bill, Templeton's earnings in the last two years alone have amounted to $140,000—$50,000 in 1939 and $90,000 in 1940.

In Debt to Parental Partnership.

The financial statement, according to the bill, listed a $1,000 debt owed by Templeton to a partnership which his parents claimed he had entered with them in 1935, when he first came to this country as a featured entertainer with Jack Hilton's band.

Attorney Walter Moses, who spoke for Templeton, denied there had been any break between the pianist and his parents, but added, "no suit ever filed is a friendly suit." The elder Templeton would not comment on the charges.

Templeton, who is 31, was married last August to Mrs. Juliette Vaini, 39, whom he met in 1936 when they both appeared on a musical program. She is a singer. Last September he filed an application for first citizenship papers. Both he and his parents live at the Seneca hotel.

REALTY DEALER SURRENDERS TO GO TO U. S. PRISON

Marshall Campbell, 44 years old, sentenced to federal prison Feb. 13 for using the mails in connection with fraudulent sales of real estate, mostly to elderly Presbyterian ministers and widows of clergymen, surrendered yesterday at the United States marshal's office to begin serving his term.

Campbell was sentenced to three years for his part in the scheme. His father, Charles P. Campbell, 74 years old, was given a one year sentence, suspended because of his age. The son had been granted 20 days in which to put his business affairs in order.

Government attorneys charged the Campbells with obtaining $247,718 from aged clerics and their families by promising large profits on real estate investments. Evidence showed most of the real estate was worthless or nonexistent.

FROSTY CRUSOES ADRIFT ON FLOES 2 DAYS, RESCUED

3 Fishermen Tell of Perils on Lake Superior.

Munising, Mich., March 3 [Special].—Adrift on ice in Lake Superior for two days in a biting north wind and subfreezing temperatures, three Alger county fishermen are home tonight after a series of narrow escapes from death.

Trapped on an ice floe two miles long and three quarters of a mile wide Saturday morning, the trio was blown away from land, and back again, for a distance of 30 miles before the ice touched the north point of Grand Island and they got back onto land.

According to the story told to coast guards by Emanuel Eklund, 60 years old, a commercial fisherman, Matt Lammi, 57, and Jack Luoma, 55, both carpenters, they went fishing thru the ice near Au Train Island Friday night. In some places the ice is 20 feet high; elsewhere soft and full of holes.

Floe Breaks Away.

About 9:30 o'clock Saturday morning the fishermen climbed out of a depression where they had sought shelter from the wind and discovered that they were on a floe separated from shore ice by a quarter of a mile of open water.

They built a house of ice for shelter from the 15 mile wind and 15 degree temperature and waited for rescuers. When they failed to return to a fishing camp near Rocky river Saturday night friends notified the coast guard.

Coast guard searchlight beams fell upon the floe time and again Saturday night, but the fishermen were unable to make their signals seen and the rough ice prevented watchers from seeing them.

Late yesterday afternoon Walter Arntzen, an Escanaba flyer, sighted the party drifting far off shore. He landed in Marquette, obtained food, blankets, and whisky and dropped the supplies to the fishermen. Coast guards rigged skis on a skiff, dragged it six miles over the ice and then were unable to find the floe.

Separated by Ice Break.

About 10 o'clock last night the floe broke in half when the men were standing a few feet apart. Their supplies sank into the water and within a minute Eklund and Lammi were separated from Luoma by several yards of water. The floes continued to drift and the fishermen lost sight of one another in the blinding snow.

The floe on which Eklund and Lammi were drifting touched the tip of Grand Island shortly before noon today. They made their way ashore and started south towards the Munising coast guard station. They ripped boards from a shack and made skis to traverse snow from two to three feet deep. Coast guards found them during their trek.

Continuing to the water's edge the coast guards found Luoma trying to cut steps in a 20 foot high wall of ice, using a steel ice cutting tool. Had he slipped he would have fallen into the water. Luoma said the floe which had carried him back to shore was only large enough to support his weight and had to be balanced carefully in the rough sea.

Coast guards took the men to the shelter, built a fire, and shared sandwiches with them. It was the first food they had had since yesterday afternoon. They had been without sleep since Friday night.

RED DOMINATION OF N. Y. TEACHER UNION REVEALED

Referendum Planned on Ouster of Local.

BY WILLIAM FULTON.
[Chicago Tribune Press Service.]

Prof. Geo. S. Counts.

New York, March 3.—Secret findings of the executive council of the American Federation of Teachers at a meeting in Chicago two weeks ago were revealed today in a report charging that local 5, New York Public Grade School Teachers, is dominated by communists.

The executive committee in the Chicago meeting voted to recommend expulsion of local 5 from the federation and a referendum of the 30,000 members shortly will be conducted. The committee also recommended revocation of the charters of local 537, a college teachers' union, and local 192 of Philadelphia.

All the locals recommended for expulsion are affiliates of the American Federation of Teachers which in turn is an affiliate of the American Federation of Labor.

Documents Are Evidence.

According to Prof. George S. Counts, president of the teachers' federation, and a member of the faculty of Columbia university, documents and other evidence in the hands of the executive committee constitute conclusive evidence that local 5 is under communist control.

Results of the investigation into local 5 are contained in a lengthy report on the editorial policy of the union's magazine, New York Teacher. The report said the magazine was forced to do an abrupt about face in the summer of 1939 when the Hitler-Stalin nonaggression pact was signed. Up to that time the magazine had been saying the communist party would be forced to throw overboard its collective security and curb the aggressor.

"There was a sudden completely astonishing loss of interest among the administration's editor [local 5] in how the democratic nations were faring, what the Fascist aggressors were doing, and how their actions might possibly affect American security," said the report. "It is scarcely necessary to point out that a similar miraculous transformation took place in the communist party line."

Landon Is Denounced.

The magazine attacked Alf. M. Landon, Republican candidate for President in 1936, and gave unstinted praise for Franklin D. Roosevelt. It also promoted the collection of funds for the Loyalists [communists] in the Spanish civil war.

Praise for the stand of local 5 was given by Earl Browder, national secretary of the communist party now under prison sentence for passport fraud, and the communist newspaper The Daily Worker.

The editor of New York Teacher is Charles J. Hendley, a teacher and president of local 5. Hendley recently refused to supply a membership list to the New York legislature until forced to do so by the court. Prof. Counts, a graduate of the University of Chicago and former teacher there, is a member of local 537, one of the three recommended for expulsion.

The committee report concluded with a charge that the policy of local 5 and the communist party had been parallel since 1935 and the policy of its magazine particularly was vivid because of its frequent and sudden changes.

NEW CAR LINES' BOARD ASKED FOR ORDINANCE VIEW

The city council committee on local transportation asked the newly appointed board of management of the Chicago Surface lines yesterday to state "at the earliest possible date" whether the city's proposed unified traction ordinance is acceptable to the lines. The committee also requested the new board to submit amendments, if any, within two weeks.

Meanwhile Federal Judge Michael L. Igoe, who appointed the new surface lines' board Feb. 5 in a general shakeup, signed an order accepting the resignation of Edward E. Brown, one of the five members. The four who plan to serve are Walter A. Shaw, court traction adviser; and Walter J. Cummings, Daniel C. Green, and Edward J. Fleming, receivers.

This portrait of Davenport is the work of C. C. Beall, famous modern illustrator first presented to the American public by Collier's. Today, Mr. Beall, in addition to his Collier's work, illustrates many important national advertising campaigns — in the "Collier's manner."

He can slay an "ism" with a pen point

NEXT best thing to knowing tomorrow's headlines in advance is to be prepared for whatever they may be. Collier's readers are — because of staff men like Walter Davenport.

It's a rare and priceless knack — to be able to write politics and still stay out of it. Davenport does it — and with a gifted pen.

The politics Davenport sees and knows and writes about is broader and deeper than a boss, a senator or an election. It embraces movements, trends, policies, "isms." It calls for an analyst, a judge, a prophet.

Where was the "ham-an'-egg" movement headed? What was the import of Huey Long's empire? Davenport told us early and accurately in Collier's. National defense changed from chatter to action when Davenport revealed that two guns made up our coast defense from Maine to Key West.

He can deflate a pretender or explode an "ism" with a pen point — and he's been doing it in Collier's clear back to the crusade for repeal.

★ ★ ★ ★

So how many tires or fountain pens or bars of soap does Davenport sell?

Millions! Davenport's articles are typical of the punch and timeliness and authority in every page that brings out Reader Response. We don't believe any other magazine in the multimillion field is as close to its readers as Collier's is. And there are millions of them — modern, active, earning, spending Americans — who really reach for Collier's every Friday.

EXTRA! ADVERTISERS HAVE MADE THIS THE BIGGEST MARCH IN COLLIER'S HISTORY!

P.S...FOR ADVERTISERS

Editorial excellence, important as it is, is only one of the reasons why—

Collier's, of all the multimillion weekly magazines published over a long period of years, is the only one that is at its all-time peak today—*both in circulation and in advertising revenue.*

Advertisers appreciate Collier's faster copy-closing dates, its top visibility. They know they cannot reach more than 34.4% of Collier's market with any combination of the other weeklies in the multimillion field.

Read what J. L. Dolphin, vice-president in charge of sales, Sealright Company, Inc., says:

> **"Three years ago Collier's was added to our list of national advertising media. Since that time the following has occurred:**
>
> **1. Our sales have increased substantially.**
>
> **2. Our distributors and the trade generally have shown greater interest in our advertising.**
>
> **3. There has been greater public acceptance of paper food containers and bottle closures bearing the Sealright Sanitary Service Emblem.**
>
> **We are glad to give Collier's its full share of credit in these developments. Collier's will continue as a primary advertising medium in our 1941 advertising schedule."**

BLUE LAW CASES HAVE DELAWARE COURTS SWAMPED

Blame Mixup on Pique of Democrats.

Wilmington, Del., March 3 [Special].—Milkmen, motormen, bus drivers, delivery boys, clerks, and other tradesmen jammed Delaware courts today for prosecution under the state's 200 year old blue laws banning "worldly" employment on Sunday.

More than 500 were ordered arrested yesterday under the enforcement program instituted by Attorney General James R. Morford. Some were arraigned, but the court plans to hold daily sessions until all have answered summonses. The penalty for violation of the blue laws is a fine of $4 to $8, a night in jail, or both.

Postpones Hearing Cases.

Judge Henry R. Isaacs found his docket so crowded that he decided not to hear any of the cases because of the confusion. He continued all cases for later in the week. Outside the courthouse the streets were crowded with milk wagons and hucksters' wagons.

Morford, a Republican, began his enforcement campaign after the house voted down an amendment which would have made enforcement of the blue law act a matter of local option. He contends the act either should be repealed or policed strictly.

Political observers, however, saw in the unusual situation the pique of Democrats over the refusal of the Republican controled legislature to approve holdover appointments made by the former Democratic governor, Richard C. McMullen. The Republicans, while in control of the house, lacked the necessary two-thirds majority to pass the repeal bill.

Other observers said they saw in Morford's campaign to enforce the laws an effort to force the Democrats to vote for their repeal.

House Will Not Be Coerced.

Meanwhile the house adopted a resolution today condemning Morford's effort at wholesale enforcement of the law. The house held that it "will not be coerced or told by any fellow officer or department what it shall do" and that it would "take its time" to deliberate on a bill to repeal the old law.

Morford declared that if the house passed the repealer amendment before those arrested had been tried he would dismiss all cases. He warned that if there is a conviction in one case and a fine paid before the amendment is passed, then all cases will be prosecuted.

The show ends tomorrow at Hotel Sherman.

LANDSBERG WILL SETS UP TRUST OF 5 MILLIONS

The will of Edward Landsberg, a director of the Continental Illinois National Bank and Trust company and a prominent brewing executive, was admitted to probate yesterday by John F. Keeley, assistant to Probate Judge John F. O'Connell. It disposes of an estate estimated at $5,050,000. The estate is left in trust and the income is to be paid to Mr. Landsberg's widow, Kate, after annuity payments of $250 a month are made to each of two sisters, Mrs. Caroline Bellman and Miss Anna Landsberg, and of $100 a month to Miss Bernice Synoground, a niece. The will also provides for a distribution of the remainder of the estate after Mrs. Landsberg's death to 13 employés associated with Mr. Landsberg's United States Brewing company in Chicago and the Blatz Brewing company in Milwaukee. Mr. Landsberg died Feb. 20. His home was at 4234 Hazel avenue.

WINS NEW TRIAL ON CHARGE OF KILLING PARTNER

Bernard Lindner, 37 years old, who was found guilty last December of the murder of his business partner, Albert Neiman, was granted a new trial yesterday by Judge Joseph A. Graber in Criminal court. Lindner's wife, Edith, whose confessed love affair with Neiman was the motive for the shooting, stated that she was "very happy" that Lindner was to be given a new hearing. Lindner faced a 20 year sentence.

Judge Graber said he was convinced that if the case had been appealed to the state Supreme court it would have been reversed. Richard Devine, assistant state's attorney, in cross-examining a witness who testified Lindner had been "emotionally insane," read a statement by another medical authority which said that emotional insanity was not a legal defense. Judge Graber said this point should have been the jury's to decide.

The new trial will start March 25. Lindner was represented by Attorney Benjamin J. Short in his effort to obtain a second hearing.

HURT IN MATCH FACTORY FIRE.

Two trays of matches came into contact yesterday in the plant of the Match Corporation of America at 3433 48th place. They burst into flame, slightly burning Frank Kacinski, 5615 South Troy street, an employé, and damaging the plant to the extent of $150.

WAR SECRETARY AID SEEKS CURB ON STRIKE WAVE

Admits U. S. Alarm; Asks Mediation System.

[Continued from first page.]

dominance of the Communist party of the United States.

Steel, automotive, electrical, and heavy machinery industries have been affected, as well as factories manufacturing aviation materials and parts needed by the army and navy.

Representative Randolph addressed the house shortly after it convened. The New Deal agencies have shown themselves unable to cope with the situation, he said, noting as an example the long drawn Allis-Chalmers Manufacturing company strike at West Allis, Wis. He urged congressional action to provide for settlement of labor disputes and prevention of total crippling of the armaments program.

Warns Against Stoppages.

Undersecretary Patterson, in his testimony before the house committee, was emphatic in a declaration that there "must be no strikes and no stoppages" if the armaments program is to proceed on schedule.

"The nation is unanimously agreed," he said, "that the utmost speed in rearmament is the primary objective. Any delay whatsoever is of the utmost concern. Each day that Allis-Chalmers is shut down our vital powder program is delayed."

He told the committee that there were 120,000 man days of armaments labor lost because of strikes in the last week of February. Altho this was only "a small percentage" of the total time worked, he said, it had a considerable affect upon the whole program because much of it was lost in production where there is already a shortage of materials.

Similar to Knudsen Plan.

Patterson's proposals were similar to those advanced last week by OPM Director Knudsen, who gave the first indication of official alarm over the deadly effect the labor disorders are having on the vast preparedness program. To direct the program, Knudsen gave up a job as president of General Motors corporation, where he had his experiences with the C. I. O. during the 1937 sitdown strikes.

Previously he had told congress that he saw no need for new laws to cope with the labor strike. He changed his mind and proposed the cooling off period, his friends say, after the strike wave spread to the Lackawana, N. Y., plant of the Bethlehem Steel company, which holds 1 billion 500 million dollars in contracts vital to the two ocean navy construction program. The Bethlehem strike, which involved 14,000 workers, was promptly settled.

Report Hillman Not Consulted.

It is reported Knudsen did not talk over his change of views with OPM's associate director, Sidney Hillman, former C. I. O. leader, who owes his position to a close alliance with radical New Dealers. Hillman is opposed to anything that might put a check on the vast power wielded by labor leaders. Knudsen and Hillman have disagreed frequently in the past.

BEG YOUR PARDON

A story on Feb. 27 said the love life of two pandas at the Brookfield zoo was being delayed pending delivery of formal policies insuring their lives by Lloyd's of London. David J. Kadyk, secretary of the Illinois Surplus Line Brokers' association, in whose office all Lloyd's policies are recorded, said yesterday this is incorrect. Cover notes or binders on the policies were issued some time ago, he said, at which time the insurance became effective.

A comprehensive picture of the development of labor disorders since the launching of the armaments program is given in the labor department statistics, which show that in January, the last month for which a full report is available, there were 220 strikes thruout the nation involving 65,000 workers. The bulk of these were in armaments industries, according to officials, and all told 625,000 man days were lost.

A conservative estimate of the loss in wages to the workers is 3 million dollars. There is no way to determine the loss in time and effort to the industries themselves, the government, or the other industries which depended on the striking ones to produce basic materials.

Half Million Workers Involved.

There were 500,078 workers involved in 1,945 strikes between July 1 and Dec. 31, last year, records show. This was 291 more strikes than in the preceding six months, with approximately 230,000 more workers called from their jobs for periods ranging from a few days to several weeks.

Beginning with 551,523 man days lost in July, 1940, the first month of the war preparations, the total climbed steadily to the 850,000 peak in October, then declined to 400,000 in December. The losses suffered by employers and workers, authorities admit privately, runs into many millions of dollars.

Following the charge by Representative Randolph that the total of man days of labor lost in February equaled the October peak, both the labor department and the OPM denied they had any such figures. Randolph refused to disclose where he got his information but challenged any one to disprove him.

Table Shows Strikes.

The following figures, obtained from the labor department, give a month-to-month tabulation of all strikes for 1940 and January, 1941, with the number of workers involved and the man days lost:

Month—	Strikes.	Workers.	Man-days lost.
January	212	39,536	239,217
February	245	36,974	284,616
March	272	42,711	381,083
April	308	52,376	439,387
May	330	75,724	660,242
June	287	52,946	464,476
July	314	78,678	551,523
August	315	75,786	679,215
September	322	107,614	768,184
October	359	95,000	850,000
November	340	98,000	660,000
December	295	65,000	400,000
January '41	220	65,000	625,000

Not all these strikes were in armaments industries, but even ardent administration supporters admit the increases in labor strife have largely been confined to industries directly or indirectly concerned with preparedness.

World War Figures Cited.

In an effort to take the sting out of the labor department statistics, Hillman has issued statements recalling that the total strikes under the present program is below the figures for the 1916-'17 world war period. In 1916 there were 3,789 strikes involving 1,599,917 workers, records show, and in 1917 4,450 strikes of 1,227,254 workers.

Labor experts, however, observe that most of the disputes of that period were results of conditions which New Deal laws were supposed to correct. Chiefly, they grew out of attempts at union organization and recognition, matters on which there can be no question now in view of recent legislation and decisions of the United States Supreme court.

In the face of widespread alarm over the delays in arms production, Hillman has presented figures to show that there were fewer strikes in 1940 than in 1939.

Attacks Hillman Data.

"You can do anything with figures," said Representative Smith. "The actual number of strikes tells only part of the story. When one industry goes down, many others are affected and have to stop work for lack of necessary materials."

Smith is the author of pending legislation which would require mediation o fall labor disputes and outlaw walkouts during a cooling off period.

Charges that communists were behind strikes in armaments industries today were denied by labor leaders, who asserted that the current strike wave merely is a reflection of the increased industrial activity. George Meany, secretary-treasurer of the American Federation of Labor, declared that strikes "are not at all numerous."

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

POLICE TO DEFEND RIGHT OF ALL TO GO TO THEIR JOBS

C. I. O. Stockyards Drive Starts Tomorrow.

Capt. John Prendergast, chief of uniformed police, issued a warning to C. I. O. union chiefs yesterday that "they will not be permitted to keep men [nonunion] from going to work." He promised full protection to those requiring it. At the same time Mayor Kelly announced that law and order will be preserved in Chicago.

Capt. John Prendergast.

Capt. Prendergast's pronouncement came after the C. I. O. had announced that its affiliate, the Packinghouse Workers' Organizing committee, would picket the stockyards at 5:30 a. m. tomorrow, and drive away all workers lacking C. I. O. cards in good standing. The P. W. O. C. claims 60 per cent of the 25,000 men eligible for union membership in the stockyards.

Protect Workers' Rights.

"Union organizers have the right to question workers as to their affiliations," said Capt. Prendergast, "but they will not be permitted to keep those men from going to and from work. These men have the right to work and we'll protect them in it—whether it's one man or many men."

His declartion was regarded as acceptance of a challenge by C. I. O. leaders Saturday that police efforts to break the picket lines would be regarded by the C. I. O. as provocative and possibly leading to a "city-wide problem."

At 10 a. m. today police and union officials will meet at the New City police station and confer about tomorrow's picketing.

Meanwhile the strikes at four International Harvester company plants, affecting 13,000 workers and considerable national defense production, were discussed at a federal conference in Washington yesterday.

Resume Parley Today.

Dr. John R. Steelman, federal conciliation, headed the meeting. Fowler McCormick, vice president of Harvester, led a company delegation and Grant Oakes, chief of the Chicago Farm Equipment Workers' Organizing committee [C. I. O.], led a union delegation.

The parley will be resumed today. Dr. Steelman said he wants to reopen the plants so preparedness production can go ahead. Details of the disputes would be ironed out later. In Chicago hundreds of union members affiliated with the American Federation of Labor, thrown out of work by the C. I. O. strike at the main works, clamored for an election to support their claims that the A. F. of L. has a majority membership.

In Gary the Steel Workers Organizing committee [C. I. O.] resumed picketing at the tin and sheet mills of the Carnegie-Illinois Steel corporation in an effort to enforce a closed C. I. O. shop. A group of 80 girl employés, refusing to sign up, established a committee to raise funds to start court action against the C. I. O. for keeping them from work. Today the union will picket the American Bridge company in Gary.

STRIKE TIES UP WORK ON ARMY CAMP IN SOUTH

5,000 Join in Walkout at Anti-Aircraft Center.

Holly Ridge, N. C., March 3 (AP).—Skilled workmen went on strike today at Camp Davis, the army's $15,000,000 antiaircraft firing center under construction at this little town, 29 miles north of Wilmington.

Corporal H. C. Johnson of the state highway patrol estimated that between 3,000 and 4,000 workmen were picketing the entrances to the reservation where approximately 15,000 men are employed. The camp is scheduled to be completed late this month.

L. H. Rouse, business agent for the Wilmington Building Trades council, announced after a union meeting last night that 5,000 workers decided on the walkout over the issue of a preferential shop, under which union men would have first call on job vacancies.

A. J. Fox of Raleigh, assistant project manager for the four contracting companies, said the strike resulted from "outside agitation" aimed at "racketeering" thru collection of union fees.

Altho work on the project continued with available workers, it was on a greatly curtailed scale.

Other Strike Developments.

Other developments today on the nation's strike fronts follow:

MILWAUKEE, Wis. — The Allis-Chalmers Manufacturing company tonight announced its acceptance of the Washington settlement proposal agreeing to a referee in future labor disputes on the same terms accepted earlier in the day by the C. I. O. plant union members who have been on strike for 41 days. The action was believed to have removed the greatest obstacle to a settlement of the strike. The company holds 45 million dollars worth of armaments contracts.

DETROIT, Mich.—Gov. Murray D. Van Wagoner appointed a commission today to attempt to avert a threatened strike at the Ford Motor company's Rouge, Highland Park, and Lincoln plants employing approximately 95,000 workers. The state mediation board ruled that 30 days must elapse before the United Automobile Workers-C. I. O. can call such a strike. Notice of intention to call the strike was filed last week. The union accused the company of violating a national labor relations board order to cease interfering with the union's efforts to organize Ford employés. The company denied the charge. The Ford company has approximately 154 million dollars' worth of armaments orders.

Plane Parts Makers Quit.

NEW YORK—Work on army and navy contracts for airplane parts and dental equipment was halted today by a strike of the Federal Labor union, No. 22184 [A. F. of L.], at the S. S. White Dental Manufacturing company, Staten Island. Nearly 600 employés, seeking $150,000 a year in pay increases, joined in the walkout. The plant manufactures flexible shafts and tachometer drives for airplanes.

KENOSHA, Wis.—Officials of the Simmons company, which has contracts for manufacturing army cots, said today there was no change in the stand of the management or union despite week-end discussions of A. F. of L. wage and vacation demands in its seven plants. An 8 cent an hour wage increase has been asked by the Kenosha local, which has authorized its executive board to call a strike vote meeting if the demands are not met.

CONNEAUT, O.—A picket was injured today in a clash at the Burke Machine Tool company plant shortly after the International Association of Machinists [A. F. of L.] went on strike. The company manufactures milling machines and has filled several orders from Great Britain. The strikers seek collective bargaining rights, union recognition, and higher wages.

Roosevelt Kept in by Cold; Cancels His Appointments

Washington, D. C., March 3 (AP).—President Roosevelt canceled all appointments today and remained in his living quarters in the White House because of a head cold. His physician, Rear Admiral Ross T. McIntire, advised this course, altho other officials said the illness was not serious and that the President was not running a temperature.

BULGARIA CALLING.

By formal treaty, Bulgaria joined the axis on Saturday and today the German army is in occupation of the country.

It may be taken for granted that the Bulgarian decision was not a voluntary one. Pressures and threats were applied and quite likely substantial prizes were offered in addition. In all probability Bulgaria has been promised substantial territorial gains if Germany wins the war.

In the latter part of the 19th century and the early years of the 20th Austria and Russia struggled for preëminence in the Balkan peninsula. Britain, Germany, and Italy always kept an eye on the game and frequently sat in it and drew cards. A lot of little wars, a middle-sized one, and a world war had their origins in these rivalries. A prize always at stake was possession of the strategic situation at the straits. None of these wars settled anything for more than a few years.

In the last war Bulgaria found herself on the losing side and paid the expectable penalty for guessing wrong. We got into that war with a number of objects in view. We were going to see that small nations like Bulgaria got justice; that democracy would be safeguarded everywhere; that war would be abolished from the face of the earth. We attained none of these ends. In fact, the world is farther from them now than it has been at any time within living memory.

We are now rushing toward a repetition of that experience if one may judge from the forecasts of the senate vote on the 1776 bill. Mr. Roosevelt has taken over all of the Wilson notions and added some of his own, and he says there can be no talk of peace until the four freedoms are secured to all peoples everywhere.

That means among other things that we must crush Hitler's army of 5 million men and probably more. Just how we are to do it has not been indicated as yet, but it is probable that the British, tho they may have men enough to hold their island fortress and defeat the Italians in Africa, have far from enough to drive to Berlin. If Hitler is to be crushed, as Mr. Roosevelt insists he must be, American soldiers by the millions will be needed and they will have to fight on the European continent.

Where the fighting will take place remains to be determined, but it is not at all unlikely that it will be in the Balkans. That, at any rate, is one spot on the continent where a landing can still be made without having to push the Germans off the beach. Otherwise the region has few attractions. The terrain is mountainous. The countryside is poor. The villages are primitive. Particularly unpleasant diseases like typhus fever are more or less prevalent. Sofia is a long way from New York and a still longer one from Iowa.

Suppose that in spite of all the difficulties we succeed in time in winning the war. It will stay won just so long as we continue to throw our weight for all it can count in the European balance. The moment our military force is occupied elsewhere or we come to the sensible conclusion that it costs more to maintain what we may regard as order in the Balkans than we can get out of it, the old game will start anew. As soon as we give an indication that we are no longer willing or able to uphold a European system, the settlement which we achieved at immense sacrifice will begin to crumble.

Mr. Roosevelt is talking about guaranteeing with American arms not only a settlement in Europe but one in Asia as well. It is a large order even for the most advanced of industrial nations. It assigns to this country—and more particularly to its young men—the task of policing the entire world against any combination of nations which may arise.

THE LAST OF HIS KIND, WE HOPE.

The warden of the county jail dropped the latch on Charley Special the other day, and with him the crooked police magistrate and one of the motorcycle bandits who operated the village of Dixmoor as a private racket preying on motorists. Two more of the cops who worked in the speed trap will join them as soon as they can be rounded up.

The state's attorney's staff is to be congratulated on the diligence that secured the conviction of Special and his gang and defeated their two year fight to escape their sentences.

Twenty years ago there was hardly a main highway leading into Chicago that was not infested with one or more speed traps. Today it is doubtful whether a single speed trap is operating in the Chicago area. Charley and his gang were the last of the redskins.

Such rare birds ought to be preserved. It would be a good idea to stuff Charley, or at least a reasonable facsimile of him, and present him to the Chicago Motor club as a tribute to the club's services in making Chicagoland highways safe for lawabiding motorists. The motor club conducted the investigation that started Charley to jail, as it had investigated and broken up many of the earlier speed traps.

When the Congress street fraud collapses of its own defects the club officials might place beside their stuffed Charley a stuffed real estate speculator. Charley was, after all, only a retail operator. He lacked the imagination to promote a scheme for clipping the motorists of the state for millions of dollars in gas tax collections to be used in buying slum real estate as a right of way for a useless boulevard.

THE RESERVE BANK CRISIS.

If the Roosevelt administration succeeds in gaining control of the Chicago Federal Reserve bank the whole system will be doomed so far as the purposes for which it was created are concerned. Last week Washington all but succeeded in making the head of the Reconstruction Finance corporation the head of the local bank. Four directors, several of whom are known to be closely allied to the national administration, supported the scheme. One of them sought to vote the proxy of an absent director, which would have given a majority, but the attempt was thwarted by the ruling of the Federal Reserve board. The attempt will be renewed this week.

One of the most important reasons for the success of the reserve banks has been the nature of the control over them provided in the original law. To keep Wall street out of the banks it was provided that six of the nine directors should be chosen from the bankers and business men of the district. Some government regulation was provided for by having some of the directors named by the federal government, but to keep politicians out the Washington representation was limited to three directors of the nine. To keep large banks of a district from getting control it was provided that the banks should be divided into three groups—big, middle sized, and little banks—and each group of banks should choose two directors. To be certain that business interests as well as banking interests were considered, it was provided that of the two directors selected by each group of bankers one should be a banker and one a business man.

In the past Washington has not tried to use its nucleus of three votes to elect the presidents of the banks, nor to adapt the management of the banks to administrative purposes. It remained for this administration, which is seeking new powers in other directions, to covet the management of the reserve banks. The St. Louis board of directors gave in without a fight, and Chester Davis, a prominent New Dealer, is taking over the management of the bank there while continuing to perform some of his duties at Washington. The directors of the New York bank, however, refused point blank to accept Washington dictation and chose one of the senior officers of the bank as the new president.

Not a dollar of the capital of the Chicago Federal Reserve bank was contributed by the government. It all came from stock subscriptions of the member banks. The treasury connection was as a customer of the bank. Tho the government did not contribute anything toward capital funds, it has been cut in on the profits. The government has received as its share of the undertaking 44 million dollars, which is more than the member banks of this district have been paid as dividends.

The federal reserve bank is thus quite unlike the RFC and the other banking organizations created during the depression. In the latter cases the capital funds have been supplied by the government from money raised by taxation or by borrowing. Instead of yielding an income to the treasury, these other banking enterprises have cost the treasury money. It is well remembered that a large amount of money had to be appropriated for the RFC to enable it to write off its worthless assets.

When, following the bank moratorium, a number of banks sold large blocks of preferred stock to the RFC, we urged the banks to buy back their freedom as soon as they were prepared to do so. The government was the largest borrower at the banks, and it was learned at great cost during the bank failures that it is bad business for the borrowers to control the lenders. Many of the larger banks have paid off their debt to the RFC and are out of hock. The government, however, is heavily in debt to the reserve bank, and no doubt is seeking to increase its control to remove any impediment to further increases of its debt.

The reserve system in this district, as we have known it, is done for unless business men and bankers in this district protest with sufficient vigor. What was done effectively in the New York district can be done here.

Editorial of the Day

FOR A WIDEAWAKE ARMY COMMAND.

[St. Louis Post-Dispatch.]

Lieut. Col. Thomas R. Phillips, a coast artillery staff officer, says bluntly in the Infantry Journal that the time has come to replace the "conservatives" in the war department. By "conservatives" he means the officers who have opposed mechanization of our defense forces. In their places he would establish military leaders who "comprehend the changes brought about by new weapons and altered condition."

A former instructor at the command and general staff school at Fort Leavenworth, Col. Phillips makes his case with a wealth of documentation. As he says, the United States is the "greatest industrial nation on earth," made up of people able to drive cars and all equipped with some elementary mechanical education. Our soldiers reflect this aptitude and training, and yet virtually nothing was done to take advantage of it until a year ago. To quote further:

> At the outbreak of the European war we had some 300 light tanks. We had no homogeneous armored divisions capable of independent action. The reasons for the shortage of tanks are exclusively our own fault.
>
> One would think that the United States, which can manufacture trucks faster than it can draft men, would have developed the tactics and equipped its army so as to make the greatest possible use of this exceptional military asset. But not so.
>
> It was not until 1939 that a divisional organization was adopted which discarded horses and mules for hauling supplies in wagons and dragging machine gun carts and substituted motors for them.
>
> In the matter of obtaining a suitable artillery to keep up with the infantry, we remained perfectly contented for 20 years after the world war with the French 75 of world war vintage.
>
> In maneuvers, troops have marched all night when the same troops in motor vehicles could have motored completely around the division being attacked three times in a single night. It is like a fantasy, the nostalgia of men who want to return to a never-never land.

The change which Col. Phillips calls for is in order. The officers who fought the mechanization plans of Representative Ross A. Collins, who persecuted Gen. William Mitchell, who insisted on keeping horses because they liked to ride in parades, have served their usefulness—if they ever had any. The younger officers, who have been trying thru the years to get the command to see that a new type of war and arms had come, are the men who should be at work in the responsible posts today.

To the British that "Dark Continent" seems to be one of the bright spots of the war.—Christian Science Monitor.

A SPRING CHIRP OR TWO.

Trees have begun to change their winter pattern of bare branches against the sky. The design becomes more intricate with the swelling of shrunken leaf-buds. Maples and poplars in sunny places began this transformation in the mildness of last Sunday, but the elms are conservatively waiting for more proof of nature's good intentions.

* * *

Here's a new simile that any one can have for the taking: "As unpopular as an antiwar mother in the senate office building."

* * *

The off-stage singing of "Gaudeamus Igitur" in "The Student Prince" reminds us that this is probably the oldest college song in the world. The words are medieval Latin; the tune suggests a monastic chant; the author is unknown. It has been in the public domain of European student life for centuries, and Hamlet probably sang it between lectures at Wittenberg.

When Americans try to sing it, they choke up and begin to gurgle after the first two words; so here is the complete text:

Gaudeamus igitur juvenes dum sumus.
Post jucundam juventutem,
Post molestam senectutem,
Nos habebit humus.

All of which is merely another way of saying, "Eat, drink and be merry, for tomorrow we die."

* * *

Symphony concert patrons hear "Gaudeamus Igitur" occasionally as the finale to Brahms' "Academic Festival Overture." This composition, dedicated to the University of Breslau which gave Brahms an honorary doctor's degree, contains three other old German student songs. They include the "Fuchslied," or "Freshman Song," which figures in Longfellow's prose romance, "Hyperion."

* * *

All on account of Walt Disney, people are asking us for the correct pronunciation of "Fantasia." Webster gives three ways—"ZEE-a," "AH-sia," and "AY-sia." We use the second or third, without worrying about it.

ALFONSO OF SPAIN.

Poor little Fon,
O' fate the pawn,
Ye've joined the kings o' Spain
Back in the earth
That gied them birth,
A few feet for yer ain.

I've aften mused, yer majesty,
On whether ye cud clearly see
Or understand, beyond a doot,
Just why the folk had kicked ye oot.
Did ye learn frae misfortunes royal
Tae comprehend the bluidy moil
That grips auld Europe by the neck
An' makes o' fairest lands a wreck?
The meaning, Fon, ye cudna tell—
(I'm muckle mixed up, mon, m'sel).

But yer auld Spain
That's lang syne gane
Tae me was wondrous fair,
Because, forsooth,
In my far youth
I owned a castle there.

On the Trail of "Little Egypt."

Contributor Charles Grant challenged the world [Feb. 3] to produce conclusive evidence that there was an oriental dancer called "Little Egypt" at the Columbian exposition of 1893. Numerous sharpshooters entered rebuttals, but the Linemaster couldn't be bothered by them. . . . On Feb. 17 Contributor T. C. C. stated that Congressman Sol Bloom, chairman of the house committee on foreign affairs, had been the manager of the alleged "Little Egypt."

Now comes a letter from that statesman, via his secretary:

"Congressman Bloom has repeatedly denied that there ever was a 'Little Egypt' at the Chicago World's Fair of 1893. If there was, he certainly had nothing to do with it. He was the manager of the American Midway in 1893, but that did not make him the manager of any concession within it. . . . This story is based on an old newspaper item which has been denied repeatedly, but keeps cropping up from time to time."

"Little Egypt," says Contributor Grant, came into public attention because of the "Seeley dinner" incident in New York.

LIFE WITH A CAPITAL HELL.

(Rudyard Kipling, 1865-1936.)

Right thru 'yde Park /is bloomin' braggarts came,
A-tramplin' of the tulips and the shrubs;
Enchantin' rabble on the way to fame,
Invadin' ev'n the quiet o' the clubs.
From 'ere and there and everywhere, like cats
A-prowlin', 'owlin' on a summer night,
Or sweaty natives wearin' no cravats
A-knockin' at the dance hall for a fight.
Why should the Hempire fear to take a look
About the world and know wot's goin' on?
Its nose needs pullin' down to stand the shock
O' smellin' odors others cannot shun.
'E 'ad the art the magic lamp to rub,
A glorious artist sketching in a pub!

SEX INSTRUCTION THE PARENTS' JOB.

FATHERS and mothers cannot deny the responsibility which they owe their children in the matter of sex education. Many, however, shrink from the task. Unless the problem is tackled sympathetically and courageously, a mass of misinformation will be acquired from clandestine sources. In consequence, while ignorance is deepened, curiosity is stimulated.

Of course, the home is the place, and that, too, at a fairly early age. Questions may come from even a 4 year old which will present difficulties. A happy solution depends upon whether the father is a real companion and friend to his son, not the austere, formal person who is feared as well as respected. The ideal mother is the one who possesses the complete confidence of a daughter who can come to her with every new thought for a frank explanation.

No one who views the topic calmly can quite understand why embarrassment should be the rule. Boys are boys and girls are girls. Neither one is an "it." At the proper time they have a perfect right to know something about life and the habits of plants and animals. Lessons on the functions of the reproductive system can be taught as facts—important for their safety and health. There is nothing shameful or unholy about the subject. It is as real as food and clothing and shelter.

The whole story cannot be told in one session. But a state of trust and faith can be established which will lead to further interrogation—the allaying of every doubt. Formal talks are excellent, but the casual discussion of points as they occur is after all the best instructional method. Inquisitiveness is not in the slightest degree an indication of wickedness. It is natural and proper for boys and girls to ask questions.

There is some danger in waiting for the period when the child is approaching puberty. The parent who chooses this interval will be astonished—even bewildered—by the contradictions which will pour forth. The best plan begins not later than 5. From then on it is a progressive process.

Not long ago a friend complained, "You know I am about frantic with my two lads. They have stumped me with their sex questions. I just don't know what to say." I tried to persuade him that he could not afford to overlook a chance to impart authentic information. A few days later he tackled me with, "But I just can't do it, the boys look at me so strangely." "Well!" I said, "You have a high grade family doctor. He knows your sons very well. Why not ask him to talk to them?"

The plan was a huge success and the physician encouraged the youngsters—one of 8 and the other 10—to come to him with any statement made by older boys and he would tell them the truth.

While this method was successful in this particular case, it may not be the answer for you or for me. We must face the music by preparing ourselves if need be, rather than attempting to hide behind a pamphlet or a text, no matter how well worded. I know a fond dad who handed his boy a so-called "Book of Facts." He then rushed out of the house.

The reason some of us adopt this policy is because we are afraid. We are possessed of old-fashioned inhibitions which have led to more heartaches, more broken families than almost any other phase of life. Certainly father and mother must know as much about human physiology as the child can pick up elsewhere. It may be well for adults to read some authoritative book on the subject.

DIABETES.

H. M. writes: Are there two different kinds of diabetes?

REPLY.

Yes—mellitus and insipidus. The first is also called "sugar sickness." It is characterized by a high level of glucose in the blood and the presence of this substance in the urine. The two forms are unrelated. The second type has nothing to do with the use of sugar by the body. The chief symptom is a profuse output of pale urine.

BRONCHIAL ASTHMA.

R. R. writes: My mother has chronic bronchitis. Since she cannot go to a warm climate for the winter, what would you suggest for comfort?

REPLY.

Exposure on raw days should be avoided. Several suggestions are incorporated in a leaflet which may be obtained by sending a stamped, self-addressed envelope.

Writers should confine themselves to 200 or 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, THE TRIBUNE.

THANKS AND SUGGESTIONS.

Tampico, Ill., Feb. 13.—This letter is written first to express my appreciation for the way in which your editorial policy has always and consistently advocated a policy of America first in times of war and hysteria as well as in times of calm and peace. To me this has always been one of the outstanding marks of THE TRIBUNE. For this the people of the United States owe you a priceless debt, as your influence is great.

Second, to suggest that your sane editorial policy is in large measure offset by the fact that all the radio newsmen and commentators are more or less prointerventionists. Even if they personally are not interventionists, as so many are, the AP and UP news they report is all definitely proadministration and prointerventionist flavored.

Thank you, and best wishes for continued success of your patriotic efforts.

LIFE INSURANCE FUNDS.

Chicago, Feb. 27.—According to a Washington story printed in today's TRIBUNE, there is to be official criticism of the life insurance companies. The basis of the criticism seems to be that they invest their money in big business instead of backing small and new enterprises.

Attention should be called to the fact that the capital and surplus as well as the reserves of all insurance companies are held as a trust fund, sacred to the protection of policyholders, many of whose only protection is life insurance.

A life insurance company which risked its policyholders' money in untried ventures would be guilty of crime.

Let us have some clear thinking on this before we destroy this last haven of the orphan and the widow.

GEORGE W. DONNAN.

THE ILL REPRESENTED.

Chicago, Feb. 28.—The President and the New Dealers have shown great concern over that part of the population that is "ill-fed, ill-clothed, and ill-housed," but altho nearly all of these are included in a fourth class, the "ill-represented," not a word has been heard from the administration to protect them from molestation in their elementary right to work for whom they please and for what they please. If a courageous leader like Theodore Roosevelt were in power in place of one always swayed by organized minorities, he would insist that if social justice required union control of labor that the organizations in charge should be subject to governmental regulation as they are in England and protected from gangster control. EVAN L. REED.

THE DAY WE CELEBRATE.

Rhinelander, Wis., Feb. 26.—Our city has just passed an ordinance prohibiting the use of fireworks within the city limits on the 4th of July. In the face of what has been going on in Washington this last 8 or 9 years, I am wondering what occasion we have to celebrate the day at all. HARRY H. BUTTS.

AND HE WAS RIGHT.

Chicago, Feb. 28.—Yesterday I talked with a fellow who said that he didn't mind being drafted, because he thought the army would be good for his health.

SHELLSHOCKED.

NOTES ON BRITISH POLICY.

Chicago, Feb. 17.—If the British Isles are actually invaded this spring the resultant hysteria in this country may overwhelm all who oppose our entrance into the war. Tho we all hope that England will win and beat back any invasion that may come, let us not forget what England's attitude was when our own government was last threatened with invasion.

During our civil war period The [London] Times commented editorally that England was enjoying considerable prosperity at a time when the United States was tottering on the brink of destruction. By June, 1863, Gen. Lee was moving northward with one of the largest armies ever assembled on this continent. Following is a typical editorial comment of that day, taken from The Times for Saturday, July 4, 1863.

". . . What is America today? How is she keeping the annual festival which she consecrates to her own glorification and the villification of all the rest of mankind? . . . The signal failure of five successive invasions must, we should hope, have done something to shake Northern confidence in the skill of their generals and the invincibility of their army. The Deity of size and magnitude, so often and so devoutly worshiped, has fatally deceived her ardent votaries. Big guns, big ships, big threats, and bulletins replete with statements more enormous than any of them, have all been tried in vain, and the North finds itself the object of that very invasion with which it has so continually and so vainly menaced its antagonist. . . . These are the military prospects for the Fourth of July, 1863. . . ."

As the war progressed a group of English citizens formed the "Society for Obtaining the Cessation of Hostilities in America." A year later [July 15, 1864] they called on Lord Palmerston, then prime minister. Palmerston was not interested. On July 18, 1864, The Times applauded Palmerston's attitude, and its editorial for that day concluded by saying:

". . . The best service the government of this country can render the cause of peace is to let events run their course, and not interfere in American politics by word or deed."

It is not difficult to imagine what the attitude of 10 Downing street would have been had President Lincoln requested Lord Palmerston to supply us with munitions and loans to beat off the confederate invasion.

As late as 1939 Britain exhibited the same attitude when the duly elected government at Madrid was faced with the invading army of Gen. Franco. Upon the fall of Madrid The London Times said editorially on March 29, 1939:

". . . The British government, beset for so long by the clamour of those who would urge them to support of one or the other of the Spanish contestants, now reaps, after much contempt and obloquy, the reward of their resolution to commit themselves to favour neither side in a quarrel irrelevant to British principles and interests. . . . Hard things are always spoken of neutrals while war rages, but an honourable and consistent neutrality comes to be appreciated when peace is won. . . ."

In short, Britain's attitude has been to ignore invasions of foreign capitals if such invasions did not directly concern British interests. But what a cry of Uncle Shylock would arise if we maintained a similar attitude. JOHN KNOX.

THE LAKE STREET FIRE.

Chicago, Feb. 26.—I witnessed the Lake street fire today after a forced walk of several blocks to my destination from where the elevated dumped me off. This was not a major fire, and I was appalled at the traffic tieup. Thousands upon thousands of people were inconvenienced. Not only this, but you should have seen the antiquated fire apparatus among the few modern pieces. The old pumpers shook like model T Fords. One of them sprung a leak at the engine connection and showered the attendant, and another was running on about two cylinders. Then I saw a gray-haired fireman climb the ice laden steps of the water tower to operate it while much younger men stood around. If this man's grandchildren saw him they would have shrieked with horror. The fire standpipe was not in operation on the building because, I suppose, it was not in working order.

A city like Chicago should afford a more modern fire equipment and something should be done to prevent such a traffic tieup on these small fires.

KNEELING ON THE FLAG.

Chicago, Feb. 27.—On your back page you recently published a picture of the mothers that are picketing in Washington against bill No. 1776. They were shown kneeling in prayer. One mother was holding up an American flag, another immediately on her right was kneeling on an American flag apparently so as not to soil her hosiery.

If more time was spent by some of these mothers in familiarizing themselves with what the American flag stands for they would not have so much time to spend picketing something that they apparently know nothing about.

It seems quite strange that a mother would picket a bill proposed in our senate and while doing so use the American flag to kneel upon. G. W. H.

BOND ISSUES.

Chicago, Feb. 26.—[Legal Friend of the People.]—I have two $100 bonds issued by an athletic club. These bonds are due Nov. 1, 1940. We have been over to said club to try to collect on these bonds which were purchased in good faith. It seems impossible to be able to see the right man.

1. I need this money but don't know just [2] how to go about getting in touch with the right party. The club is still running under the same name.

3. I don't have the money to go to a lawyer.

4. If a mortgage is due in 1942 and the people had the money now could they by paying the interest up to [5] that time take up the mortgage? C. A. R.

1. You are at liberty to sue on the notes or to foreclose the trust indenture if the papers do not contain the common wording requiring a specified number of the bondholders to join the court proceedings.

2. If they aren't willing to talk with you, we see no way to force it.

3. There is no way to force matters without spending some money, but you might find a lawyer who would take the case on a contingent fee.

4. We assume that you mean the mortgage debtor.

5. If by "that time" you mean the date of payment, the answer is not without the creditor's assent since the creditor is not obliged to make any concession. If you mean the maturity date, it seems probable that the creditors would be glad to accept prepayment in full.

Test Your Horse Sense

BY DR. GEORGE W. CRANE.

Select the answers which you consider best. The last problem counts five points. Then look for the correct answers on page 28.

1. Which of the following would be most likely to use a fish ladder? **Firemen Fish Aviator Fisherman**
2. A lignite miner would work in a **Stone Quarry Salt Mine Diamond Mine Coal Mine.**
3. Which one of the following insects leaves its stinger in your flesh? **Honeybee Bumblebee Wasp Hornet.**
4. If a portion of your land was covered with silt, your property would probably be located **On a Mesa Near a River On the Prairie In a Desert.**
5. A book of safety matches usually contains how many matches **10 16 20 30.**
6. With the current interest in military affairs being so keen, I am awarding one point credit for each correct matching of the officers named below with the body of men normally under their supervision.

[a] Colonel.	[v] Guard.
[b] Sergeant.	[w] Battalion.
[c] Captain.	[x] Platoon.
[d] Major	[y] Company.
[e] Lieutenant.	[z] Regiment.

Score yourself as follows: 0-2, poor; 3-6, average; 7-8, superior; 9-10, very superior. [Note—the last question counts five points.]

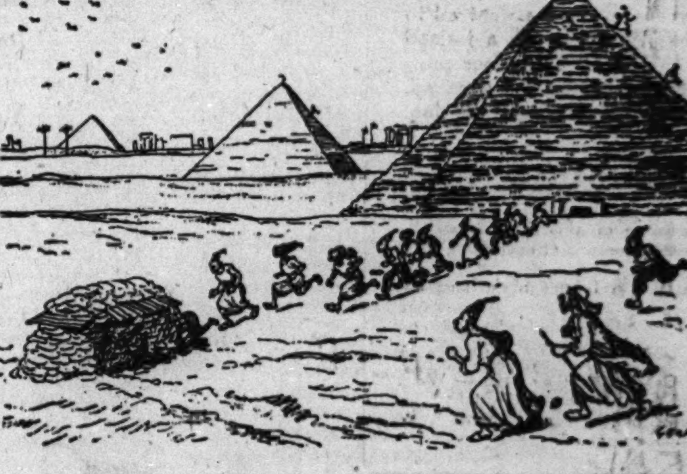
AIR RAID

[Punch (Copyright).]



33D DIVISION GOES INTO SERVICE OF U. S. TOMORROW

12,000 Illinois Guards to Be Inducted.

Twelve thousand men and officers of the 33d division, Illinois National guard, will leave civilian life tomorrow to become members of the United States army for one year. They will be inducted into federal service at military ceremonies in National Guard armories thruout Illinois.

Regular army officers who for years have been assigned to the various regiments as instructors will officiate at the ceremonies. They, or the commanding officers of the regiments, will read President Roosevelt's order federalizing the division.

After the induction officers and men will be permitted to reside either at home or in the armories until their division units leave for Camp Forrest, Tullahoma, Tenn., in 26 special troop trains and 16 motor convoys.

Lawton Departs Sunday Night.

Maj. Gen. Samuel T. Lawton, commander, and Col. Horace E. Thornton, chief of staff of the division, will depart from Chicago on Sunday night. They will be guests of honor at a chamber of commerce dinner in Nashville, Tenn., on Monday, and will set up headquarters in Camp Forrest next Tuesday. Capt. Charles Baron, Gen. Lawton's aide, will accompany them.

The first troops will leave for Camp Forrest aboard three special trains next Tuesday. Two trains will depart from Chicago. In one will be the officers and enlisted personnel of the division staff, the special troops of the division and the staffs of the 66th infantry brigade and the 58th field artillery brigade. The second train will carry the 108th quartermaster regiment of 651 officers and men. The staff of the 65th infantry brigade will leave on the third train from Pontiac, Ill.

Medical Regiment Follows.

The 453 men and officers of the 108th medical regiment will leave Chicago by special train on March 12. On March 13 the 108th engineers, 555 men and officers plus equipment, will leave the city in two trains, and on March 14 the 839 officers and men of the 122d field artillery will leave on two trains.

The next movement will be on March 16, when the 1,000 members of the 124th field artillery leave Chicago aboard two special trains. Three trains will pick up units of the 123d field artillery in cities and towns of western Illinois on March 17. This regiment numbers 1,225 men.

On March 19 the 1,372 members of the 129th infantry will leave from municipalities in the north and west sections of the state aboard six special trains. On March 20 the 130th infantry, 1,621 strong, will leave on five trains from south central Illinois.

Chicago Infantrymen Next.

The 1,300 members of the 131st infantry of Chicago will board three specials on March 21. On March 23 the 132d infantry, made up of 1,161 Chicagoans, will leave on three trains. All of the trains will arrive at Camp Forrest on the day after their departure.

Approximately 1,500 recruits enlisted recently also will make the journey to the camp, Gen. Lawton said.

The first motor convoy of 26 vehicles will leave Chicago at 6 a. m. Saturday. Thereafter one convoy will leave each day until March 25. None of the convoys will contain more than 75 vehicles, it was said. The trucks will make the journey to Camp Forrest in about three days.

Movement of the troops and convoys to Tennessee is under the direction of Lieut. Col. John A. Prosser, supply and transportation officer of the division staff.

FREE 13 SEIZED IN BOOKIE RAID; ARREST 35 MORE

It was the same old story in South State street court yesterday. Municipal Judge Joseph J. Drucker freed 13 men arrested in a handbook at 851 Belmont avenue when the raiding policemen told the court they had no search warrants and saw no gambling. Meanwhile, police squads raided two more handbooks and seized 35 patrons and operators. Seven women and nine men were arrested in a handbook at 226 South Wabash avenue, and the remainder at 2120 South Michigan avenue.

'L' CAR KILLS BOY; 28 ARE INJURED IN RESULTING CRASH

Robert Mouw.

A boy was struck and killed by a Rapid Transit car at the Central and Lexington avenues crossing yesterday. The accident resulted in a collision between another Rapid Transit car and a Chicago, Aurora, and Elgin train. Twenty-eight persons were injured.

The accident happened on the ground level. The boy, Robert Mouw, 14 years old, 5530 Adams street, had sought refuge from a sudden shower in the watchman's shanty at the crossing. While Lawrence Burke, 24, the watchman, was guarding the crossing the boy dashed into the path of a westbound Rapid Transit car and was killed.

Patrick O'Brien, motorman of an eastbound Rapid Transit car, saw the accident and stopped to aid the boy. A moment later the interurban train struck the wooden eastbound car from the rear. All except two of the injured persons were passengers of the wooden car.

SEA WAR TAKES HEAVY TOLL OF MAIL FROM U. S.

Washington, D. C., March 3 (AP).—The war is filling Davy Jones's locker with mail from the United States.

Eight vessels carrying mail from this country to foreign destinations have been sent to the bottom and 14,501 sacks of mail lost, a postoffice department compilation showed today. A full sack of mail weighs about 66 pounds and holds approximately 2,500 letters.

Records of mail losses en route to the United States are not available here. The 14,501 sacks lost at sea included 12,914 sacks originating in this country, and 1,587 sacks of "foreign transit." The foreign transit mail originated in other countries and came to the United States for transshipment.

BARRETT'S 4 AIDS FIND 246 BOOKIES SHERIFF COULDN'T

Big Underworld Names Included in List.

Attorney General George F. Barrett announced yesterday that in the last four weeks four special officers had served summonses and writs of injunction on 246 Chicago handbook operators, among them some of the city's most notorious gamblers.

In the same length of time 34 deputies of Sheriff Thomas J. O'Brien were able to serve only 41 writs and summonses. Barrett did not make the comparison, merely stating: "I am highly pleased with the results."

Names Are Kept Secret.

The names of the four officers, who for the present are special deputy sheriffs by order of Judge Maurice V. Joyce of the Circuit court at East St. Louis, were kept secret. It was stated, however, that they are not expert sleuths, but an accountant, a lawyer, an office clerk, and a law clerk. The 246 persons they served are subject to contempt charges if they do not file answers by March 17 to Judge Joyce's order restraining 1,500 persons in Illinois from operating handbooks.

The anonymous agents were interviewed yesterday in an effort to learn the secret of their successes.

"You don't have to be a gumshoe artist," said one. "I think anybody can serve these summonses and writs if he is honest and willing to use a little energy."

Shout and Kick Doors.

Another said: "It should be possible to serve at least 85 per cent of the 1,380 papers issued for Cook county. Of course, if you're going to walk away every time you meet with a locked door, you can't do it. What we did was to shout and kick the door, threatening to call police, until the locked doors were opened."

In dozens of instances, the four operators reported, handbook operators offered bribes ranging from $10 to $1,000 if service of the papers would be delayed for a few weeks.

Not only minor gamblers were served. Some of the more widely known names in the catch included those of Dennis Cooney, Martin Guilfoyle, Harry Guzik, Hyman [Loud Mouth] Levin, and Julius [Putty] Anister.

One special deputy said that he would be willing to give lessons to Sheriff O'Brien's men. Or, for that matter, to Sheriff O'Brien himself.

Record Snow Hits Northern England (Two Weeks Ago)

LONDON, March 3 (AP).—The censor permitted publication today that northern Ireland had its worst snowstorm since 1888 during the third week of February. The snow fell for 50 hours from northern Yorkshire to the Scottish border, in some places piling up to 4 feet on the level, with drifts mounting to 10 feet.

OFFICIAL WEATHER FORECAST

The United States weather bureau forecast for today and tomorrow and yesterday's table of records follow:

INDIANA: Cloudy and colder Tuesday, snow flurries in morning in northeast and east central; fair Wednesday.

LOWER MICHIGAN: Partly cloudy in north and west, snow flurries in southeast, colder in south and east Tuesday; Wednesday fair.

UPPER MICHIGAN: Partly cloudy and continued cold Tuesday and Wednesday.

WISCONSIN: Fair Tuesday and Wednesday; slightly colder in south Tuesday.

IOWA: Fair and somewhat colder Tuesday; Wednesday fair, slowly rising temperature in extreme west.

Can you name the RADIO
Super-Stars?

$5,000 IN CASH PRIZES!

WITH the summer vacation season not far distant, you no doubt are dreaming once more of that trip you'd like to take. Here's your chance to WIN some extra vacation money!

Do you know the names of the popular radio stars? Of course you do! You've heard them on the air many times—you've seen most of them in the movies—such popular personalities as Bing Crosby, Gracie Allen, Kate Smith, Gene Autry, John Barrymore, and others.

Study the two pictures printed at the right. Can you identify the radio stars they represent? Write the names below the pictures. Get the next picture in tomorrow's Daily Tribune and continue the series.

The Chicago Tribune will pay $5,000 in cash prizes to the persons who submit the best answers. This offer is open free to all. There are no strings or catches! No subscriptions to solicit! Nothing to pay! Just amuse yourself solving the puzzle pictures. You may win as much as $1,000 in cash! Think what a grand vacation you could have!

★ ★ ★ THE RULES ★ ★ ★

WHO CAN ENTER? This offer is open free to men, women, boys and girls everywhere—except employes of the Chicago Tribune and members of their families. No person may submit more than one entry.

WHAT TO DO? Each week day a puzzle picture representing the name of a popular radio star will be printed in the Daily Tribune until 42 have appeared. Solve the puzzle pictures and write the names in the space provided, or on a facsimile. Hold all answers until you have the complete set of 42. **Do not send them in separately.** It is not necessary to solve ALL puzzles correctly to win. Prizes will be paid for entries ranking highest.

WHERE TO SEND? Mail your entry by First Class Mail to "Super-Stars," Chicago Tribune, Post Office Box 1539, Chicago, Illinois. A ballot will be printed with Puzzle Picture No. 42. Each contestant must vote for the "Super-Star" he or she likes best and state the reason for such choice in 25 words or less. Contestants may use the printed ballot or a facsimile. Ballots will be considered only if two or more persons submit equally correct solutions to the puzzle pictures; in which event, judgment will be based on sincerity and originality. Entries must be in by midnight, one week after Puzzle No. 42 has been printed.

JUDGMENT: Entries will be judged by a committee appointed by the Chicago Tribune. Entrants agree that the judges' decisions will be final. 430 cash awards totaling $5,000 will be paid to the persons who send in the nearest correctly solved, complete sets of puzzle pictures. Elaborate entries will receive no more consideration than simple ones. In fairness to all the Tribune cannot engage in any correspondence. In case of ties duplicate awards will be paid.

Miss Swarthout Charms Both Eyes and Ears of Her Audience

BY CECIL SMITH.

Gladys Swarthout, one of the most winning artists of the American concert stage, sang her first Chicago recital in four years in Orchestra hall last evening, under the auspices of the Music Guild and for the benefit of the British War Relief society.

A singularly fresh and well arranged program included 17th and 18th century English music by Handel, Dowland, Purcell, and Arnold; "Che farò senza Euridice," from Gluck's "Orfeo ed Euridice"; three folk songs from Auvergne, arranged by Jean Joseph Cantaloube; Spanish songs by Granados, Pittaluga, and Obradors; and an American group by John Alden Carpenter, John Sacco, Clara Edwards, Charles Naginski, and Richard Hageman. Lester Hodges, Miss Swarthout's superb accompanist, contributed piano solos by Borodin, Prokofieff, and Poulenc.

◆

In her pale blue bouffant Valentina gown, Miss Swarthout would have been delightful to gaze upon, even if she had not sung as expertly as she did. But this is not a fashion column, and our main business is to record the growth and expansion of both Miss Swarthout's vocalism and her artistry.

Other singers, perhaps, are blessed with voices intrinsically more dynamic and commanding. But Miss Swarthout's voice is warm in texture and responsive to many varied inflections of color. In the last two years she has succeeded notably in smoothing out her tone production, virtually eliminating the troublesome break that used to come between her middle voice and her lower register, and developing a commendable fluency and exactness in florid coloratura singing. Altho she might still do well to work toward a tone quality that is gayer and a little less dark, her singing now rests on an utterly dependable technique of the first rank.

◆

Her interpretations are marked by zealous devotion to the most tasteful standards; if she ever moves away from a safe middle course it is in the direction of too much discretion rather than of too much enthusiastic outreach toward her audience. Her Auvergne songs, however, were exquisitely understood, and projected with an evocative sense of their special regional character. The Cantaloube harmonizations are richly imaginative, and Mr. Hodges' admirable collaboration at the piano was a significant factor in their success, as indeed it was in the success of the entire evening.

The Spanish songs Miss Swarthout presented with equal infectiousness. A deeply felt performance of the lament from Purcell's "Dido and Aeneas" was a high point of the opening group. The Gluck aria was smoothly sung, but the opening recitative needed more forceful dramatic accents. In the final American group the most original and attractive composition was Charles Naginski's pert and personal little song, "The Pasture."

Order Establishing Fort Dearborn Is Recalled at Luncheon

One hundred thirty-eight years ago, on March 3, 1803, the orders were signed for the erection of Fort Dearborn at what is now Wacker drive and Michigan avenue. Yesterday the Fort Dearborn association and the Junior Association of Commerce held a luncheon at the Hotel La Salle in commemoration of the event.

Col. Harry Musham, retired, well known in Chicago historical circles, addressed the group. He emphasized that in this changing world it is essential that tradition be kept in front of the public so that they will not forget their heritage.

A float consisting of a replica of the famous fort was sponsored by the Junior Association and toured the loop both Saturday and yesterday.

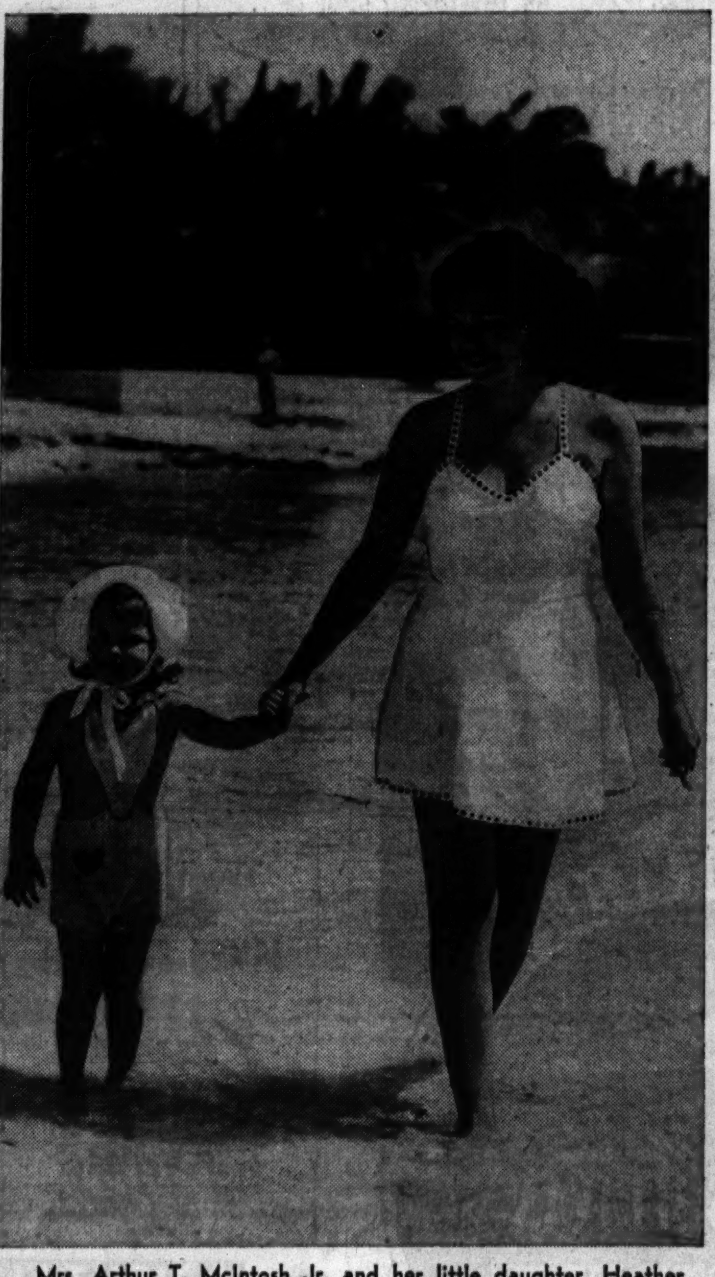
German Woman's Club.

The Independent German-American Woman's club will hold its annual birthday luncheon tomorrow at the Auditorium hotel. Mrs. Anna M. Schaedler, founder president, other former presidents, and Dr. George L. Scherger, pastor of St. Paul's church, will be guests. The Steele Solfronk duo will give a program. Mrs. Arthur R. Webber is chairman of the celebration.

Daily Dip at Key West



Mrs. Arthur T. McIntosh Jr. and her little daughter, Heather, enjoying a dip in Key West, Fla. Mr. and Mrs. McIntosh Jr. and the senior Mr. and Mrs. McIntosh are among the many Chicagoans spending their winter holiday at this far south resort.

Front Views and Profiles

By June Provines

Your Chicago and Mine.

[In the morning mail.]

Dear Miss Provines:

Marge can have Sunrise Valley and Joe the Trucker his southern Illinois; I'll take my Chicago. Not the stuff you read in the papers, but the little things that you can see every day all over the city. Not the guys who ride in well heated cars and listen only to the drool from abroad; they see nothing. And not the news hounds who bury their ostrich-like heads in the paper on the not so well heated street cars.

* *

At 7 a. m. these mornings you can't see the sun on Montrose avenue but you can hear the Toonerville trolley a mile away. At the half-mile you can begin to see it wiggle-waggle into sight as the harassed conductor - motorman tries to get the passengers in, make change, give transfers, call streets, watch traffic, and keep his temper and schedule. You finally get in, ride a short distance by swing and sway, and get off at Kimball to await the bus. It dashes up and gets away fast. As you go south, glance off to the left when past Addison street and the sun becomes visible as a great big smoldering ball of fire.

* *

North and east along Ogden and Randolph an hour later catch the activity in the vegetable and grocery market along the way. The sun has disappeared and the usual cold, damp, cloudy day settles ungraciously about you. North on Clark street, past the already well filled saloons [pardon me, taverns] and the subway bomb-pits to the hospital across from Lincoln park. The sun breaks thru the clouds for a moment and from the top floor, looking east, you can see the whitecaps on the lake, and the quiet outer and inner lagoons. The view gives you a lift for the balance of the day. Back south across the teeming loop to a south side basement flat, clean as a pin and nice people with nothing to their name but courage.

Northwest on the L, meeting the incoming shoppers, and past the loop into the residential districts with the luncheon going women aboard. Matronly women acting like schoolgirls as they meet old friends. Kids coming out of school at lunch, darting here and there, but abiding by the direction of the beloved policemen at the dangerous crossings.

* *

Finally home to dinner after a few more stops in the quickly descending dusk, traffic choked with the workers on all conveyances, and the lights blinking on everywhere as night settles over the city. A thousand little nice things have been done all over the city by innumerable people for the sake and convenience of others, but the evening papers carry no mention of these courtesies. They are too busy with the news from abroad.

—Prairie Dan of Chicago.

Two Luncheons of Importance on Lists Today

BY JUDITH CASS.

THE early bird definitely will have the advantage at two big luncheon meetings on today's calendar. The ballroom of the Stevens hotel will be jammed for a report on Germany Sigrid Schultz is to give before the Chicago Council on Foreign Relations. The ballroom of the Drake will be packed for the Fashion Group's annual show, "On Our Own."

About 1,000 reservations have been made for the luncheon at 12:30 o'clock preceding Miss Schultz's talk. Other hundreds who are going only for the lecture will fill the balcony and all other available space even before the luncheon service is started. Council regulars are accustomed to the smartly regulated service and arrangements that permit business men to come for luncheon, hear a talk and get back to their offices in an hour and a half, and at a meeting the size of today's they are filled with admiration for this talent.

Miss Schultz in Germany for Last 20 Years.

Miss Schultz, THE CHICAGO TRIBUNE'S correspondent in Berlin, has just arrived from Germany, having been delayed at sea. She has covered every major event in Germany for the last 20 years. At the speaker's table will be Adlai E. Stevenson, who will preside, and Mrs. Stevenson; the John Fennellys, the Neil Cowhams, Mrs. Tiffany Blake, Robert M. Adams, and Mrs. Howard Fenton.

Miss Schultz will address members of the Chicago Woman's club at 8:15 o'clock tonight. Tonight's lecture also is open to the public.

The balcony in the Drake ballroom will be filled, too, but luncheon will be served there as well as on the main floor. Six hundred or more have made reservations. The Fashion Group committee expects to allow an hour for the meal and an hour for the show following.

While her husband is at the Stevens, Mrs. Adams will be at the Drake. Mrs. Mark Trude, Mrs. Cyrus H. Adams III., Mrs. Marshall G. Sampsell, Mrs. Walter S. Carr, Mrs. Charles W. Dempster, Mrs. Harry Selz, and Mrs. Jacob H. Bischoff are others who will have luncheon tables.

Badminton Championships to Be Played at New Trier.

Shuttlecocks will fly furiously this week-end over the Skokie Badminton club's courts at New Trier Township High school, where the Midwest Badminton association will hold its fourth annual championships on Friday, Saturday, and Sunday. As chairman of the tournament playing committee, Norval P. Trimborn already has received 301 entries, 21 from Detroit.

R. Ward Starrett's interest in the matches is not only as an official, for he will play in the tournament of which he is committee chairman. On Saturday night he and Mrs. Starrett will entertain at buffet supper, a type of party which fits in nicely with the tournament's elastic schedule. Also on the players' calendars are a tournament cocktail party and luncheon starting at 12:30 o'clock Sunday.

Contestants will include Betty Archer Patterson [Mrs. John Graham Patterson], June Beebe Atwood [Mrs. Philip T. Atwood], Robert T. Porter, Mr. and Mrs. George Fargo, Mr. and Mrs. Courtney Davis, the John Taylors, the Henry D. Penfields, Dr. and Mrs. Hugh G. Bridegroom, Mrs. Franklin Callahan, the William F. Stahls, the Harry Hunsbergers, Mr. and Mrs. William C. Lenhart, the Scott Greenes, Miss Ada K. Rew, Mr. and Mrs. Arthur Rogers, the Joseph A. Mollers, the John Kimbarks, and Miss Elizabeth Wing.

The second largest badminton competition in the United States, the Midwest tournament includes six events,

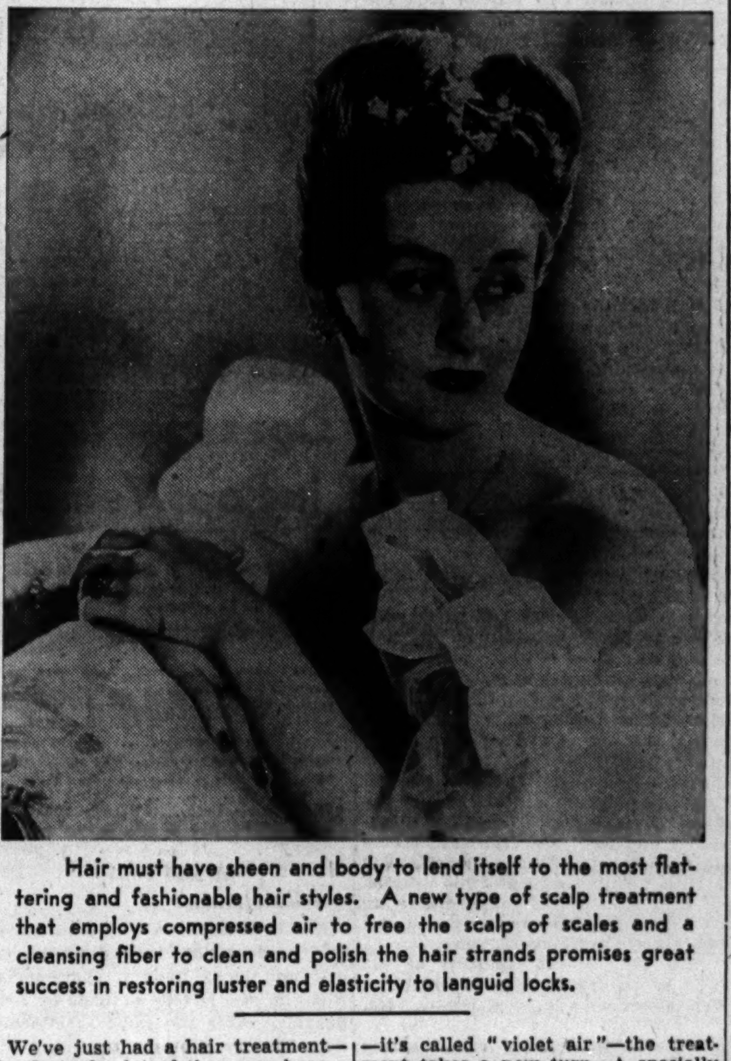
Thru the LOOKING GLASS



Hair must have sheen and body to lend itself to the most flattering and fashionable hair styles. A new type of scalp treatment that employs compressed air to free the scalp of scales and a cleansing fiber to clean and polish the hair strands promises great success in restoring luster and elasticity to languid locks.

We've just had a hair treatment—the first of a lot of them, we hope—that strikes us as being exactly what the feminine world has been waiting for. It's designed to restore body to limp hair, and that's just what it does. It does a lot of other things, too, such as cleansing the scalp perfectly, stimulating it in a positively exhilarating fashion, and polishing every little hair strand until it gleams!

It begins and ends with compressed air. In the beginning the air, in a forceful stream thru what looks like a metal pencil, is applied directly to the scalp. And do the dandruff and dead cuticle fly! You'll marvel at the zillions of flakes that fly off what you like to think of as your perfectly clean scalp! You can see for yourself what an avalanche of dandruff is dislodged, and when you see it you'll cease to wonder why your hair has been so languid. We have seldom seen anything to equal this as a cleanser and pepper-upper of the scalp that is too dry, too oily, or just normally inclined to scale.

◆

With every bit of scalp coating dislodged by this wonderful new process—it's called "violet air"—the treatment takes a new turn. A specially processed wood fiber, which has been medicated with eucalyptus oil and several other good things, is then combed thru the hair and rubbed into the scalp to give it a unique dry cleaning and toning. The wood fiber is used rather than an orris root or similar powder for two reasons—it won't make the allergy sufferers sneeze AND it brushes out without leaving that gray powdered look to the hair. Every smidge of it is blown out. You just can't imagine, till you've tried it, how exquisitely clean and vibrant it leaves your hair.

◆

This is one of the best treatments we have ever seen for hair that gets oily. The wood fiber, worked thru the hair and onto the scalp, absorbs every bit of the excess oil. Dry hair, on the other hand, is less dry after the treatment.

Elementary Schools to Be Opened as Community Centers

Four elementary schools will be opened to the public as community social centers every Friday night starting March 21, Miss Ernestine L. Badt, director of social centers for the board of education, said yesterday.

Facilities at the schools will be available for club meetings, dancing, games, sports, dramatics, choral work, and other community recreational activities upon application to the director of the social center.

The new centers are Burr school, 1621 Wabansia avenue; Douglas school, 3200 South Calumet avenue; Hayes school, 258 North Leavitt street, and Warren school, 9210 Chappel avenue.

Piano Soloist and Symphony Win Audience

BY EDWARD BARRY.

It would be hard to find two works in the pianist's répertoire that contrast more vividly than the Bartok Rhapsody and the Mendelssohn Rondo Brilliant. The former has the dark, wilful, earthy quality which we associate with the folk music of the east of Europe. The latter is a suave salon piece in its composer's most gracious and tinkling style.

Rose Goldberg played both of them last night when she appeared as soloist with the Illinois Symphony orchestra, Izler Solomon, conductor, at the Great Northern theater. What is more, she played them idiomatically, with an intelligent regard not only for their superficial differences but also for their contrasting spirits.

◆

The Bartok had just enough of the violence and the headlong feeling which its more sultry rhythms demand. The performance as a whole—like the music—was youthful, mercurial, and informal.

The Mendelssohn had an aristocratic ease which sprang partly from Miss Goldberg's very fluent technique, partly from her ability to give a phrase a poised, graceful contour. The audience liked the pianist greatly.

The Bartok Rhapsody, which had never before been presented in Chicago, is an early work dating from a time before its composer had well begun his exhaustive investigations of Hungarian folk music. Parts of it suggest the foreign view of this music as something roughly equivalent to gypsy music.

◆

The program held another first Chicago performance—a suite of orchestral excerpts from Albert Stoessel's opera, "Garrick." Among other things there were a sprightly Bourree with a curious jazz admixture, a very vigorous and compelling Gigue, and an air of the aspiring sort with a beautifully shaped and provocatively harmonized melody.

The orchestra's other items were a suite [the first] of Old Dances and Airs for the Lute, by Respighi, and the "Midsummer Dances," Opus 24, of Kurt Atterburg. The orchestra did some exceedingly clean lined and expressive playing in the rare old lute melodies.

We have about six kinds of fish fillets (no bones) and our center cut Halibut and rich Red Salmon Steaks have only a center bone that's easily removed. Fish eating's a joy when there's no bone.

What's More Satisfying Than an Oyster Stew?

Or oysters in cocktail or scalloped or fried? Oysters just about head the list of delicious, health foods. They arrive here FRESH daily. Why not enjoy them now?

We've Most Every Kind of Seafood

Live Lobsters, Scallops, Rock Lobster Tails, Shrimps—all foods of the sea that are so needed to supply iodine and other properties needed for our health and happiness.

Like Finnan Haddie or Blind Robins?

Sounds queer — but they're two popular smoked fish. We have them. Also smoked boneless fillets, Barbequed Salmon, Smoked Trout, as well as Smoked Sturgeon. Men "go for" smoked fish in white sauce. Economical dish, too.

Strange Judas

SYNOPSIS.

Don Barron, young American newspaper man, is sent to rescue Paul Darmal, a financier and an opponent of the Nazi régime. His plan is to let Darmal take his place on a Swedish boat and flee Germany.

INSTALMENT II.

PLAN FAILS.

From the double bottom of his shaving holdall Don Barron took the passport that had been prepared for Darmal. He hid it inside his clothes. He saw that he had his own passport ready to hand. He took a compact shaving kit from his suitcase and dropped it into a pocket. He studied his cabin to see that it was in order.

It was. A pajama suit was in place on the bed, a dressing gown hung from the door, washing apparatus was scattered over the wash stand. The suits that had been prepared for Darmal were on their hangers.

Darmal would come straight to this cabin as tho he alone had inhabited it all the voyage.

That was the simple essence of their plan. Don Barron would walk off the ship, Darmal would walk back aboard her, taking Don's place. Magnus would go out as she had come in, with every passenger on her schedule accounted for. Only the Don Barron on her passenger list would not be the Don Barron she now carried.

Nobody would know that beyond Hekking and such stewards who were paid to see the thing thru. Darmal would remain unseen in his cabin, in his bunk, a sick man of several days illness who had not, apparently, gone ashore. There was not much chance of questioning, for a serious checking of transit passengers was unlikely. Even if it came to an examination, the false passport would proclaim Darmal to be Don Barron, photo and all. In such matters of detail the Sturgis Shrady organization left nothing to chance.

Don Barron, the real Don Barron, would go out of sight in the keeping of their local man, Twysden, until such time as Darmal was safe in neutral Stockholm, where he would be well looked after. Don Barron would then make his own way out of Germany, thru Holland, Belgium, Switzerland, or Italy—whichever way was wisest. There wouldn't be much danger. He was an American citizen with a valid passport and valid visas, while being a newspaper man provided a multitude of excuses.

Yes, a neat plan, making no great calls upon him. That call would only come if anything went wrong, and he had to get Darmal out on his own brain power in the face of the constant and ugly risks of war conditions.

Squarish, blunt-faced, with an air of slow and quite misleading heaviness, Don Barron did not look a trouble seeker, and wasn't. He could take it—even make it, if necessary, but his placid, disarming manner was part natural; also he knew how to use it to get what he wanted where brighter boys would be thrown out on their ear.

On deck Hekking was in the middle of a mob of port people. He and the shipping agents were deep in war with the biggest and blackest of the shirts, whose function in life was to shout "Nein! Nein! Nein!" with unquenchable vigor. But Munter was coming into play, too. He was making demands with a vigor that was making even the blackshirts blench. The shipping men seemed to be aiding him with warning asides of his international importance. As Don Barron drew near a blackshirt snapped a string of orders, and, wheeling like a juggernaut, stamped from the ship.

Hekking came toward the passengers, his eye avoiding Barron's.

"You're allowed ashore, but you must keep in the company of Mr. Bostrom, here, of the office. I shall be at the rathskeller for lunch, I could show you some of the sights this afternoon. . . . Carry on, Mr. Bostrom. . ."

The younger of the two men from the shipping office came toward the passengers. There was a look of anxiety in his face, as tho Hekking had not said all his piece. But the captain had his own shrewd way of doing things, as he turned away he said as an afterthought: "Which of you wanted to buy Baltic amber—O, yes, you, Mr. Barron. Mr. Bostrom will show you the best places."

From the way Mr. Bostrom's eyes quieted, Don Barron knew that Hekking had maneuvered an important introduction in the most unsuspicious manner. Indeed, as they sorted themselves out on the quay Bostrom found his chance to whisper to the young American: "Message for you, Mr. Barron. You do nothing until Capt. Hekking can speak with you."

Barron nodded and Bostrom drew away as touts came down on the party, anxious to guide them to all the sights. He guessed he had to be careful of touts. He also realized that Hekking's fears had been right, that something had gone wrong with their simple plan.

Don Barron, altho he knew the town like a book, became the model tripper, for he saw that the touts weren't all they pretended to be. In spite of Bostrom, two of them unobtrusively tagged the party. There being not even the smell of taxis about, the only transport into the town proper was the long, wormy, many-jointed tramway. The touts came aboard with them, and, while playing plain, dull citizens missed nothing of the interest shown by the party, especially Munter, during the run from the docks.

There was plenty to excite. Troops of all kinds poured toward the docks. Hand-picked units, if Barron's expert eye knew anything, and each man as heavily armed as those on the quay. Motorized field batteries, armored cars and carriers waited in patience in dozens of side streets. But no heavy stuff. Barron wondered if heavy guns and howitzers were being shipped from another port. And anyhow, where to? What front? What neutral was going to get it now?

Barron saw all with a flat, lethargic glance, saying nothing. Not Munter. He had a comment for everything. Sometimes he talked rubbish, sometimes dangerous folly, as when he asked the girl beside him: "Say, was that the fifth or sixth battery we passed?" Barron noted how progressively the two touts concentrated their inattention on Munter.

Munter was one of those born to accumulate suspicion. When the tram decanted them amid the mellow old Hansa houses and corbie gables of the Holzmarkt, Munter was loudly against trooping around looking at museum pieces. He and four other rebels broke away to see life and lager in their own way. Barron's wink to the worried Bostrom eased their going. Barron wanted to find out what he did find out. That is, that the more alert looking tout detached himself from the study of a news kiosk and drifted after Munter. Their own shadower grew more limp and dejected as he trailed the party thru all the show places. It was plain that he, too, thought Munter was the only real prize.

Barron might have been as bored himself, but he had his own thoughts to think. Was this shadowing of casual visitors a Nazi normal, or did it mean they had already got wind of what he was here to do? That careful trailing of an American—if it was only Munter—didn't make the prospect look so happy.

Hekking greeted the party with an exaggerated breeziness when they reached the rathskeller for lunch. Barron was not fooled. The little captain was covering up an acute anxiety. He fixed things to bring him casually alongside Barron as he herded the party thru the door of the underground restaurant.

"Message for you, Barron," he muttered. "All previous instructions killed. You must make your own plans from now on. I'm not to expect you back on the ship, nor the man who was to take your place. We'll try to cover that up, but, if it comes to it, we'll have to pretend you've jumped the ship without telling us."

"Good enough. That'll let you out and it's the sort of thing a news hound like me would do. Only, does that mean they're onto us?"

"Don't know. They seem to know something. Your man here thinks they've been tipped off some way. But it may mean nothing. You still carry on. You go to the Grenzgasse——"

"I know it—yes," Barron said, for the little captain, who had crossed the vestibule ahead of him, had stopped dead by the door.

"Drop back," he muttered quickly. "And keep your eyes on that big crab right at the back—second table from the wall."

Barron let the rest of the party flow by; when he entered, Hekking was talking to Munter and his friends who were waiting beside pint steins.

The restaurant was a large and gloomy place, like a crypt, the massy pillars and groined roof still as its medieval builders had left them. As a war-time economy, no doubt, only a third of the lights were on so that in the dimness, Barron could make out little more of the man at the back than a large pair of shoulders in a tunic festooned with the cords and knots of officialdom. The woman beside him was an even vaguer ghost.

Lectures on Gardening to Be Given at Parks

With spring coming on, the Chicago park district will sponsor a series of lectures on amateur gardening at four city park fieldhouses beginning next week. The lecturers, all amateur gardeners, will speak at Portage park on Monday nights, Chase park on Tuesdays, Garfield park on Wednesdays, and Hamilton park on Thursdays.

Chicago Conservatory to Observe Anniversary

The Chicago Conservatory of Music, oldest and largest music school in the United States, is making plans to celebrate its 75th anniversary with a Diamond Jubilee symphony concert on March 16 at the Great Northern theater. The school was founded in New York in 1857 and moved to Chicago in 1865. The concert will feature the conservatory's 65 piece orchestra under the direction of Ludwig Becker.

Good Morning!

Excellent acting, a very punk story, and presentation that drew in its belt and looks hungry, characterize this film, the last to be made by Ann Sheridan after she came to clinches with Warner Brothers regarding the question "How much is an oomph girl worth per week?"

She plays—in a smart tailored suit with NO change of costume—the up and coming secretary of a famous author, idolized by the ladies who just dote on his latest book, "Miriam."

Julie Wilson, a young married woman who had known the author 'way back when, and who fondly believes that she is the heroine of the novel, clamps down on Mr. Bixby during his brief sojourn in her home, Cleveland, where he is to address the woman's club and autograph copies of his opus and whither he has been accompanied by his lovely watchdog secretary, Anne Rogers.

Mrs. Wilson has a patient spouse who long has wished to break away. She also has some in-laws who are attorneys. . . . Complications are many, but Anne is equal—or NEARLY—Equal to them all. . . . ANYhow, she finally scuffs feminine barnacles off her just about floundering employer and cadges him for herself—which is, of course what she's wanted to do right along, with Barkis being entirely willin' only he hadn't realized the fact.

Miss Sheridan does a slick job with practically nothing to work on. Mr. Brent is as nice and funny as the script permits, and Osa Massen, who looks like Maurice Chevalier in skirts and sounds like him, too, qualifies satisfactorily as Julie. . . . An armful of roses to Mr. Ruggles as her husband! Lee Patrick's pretty amusing, too—in spots.

I have quite a yen for both Miss Sheridan and Mr. Brent, so — the movie didn't bore me too much.

See you soon.

Movie Closeup

Chicago's newest newsreel theater—located on Madison near Dearborn—and called "Today," has been doing a nice business since its doors were thrown open to the public on Saturday.

The theater is luxuriously equipped and modern in every way. . . . Flowers bloom in its lobby and hope for its success blooms in the heart of its owner and manager, Richard Beck, who, with his father, Clarence E. Beck, at one time operated the little Castle theater on State street, near Madison.

"Today" will specialize in late newsreels direct from the editorial rooms of newsreel companies.

We welcome "Today" to our midst and wish it success through all its tomorrows.

We've been hearing a lot about vitamin B-1—or thiamin chloride—recently. Doctors and nutrition experts tell us that this is the vitamin which is most likely to be dangerously low in our diet, lack of which is responsible for afflictions such as poor appetite, chronic fatigue, constipation, and nervousness.

A severe shortage of this vitamin causes the disease beri-beri, which is common in this country only among chronic alcoholics, but which is prevalent in the orient where the people live largely on a diet of polished rice and don't get much milk. Even tho the severe shortage of this vitamin is uncommon here, a mild shortage seems to be responsible for many of our ills. The movement to put back into white flour the vitamin B-1 which is lost in the milling process is commendable, for bread is our most staple food, and probably would be our best source of the vitamin. Whole wheat bread is an excellent source, and B-1 white breads are becoming more common.

Mary Swartz Rose, professor of nutrition at Columbia university, suggests that an adequate amount of B-1 may be obtained in a day from a pint of milk, 200 calories of whole wheat bread [about 3 slices], 100 calories of a cooked whole grain cereal, an egg, half a cup of tomato or orange juice, and 100 calories of potato cooked in the jacket. Whole grain cereals and legumes, egg yolk, liver, lean pork, wheat germ baker's and brewer's yeasts all are excellent sources. If economy is no object, one may buy wheat germ to be used as a cereal, or to sprinkle on the morning cereal, and this is an easy way to get the amount of vitamin needed.

Any one who is reducing, and consequently eating sparingly of breads and cereals, needs some special form of the B-1 vitamin. Doctors often prescribe the granular or flaked wheat germ. Pregnancy, an increase in the amount of physical work, the growing needs of children, all call for more B-1 than the average adult requires.

We don't have to worry about getting too much of this vitamin. Most of us need much more than we are getting. We women who are the menu planners for our families have a great responsibility in seeing that our meals provide enough of this important vitamin.

March 4, 1941.

Universal Day—Be neat and orderly, on time, and economical today if you don't want to feel frustrated.

March—For those in a four-year this year the month of March is a seven-month. This means that the emphasis right now is on study, rest, and retirement from worldly activities. You should not attempt to force any issues which are up for action, but wait until next month. You can get things ready quietly if you have some project in mind, but don't expect things to move along speedily and without hitches. The slower you go this month, the better you will be able to make real progress next month. This is a year of establishing order and system in your life, and this is a month when there could be a little confusion and vagueness about your plans and ideas. Don't get rattled. Just relax and don't worry.

Would you like to know what kind of a year 1941 will be for you? Send for your personal yearly, monthly, and daily guide.

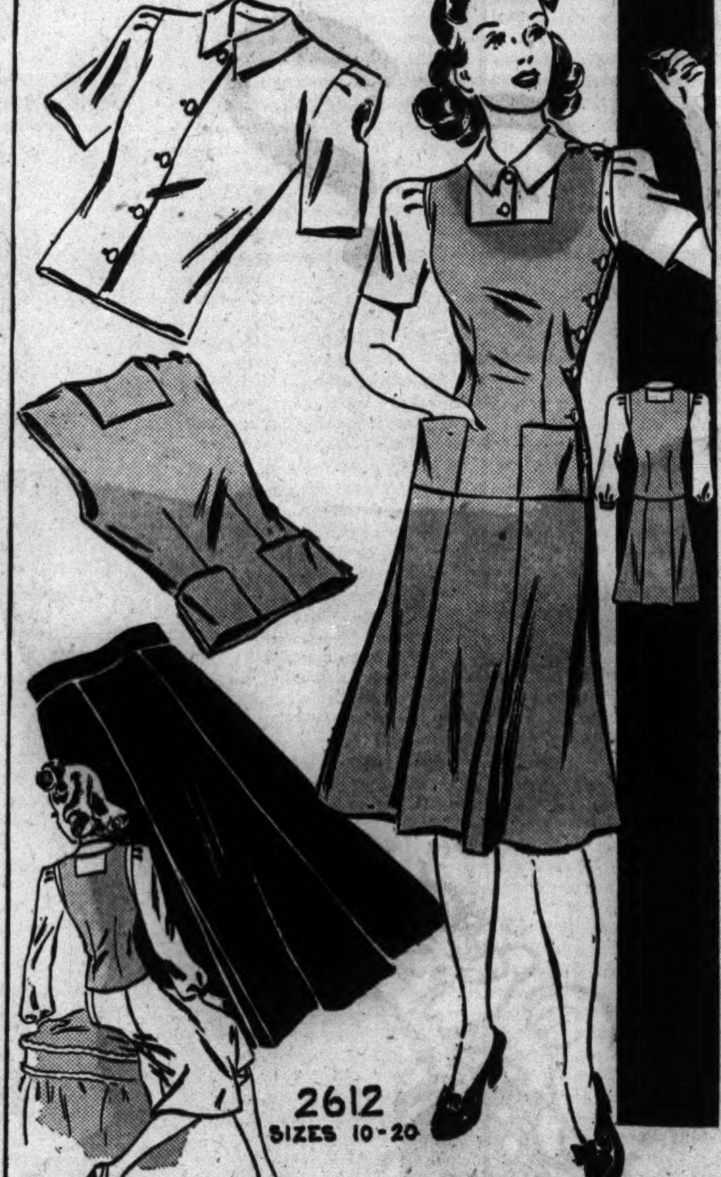
Practical Jerkin Costume



MISS' SKIRT, BLOUSE AND JERKIN.

For school, business, and vacation wardrobes a jerkin costume is virtually a necessity because of its wearability and practicality. Today's pattern offers skirt, blouse and jerkin, all three, and one may employ fabric and color contrasts effectively.

Style No. 2612 is designed for sizes 10, 12, 14, 16, 18, and 20. Size 16 requires 1¼ yards of 39 inch material for jerkin; 2¼ yards for skirt; 1⅞ yards for long sleeved blouse; 1½ yards for short sleeved blouse.

Address orders for Clotilde patterns to Chicago Tribune, P. O. Box 537, Grand Central annex, NEW YORK CITY, including 10 cents in stamps or coin (coin preferred—wrap it carefully) for each pattern ordered. IMPORTANT! Be sure to state clearly the number of the pattern and the size desired, and write your name and address plainly.

Looking at Hollywood
By John Chapman

Hollywood, Cal., March 3.—Expected to arrive tomorrow is a girl who may be the Warners' answer to Ann Sheridan, holdout. Name's Alice Talton and she's a Florida beauty. "No exponent of the Stanislavsky system, but a graduate of the Steven Hannagan School of Acting," says a scout. Meanwhile the oomph girl continues to languish, despite the fact that Hollywood writers, who think Ann is a swell girl, keep needling the Warners and say it's a shame. . . . I don't know why title changes keep getting me down, but they do. Most recent is Republic's shift of a new musical from "Angels Without Wings" to "Angels with Broken Wings." . . . Herbert Marshall rather badly burned his hand when a cigaret lighter he got from England got too enthusiastic. It also started a blaze in his home—but just a tiny one that Marshall bagged with a quick shot from a seltzer bottle. . . . In Columbia's "Chain Gang" Gloria Dickson drives a car—thus breaking a pact she made with her father 15 years ago. Her father was fatally injured in an auto accident and before he died he made Gloria promise never to drive. However, the "Chain Gang" scene was just a few feet on a stage. . . . Coinciding with the March 12 première of "Meet John Doe," a Frank Capra alumni organization will be announced. Membership will include every star and featured player who has worked for Capra. Edward Arnold is prexy, and most of the big names in town will be in—Stanwyck, Gable, Colbert, Cooper, Brennan. The night of the opening they will give Capra a scroll.

Much arguing, of course, over the wisdom of the academy awards—which is natural and healthy. If everybody were content — or if nobody cared a hoot—there'd be no sense in having Oscars. My one wide disagreement with the academy vote was in the "best adaptation" department. I'd have give the gold statue to Nunnally Johnson for "Grapes of Wrath" instead of to Donald O. Stewart for "Philadelphia Story." . . . I hear that Barney Glazer, who won a thing for "Arise, My Love," had sold a story to a studio for $25,000 and then left for New York to pick up the check. The deal was verbal. While he was traveling the studio changed heads and the first official act of the new boss was to decide not to buy Glazer's yarn.

Here's the dope on Errol Flynn's Hawaiian ranch: The actor has bought the Hue Hue [meeting place of kings] ranch on the island of Hawaii, a day by boat from Honolulu. He got it from the Stillman family which had held it for five generations. There are 15,000 acres, ranging from beaches to an extinct volcano. The ranch has been profitable for 47 years, and Flynn takes over a government contract for the sale of beef and the breeding and sale of horses. There are about 3,500 cattle and 500 horses on the place now, and 87 employés. Flynn, now in Hollywood, won't return to his new place until after the birth of his and Lili Damita's child.

Fred MacMurray will have the second lead in E. Flynn's "Dive Bomber" . . . Paramount's plan is to cast John Barrymore as a movie producer in its projected film about junkets, "World Premiere." And Rudy Vallee would be one of John's stars . . . A new Paramount starlet, Barbara Brantingham, has been renamed Barbara Britton. . . . Overheard at the academy dinner: "What this country needs is a good cellophane waiter" . . . and Johnny, the Warner studio's raven, is reported to have demanded a long term contract. When an executive snorted that ravens don't have long jobs, Johnny croaked, "one of my relatives has been playing 105 years on the bust of Pallas in that Poe thing." . . . Another Academy afterthought: In presenting the technical awards, Darryl Zanuck said he was glad to do so because, while wave inventors and camera developers work unsung, "the public recognizes only the work of actors, actresses, directors, and writers." I'll bet Mr. Z. a buck that he's wrong. The public recognizes only actors and actresses. Just for fun, right now, think of the last movie you saw. Got it? All right: who directed it and who wrote it?

Speaking of world premières, Paramount is planning one for a city that has never had a really grand scale, Hollywood style scuffle—New York. Altho cameras haven't even started turning yet, the studio is fixing to open C. B. De Mille's "Reap the Wild Wind" in New York. This decision was made because of the success of the "Northwest Mounted Police" première in Chicago, which brought 750,000 persons into the streets in a rainstorm. There'll be the usual glamor train full of stars and junketeers, and it is planned to invite the governors of Florida and South Carolina, in whose states much of the picture is laid. Put the event down for early fall.

Two Luncheons of Importance on Lists Today

[Continued from page 15, column 5.]

among them the veterans' doubles for players who had reached their 40th birthdays by Feb. 28.

First Child, a Son, Born to Junior Courtenay Barbers.

Mr. and Mrs. Courtenay Barber Jr. are receiving congratulations on the birth of their first child, a son, at St. Luke's hospital on Feb. 27. The young man has been named Courtenay III. Mrs. Barber is the former Ann M. Watson, daughter of Mr. and Mrs. Robert William Watson of Edgartown, Mass., and New York City. Mr. and Mrs. Barber of Chicago and Edgartown are the baby's paternal grandparents.

The annual benefit of the library committee of the Francis W. Parker School Parents' association will be held at 2:30 o'clock next Monday at the Chicago Historical society. Miss Juliet Barker will read "The Corn Is Green," the current Ethel Barrymore Broadway production, and Chauncey L. Griffith, director of music at the school, will give selections from Walt Disney's "Fantasia." Mrs. George Van Beuren is chairman of the benefit. Those pouring at the tea tables will be Mrs. Herbert E. Hyde, Mrs. M. Lee Alberts, Mrs. Herbert W. Smith, Miss Flora J. Cooke, Mrs. Edwin Embree, Miss Hazel Cornell, Miss Isabel Clayton, and Mrs. Arthur Albert.

Supporters of Christopher house, a Presbyterian settlement, are giving a benefit program on Friday, March 28, in the gymnasium of the Evanston Township High school. Mrs. Daniel L. Stormont is general chairman. Among her assistants are Mrs. Charles M. Hardin, Mrs. Clyde A. Horn, and Mrs. Howard D. Holloway.

Evanston Hospital Auxiliary Plans Benefit Lectures.

The Woman's auxiliary of the Evanston hospital is planning two benefit lectures to be given by Clifton Utley in Pattern Memorial hall. The first lecture will be given at 8 o'clock Wednesday, March 19, and the second on April 2. Mrs. William S. Stahl and Mrs. John M. Scott are in charge of arrangements.

The Women's Faculty club will meet at 1:30 o'clock today for a musical and tea in the home of Mrs. Philip Kreuscher, 219 Lake Shore drive. Assisting hostesses will be Mrs. Eugene Edwards and Mrs. George Gardner.

Le Cercle Français will hear a discussion by Georges Cauuet, director of the International theater, at their meeting at 3 o'clock this afternoon.

Because of the Fashion Group luncheon today, the second in a series of Tuesday amateur models contests at the Key club has been postponed to tomorrow. Among the postdebutantes who will model are Miss Kay Littlefield, Miss Virginia Ballard, Miss Byrd Littlefield, Miss Marion Munson, Miss Jane Stude, and Miss Katharine Lawrence. Mrs. Paul Poole received the most votes for the best model in the "young marrieds" contest two weeks ago.

Changing tires and tinkering with engines will be regular routine for members of the Red Cross Motor corps by the time they have completed a mechanics course which started recently at Fort Sheridan. Maj. Hamilton Ellis is teaching the course, which was made possible by Col. John L. Homer, commanding officer at Fort Sheridan. Classes are being held every Tuesday and Thursday afternoon thru March 20 in the Officers' club. Miss Harriet McLaughlin is captain of the corps, which has 47 members.

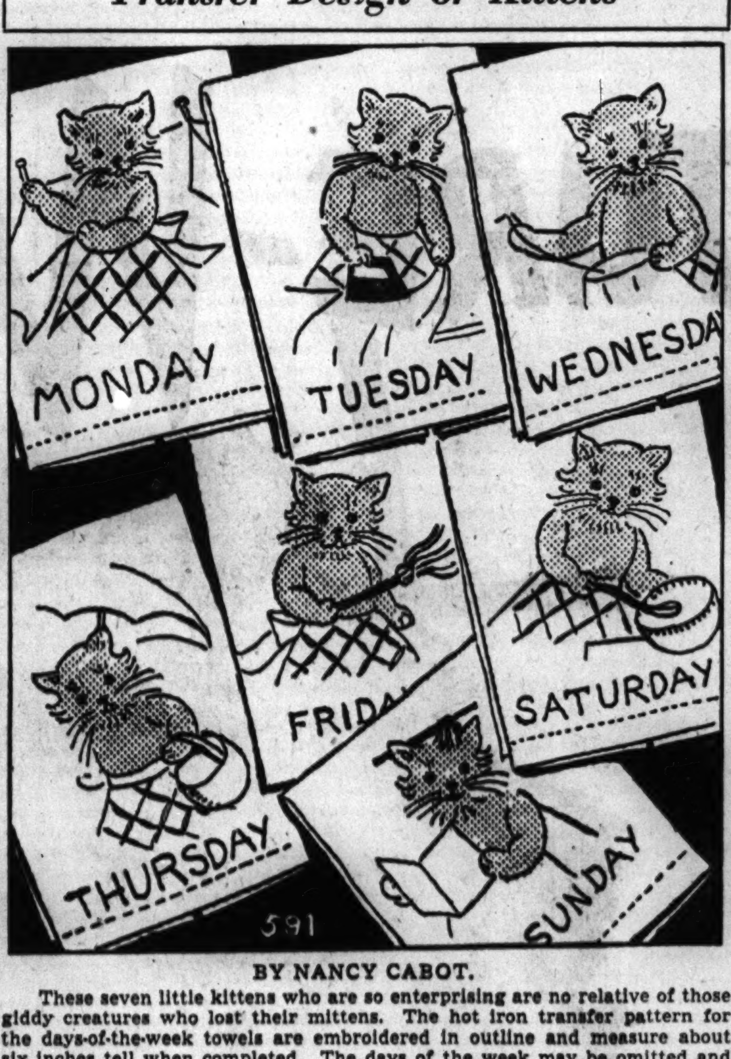
Transfer Design of Kittens



BY NANCY CABOT.

These seven little kittens who are so enterprising are no relative of those giddy creatures who lost their mittens. The hot iron transfer pattern for the days-of-the-week towels are embroidered in outline and measure about six inches tell when completed. The days of the week may be omitted and the kittens used for individual pictures, or for motifs for a child's crib or bed.

For the hot iron transfer of the kittens, No. 591, send 10 cents in stamps or coin to the Needlework Bureau, Chicago Tribune, 220 Fifth avenue, New York City.

According to CULBERTSON

[Copyright: 1941: By Ely Culbertson.]

Yesterday I explained that the one no trump bid used in the Culbertson system for many years, altho technically excellent, lost a large part of its value because opportunities for its use arose too rarely. An opening no trump has great value, quite aside from its offensive possibilities. In a sense, a no trump is a preëmptive bid, that is, it forces the opponents to do their overcalling, if any, at the two level and thereby puts them under a decided strain. Consider this typical bidding:

South	West	North	East
1 no trump	2 hearts	Double	

North has been able to double West's two heart overcall because he has an excellent picture of South's hand, particularly as to distribution. Had South opened the bidding with one club or one diamond, East would have been able to overcall with one heart, and even an opening spade bid from South would not have given North enough information to make a hairline double of two hearts. Thus, to make the opening no trump bid a more useful weapon, I have reduced the requirements for this bid. In the new Culbertson system these requirements are: *Three and one-half to four honor tricks with either 4-3-3-3 or 4-4-3-2 distribution.* Consider the following hands:

1. ♠AQ6 ♥K93 ♦9842 ♣AQ7
2. ♠K96 ♥AJ5 ♦Q962 ♣AJ3

These hands represent *minimum* one no trump bids in the new system. Both hands contain precisely three and one-half honor tricks. These tricks are obvious in hand 1, but in hand 2 I had better review a point that was brought out several weeks ago in connection with the new honor trick table. It will be noted that hand 2 contains six honor *cards*. When counting honor tricks for no trump bids [or for suit bids based on four card suits], the possession of *six or more honor cards* adds a plus value to the hand as a whole. This, of course, is simply a short cut by which we can give the proper weight to intermediate cards.

In the case of an opening no trump based on 4-4-3-2 distribution, it should be borne in mind that the doubleton must not be worthless, but must be headed by at least a king.

♠K6 ♥AJ4 ♦KJ63 ♣AJ74

This hand contains four honor tricks, counting these values: One-half in spades, one-plus in hearts, one-half-plus in diamonds, and one-plus in clubs, in addition to which a plus value is added to the hand for the seven honor cards it contains. Hence this is an example of the new upper limit no trump with 4-4-3-2 distribution.

The bidding:

South	West	North	East
1 spade	Pass	2 clubs	Pass
2 hearts	Pass	2 spades	Pass
4 spades	Pass	Pass	Pass

West opened the ace of clubs and, on seeing dummy's heart void, shifted to a trump.

South won in dummy and led a diamond to his ace. He cashed the ace of hearts, carefully discarding a club from dummy. Next he cross-ruffed two hearts and two diamonds, winding up in his own hand at the ninth trick.

At this stage West was reduced to three spades, a heart, and a diamond. Had he woodenly held on to the king of hearts, the lead of a heart by declarer would have made the contract safe. But West had foreseen just such a contingency and on the third lead of hearts had dropped the king.

Now when South led a fourth round of hearts East was able to win with the queen and return a club. Since West was in the position to over-ruff declarer, the contract was defeated.

Found! Smart Footgear That Conceals Toes

BY REA SEEGER.

There must be a small army of shoppers that crave news about street footgear with the toes covered. Only persnickity people and those who have definite ideas as to what constitutes flawless grooming know what it is to hunt madly for a smart pair of street pumps that have the required coverage.

We've found what is the best and most complete showing, and they are not corrective models either. There are good looking street pumps with a smart outline and high heels, other models with lower heels, and plenty of street shades from which to choose.

See the new combination of dull gabardine with patent leather if you would believe that some shoe designer has more than a passing regard for the faithful buyers of shoes that completely cover the feet. This combine is also available in navy and in brown as well as some beauties in snow white doeskin. These will go south now or wait for our hot weather.

The best part of these pumps is the new instep bow, a tricky affair of plastique that bends the way you want it to each time you wear the pumps.

Also in this shoe collection are many models of time tested opera pumps with medium or high heels. These come in kidskin, in soft, lovely suedes, and in gleaming patent leathers. Other good looking shoes for all sorts of costumes are plentiful and in a splendid color assortment and with several leather combinations. High heels, medium, and the walking heels assure the sleuthing shopper a wide assortment of these welcome toe covered models from which to select.

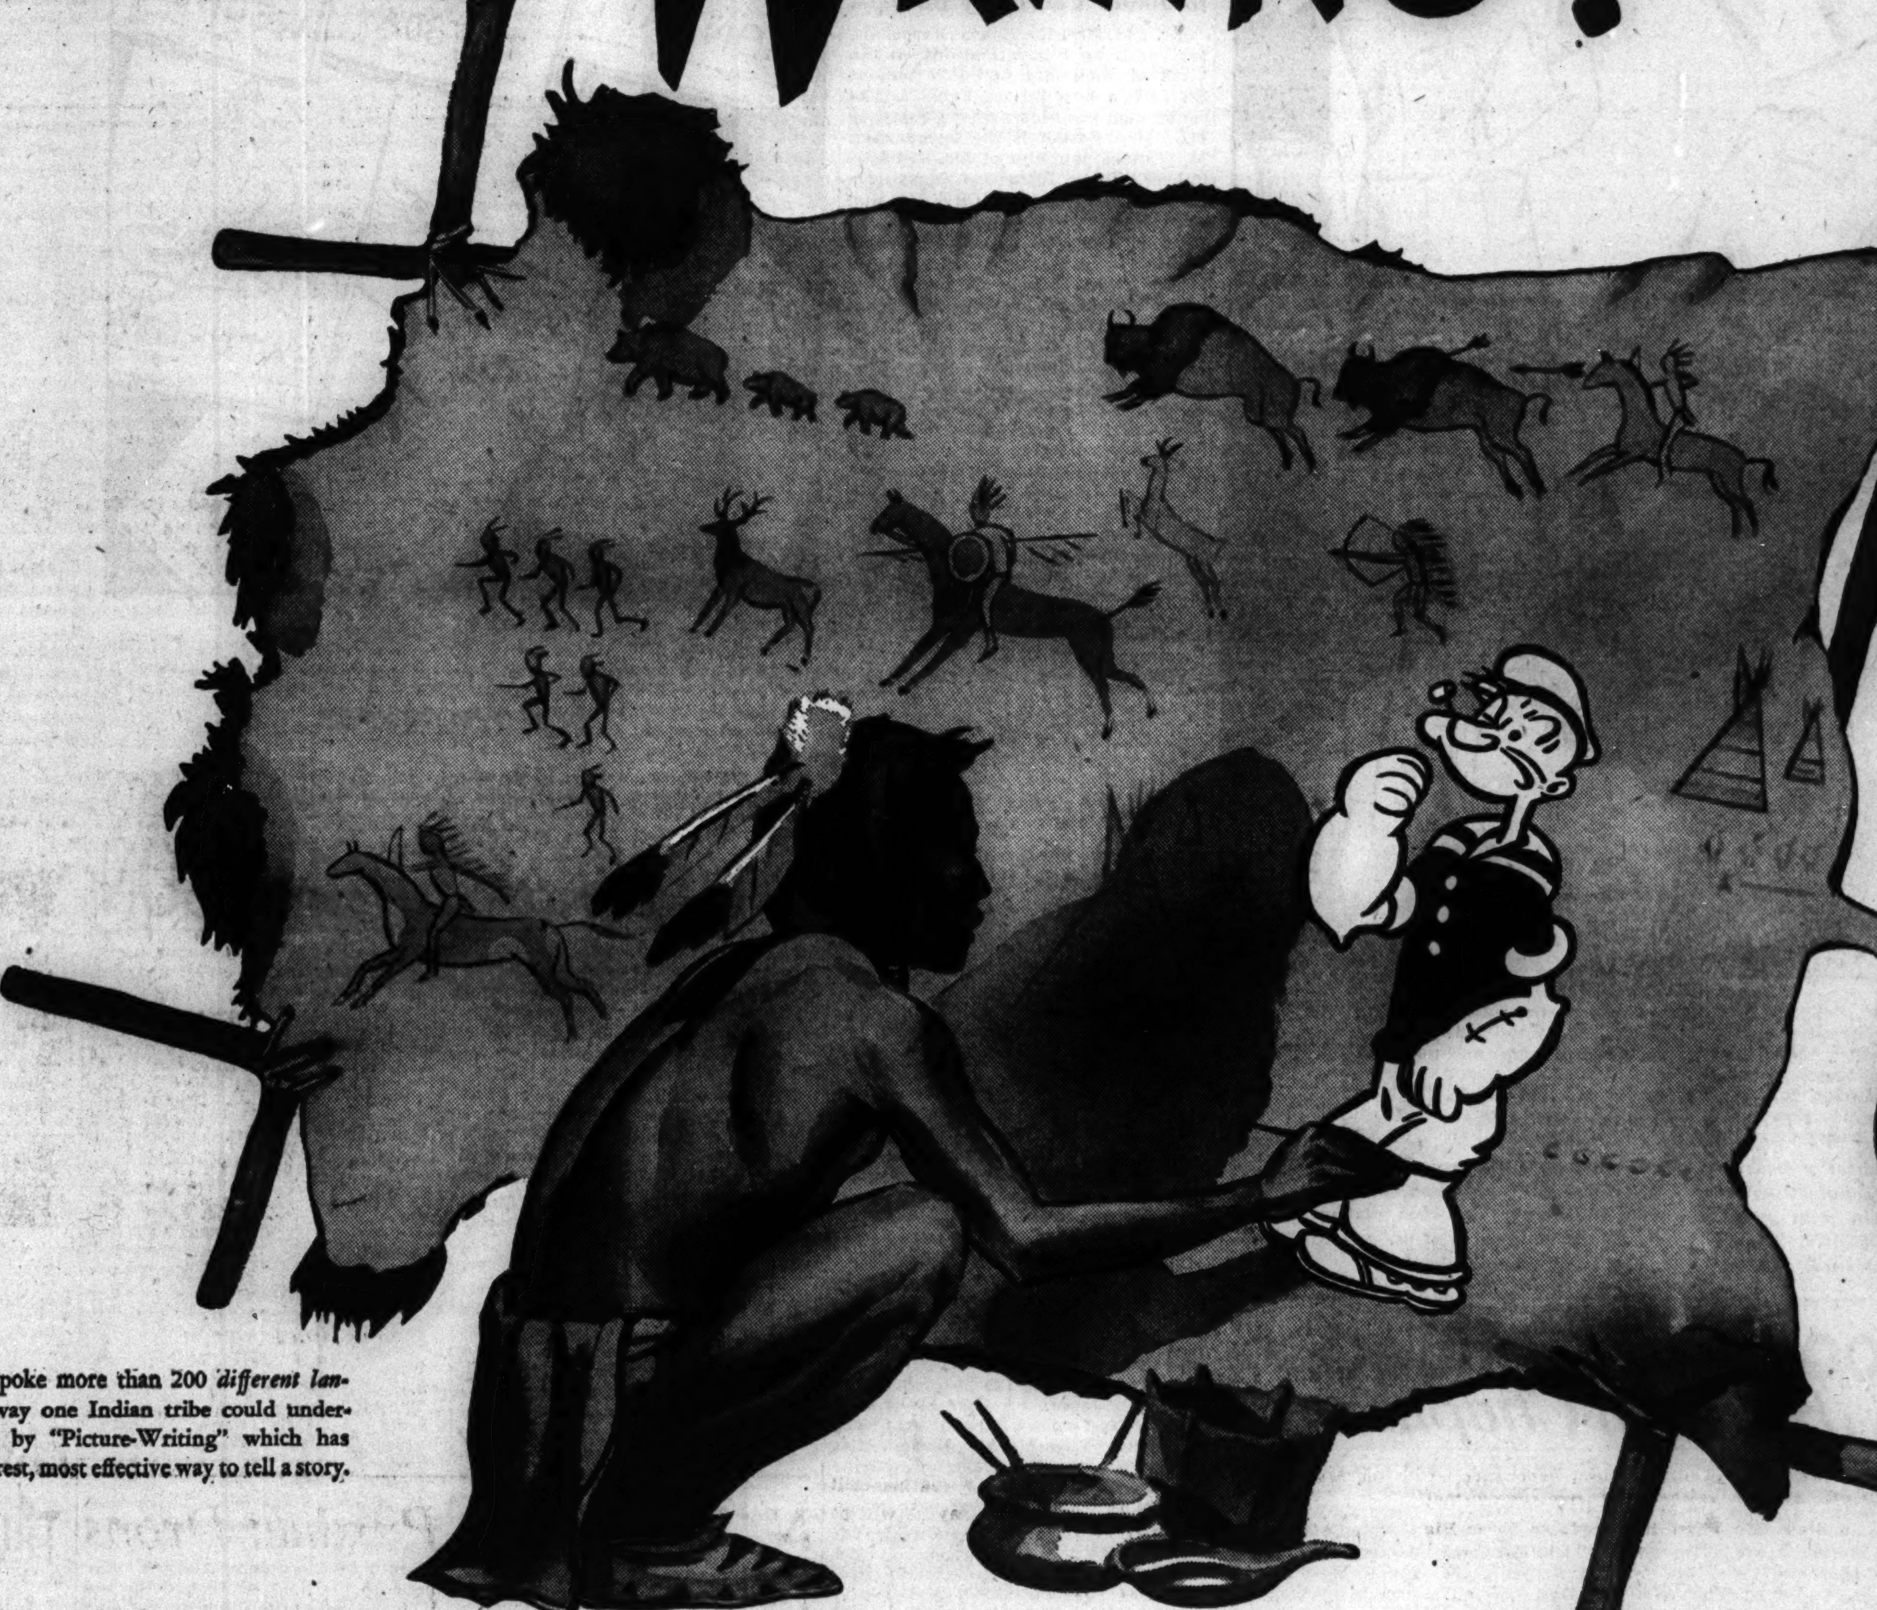
PICTURE-WRITING?



American Indians spoke more than 200 *different languages*. The only way one Indian tribe could understand another was by "Picture-Writing" which has always been the clearest, most effective way to tell a story.

Older than American Civilization...

and still the clearest way to tell a story

JUST AS the Indians in America... the Egyptians and the Babylonians in Ancient Africa and Asia used "Picture-Writing" to record the story of their civilization—so an American folklore has developed during the past 40 years in *Puck-The Comic Weekly.*

Puck speaks a universal language—easily understood and heartily enjoyed by *all.*

Most people think of Jiggs and Maggie, Blondie, Barney Google, Popeye and Flash Gordon as distinctly American—yet these familiar ***Puck*** characters are syndicated all over the world, in 85 countries and in 29 languages.

Because *Puck's* "picture-people" are loved so devotedly by rich and poor alike, by young and old, by highbrow and lowbrow—they have become the nucleus around which has been built the most powerful advertising medium ever offered.

Many of America's leading advertisers who cautiously felt their way in *Puck* back in '31 and '32—when *The Comic Weekly* was first made available to general advertisers—have increased their *Puck*-dollars consistently—year after year—until today, this great picture-writing publication is No. 1 on their "indispensable list."

One of these companies—biggest in its field—has invested nearly 3½ million dollars in *Puck* during the past 8 years; another more than 2 million. Such sums are not spent on *faith alone.*

Puck gets results. Daniel Starch figures prove that advertisements, printed in *Puck,* receive a GREATER READING at a LOWER COST than the SAME MESSAGES in other publications.

A fascinating new presentation entitled "Picture-Writing" gives all the data on the World's Best Seller quickly, concisely and entertainingly. To see it, phone COlumbus 5-2642, New York, or FRAnklin 0033, Chicago.

Puck Welcomes Its Newest Advertiser...The Mercury 8

Pioneering an entirely new and fresh approach in automobile copy, Mercury 8 has started a series of advertisements. The first one appeared in *Puck-The Comic Weekly* March 2. *Puck* offers Mercury 8 these important advantages:

1. *Puck* reaches BUYING POWER far above the national average.
2. The purchase of an automobile is a decision in which the WHOLE FAMILY plays a part, and *Puck's* tremendous grip on 5,550,000 WHOLE FAMILIES has been *definitely established.*
3. An advertisement in *Puck* gets not only *more space* but *more reader circulation per dollar* than in other publications.

THREE TEXANS GO GUNNING FOR GOLDEN GLOVES

They'll Fire Both Barrels Friday.

BY HOWARD BARRY.

Morris Corona.

Jesse Gonzalez.

Texas, which carried off one of the Golden Gloves championships last year, is going to make a powerful bid for three titles this time in the semi-finals and finals which will be fought Friday night in the Stadium. Dick Menchaca, Morris Corona, and Jesse Gonzalez are the youngsters whom the Fort Worth center has landed among the 32 tournament survivors.

Menchaca, who won the bantamweight crown last season, hopes to join that small and select list of fighters who have come back to repeat Golden Gloves triumphs. In the course of the tournament, which began in 1928, only six fighters have taken more than one title. Leo Rodak heads the group with three. Jimmy Chase, Tony Ancona, Fred Caserio, Frank Kainrath, and Cornelius Young each took two.

Corona Came Close.

Corona came very close to winning a championship last season, only to be turned back in the final in a historic bout with Savior Canadeo, who went on to become captain of the intercity team and a star of the international matches.

Gonzalez is a newcomer to Golden Gloves competition, but he already has distinguished himself by his hitting power and his fighting spirit.

Menchaca battered his way to the 1940 title by beating James Joyce of Gary in a spectacular final bout. And now another one of the Joyce brothers—Eugene—is in there ready to challenge Menchaca's bid for another crown. At the start of the tournament, Eugene said he hoped he'd run into Menchaca sooner or later. The continued success of both boys is bringing a meeting closer and closer. Eugene has displayed the clever boxing style that earned his brother so many victories last season and which carried another brother, Willie, to the 1937 featherweight crown.

Then There's Brown.

There's a powerful threat besides Joyce, however, which Menchaca has to worry about. That's Chicago's Ray Brown. This C. Y. O. fighter, a veteran of last year's tournament, has improved tremendously in the last few months. His timing is so good that he gets much more power into his punches than bantamweights usually do. Repeatedly he has stuck out his left or thrown a right with so little apparent effort that the crowd didn't expect his opponent to be even jolted. And yet the adversary would drop as tho he'd been hit with a club.

The Texas flyweight, Gonzalez, is up against another tough proposition in his title quest. Chicago's Harold Dade is defending the championship in that class and by the way he's been going he has established himself as a tremendously strong favorite to repeat. The youngster from Texas is facing a Jack-the-Giant-Killer task in attempting to take the championship away from a fighter with the class and experience of Dade.

Corona's welterweight division is one of the two in which Chicago has no representation. The Texas boy has to contend with George Horne of Cleveland, Bob Burns of Fort Wayne, and William Johnson of Streator.

Texans Are Schoolmates.

Two members of the Texas teams, Menchaca and Gonzalez, are schoolmates at Allen academy, which is located at Bryan, Tex., about 100 miles northwest of Houston. Both of them have their homes in Houston, Gonzalez having been born in that city. Menchaca was born in Mexico. He is 18 years old and his teammate a year younger.

Corona lives in Port Arthur, away

In the Wake of the News

BY ARCH WARD.

EDDIE JACQUIN of Champaign, Ill., veteran basketball official, submits the following as the finest example of sportsmanship he has seen in many years: State Normal and Macomb were tied as Capt. Ed Willard of Macomb attempted a basket. . . . He was fouled on the play and the officials were not sure if the shot went thru the hoop. . . . While they were discussing it, Capt. Willard stepped up and remarked: "If you're wondering whether I made a basket or not, I can help you. I missed it." . . . Walter Hagen believes women would play better golf if they confined their tournaments to medal competition. . . . In match play, says Walter, they worry too much about what their opponents are doing. . . . The Southeastern Baseball league will admit soldiers and sailors to 1941 games for 25 cents. . . . The three Collins brothers of Detroit are regulars on as many basketball teams. . . . Bill plays at Wayne university, Bob at Lawrence Tech, and John at Visitation High school in Detroit. . . . Cleveland baseball writers are cheered by the fact that the Indians have the best relief pitchers in the American league in Joe Heving and Clint Brown. . . . With such first line sharpshooters as Bob Feller, Al Smith, and Al Milnar, replacements would seem like a minor item in this department's opinion. . . . Capt. George Wenskus of the Loyola [Chicago] basketball team has missed only 12 free throws in 54 attempts this season. . . . For the first time since the Michigan-Illinois track series began in 1920 the Illini and Wolverines will not meet this season. . . . A campaign already has been started in Colorado to land Johnny McGee, Regis college end, on the Chicago Tribune's All-Star football squad this fall. . . . John P. Sabo, former University of Illinois football and basketball player, will leave his home in Winnetka within a few days to join the Yale coaching staff for spring practice. . . .

Don Lambeau, who hopes to play full back for his father's Green Bay Packers some day, has enlisted in the army air corps. . . . Charles McCaffree Jr., Iowa State swimming coach who once swam for Matt Mann at Michigan, must have learned a lot from the old master. . . . In three seasons with State, McCaffree has produced three Big Six conference championship teams. . . . Ray and Rob Hutson, twin brothers of the Green Bay Packers' Don, are back field candidates at the University of Alabama. . . . Ray is a left half back and Rob plays right. . . . Catcher Cliff Dapper is heralded as probable successor to Lou Novikoff as batting champion of the Pacific Coast league. . . . Cliff, as you might suspect of a man named Dapper, is with Hollywood.

LIST NOVIKOFF AS A REGULAR IN CUBS' 1ST GAME

Lou Gets Left Field Post—if Sea Doesn't Get Him.

BY EDWARD BURNS.
[Chicago Tribune Press Service.]

Avalon, Cal., March 3.—Lou Novikoff, the beeg Russian boy who returned to the mainland yesterday after consenting to terminate his widely publicized holdout program, is not to be pampered by Manager Jimmy Wilson anent the Catalina exercise he missed while making speeches about the Cubs offering him "peanuts" in lieu of what he considered adequate remuneration for 1941.

Lou will go thru the routine drill tomorrow and Wednesday he will be in left field for the regulars in the first of the intraclub games.

Going right into actual play after only one day of calisthenic didoes is not expected to work any great hardship on Novikoff. He has been working, really, in an oil field, and is a physical culturist besides, what with his strip tease act in which he makes his muscles undulate like ripples on a sylvan pool.

Ocean Acts Up a Bit.

Lou has been ordered to return to this island on tomorrow's morning plane. But high seas are running today and the amphibians didn't fly —maybe won't tomorrow. If there is the same kind of ocean tomorrow Novikoff will have to come over on the noon boat, which, in view of the way those waves are pitching today, may be something of a deterrent to his getting out to frisk on the practice field immediately upon his arrival.

With all the "Mad Russian" talk, Novikoff was never aboard a steamboat until he came over here yesterday. Lou's parents, born in Russia, have done all the family's boat riding. And he never has zoomed in a flying machine.

Today being an off day awarded the Cubs for excellent bearing down, Manager Wilson and his coaches, Charley Grimm and Dick Spalding, devoted the day to golf. But . . . before they went on the links they got together and mapped their lineups for that intraclub inaugural Wednesday.

Squad in Good Shape.

Larry French was in Los Angeles today, at the bedside of his son, Lawrence Jr., who underwent an appendectomy this morning. He expects to be back in time for tomorrow's drill.

Dr. Andy Lotshaw says he never had a Cub squad in such fine shape at the conclusion of the sore muscle phase of spring training—the first half dozen days. The last weigh-ins have shown four of the lads above the 200 mark, with Todd topping the heft boys at 221. The fact that Todd has been selected as a starting catcher in the first intraclub game, however, reveals that Skipper Wilson is ready to help Al get in shape. Wednesday's lineup:

CATHOLIC U. TO DE-EMPHASIZE; 2 COACHES RESIGN

Washington, D. C., March 3 (AP).—Resignation of football and basketball coaches led to the disclosure today that Catholic university has decided to de-emphasize athletics.

A. J. [Dutch] Bergman, director of athletics and head football coach, and Forrest G. [Fod] Cotton, head basketball and assistant football coach, last night announced their resignations, effective June 1, when their contracts expire.

Bergman explained they acted "because a drastic change is to be made in the athletic policies" of the university. He added that he was interested in the Boston college job vacated by Frank Leahy, newly appointed football coach at Notre Dame, succeeding Elmer Layden.

Hey, Skinnay, Lookit! Fishin' (?) in the Loop!

"Doubt not," said Izaak Walton, "but angling will prove to be so pleasant that it will prove to be, like virtue, a reward to itself." "O, yeah?" say W. J. Butler, Margaret Weaver, and W. R. Collins, winners in the Tribune's annual casting tournament, who attempted to catch a trout dinner out of the Hamilton hotel swimming pool last night and couldn't even hook an old boot. [TRIBUNE Photos.]

"No man can lose what he never had," added Izaak Walton, and Frank R. Steel of Wilmette, another Tribune casting winner, says "Amen." He didn't catch anything, either.

N. U. Loses to Purdue; Drops to 9th Place as Iowa Wins

Lafayette, Ind., March 3 [Special]. —Purdue pulled up to a .500 rating in 1941 Big Ten basketball as it defeated Northwestern here tonight, 38 to 20, in the season's final for both teams.

The result gave the Boilermakers a record of six victories and six defeats, the poorest conference record for Purdue for 22 years. It was the ninth defeat in 12 Big Ten games for the Wildcats, who finished ninth in the standings.

The game was somewhat of a mêlée both teams kicking the ball around considerably and taking turns making carom shots off each other. Forrest Sprowl of Purdue led the scoring with 13 points.

Northwestern took an early lead, but after Purdue went in front, 8 to 6, the Boilermakers never were behind. They boosted the margin to 16 to 10 at the intermission. Northwestern failed to threaten in the last half. Lineup:

DAILY MAROON URGES SHOWDOWN ON PROSELYTING

Charging that when the University of Chicago withdrew from intercollegiate football, President Robert M. Hutchins and the university's board of trustees "performed an act of cowardice," the Daily Maroon, Midway student newspaper, urged in an editorial yesterday that Chicago remain actively in Big Ten basketball.

Chicago should make "competitors of our own caliber available," the editorial asserted, not by abolishing the game or "subsidizing players as our competitors do," but by preferring charges against fellow schools and provoking a thoro investigation of their athletic activities. This investigation, the Daily Maroon explained, "should not be of the kind undertaken in the past.

"Its purpose should not be to whitewash the record of all the schools, but to attempt to get rid of the subsidization which students, many alumni, and most of the interested public realize exists in schools in the Big Ten."

The editorial was the result of recent speculations regarding the statement by President Hutchins last week that "if Chicago's basketball defeats are interfering with the happiness of students or the welfare of the university," Chicago might lighten its basketball schedules.

8 Overtimes—8; but Soccer Game Ends in Tie, 1 to 1

St. Louis, Mo., March 3 (AP).—Two municipal league soccer teams, the Raftery-Eagans and Old Timers, played a scoreless tie.

So they continued with an eight minute overtime period. Still no one scored. They played another. In the third overtime both teams made a point, necessitating still another overtime . . . and another.

After eight overtime periods the score was still tied—so they called it quits. Final score: 1 to 1.

FISHERMEN EYE TROUT AND TROUT EYE FISHERMEN

BY BOB BECKER.

Twenty-five expert fishermen fished in a swimming pool last night. That's all. Just fished.

While a hundred hungry rainbow trout, including some two pounders, released in the Hamilton hotel pool, eyed the scene with magnificent indifference, the fishermen, all winners in the Tribune's annual casting tournament, angled for their dinner.

Man's Ingenuity Triumphs.

They fished and they fished—with the hungry trout right under their noses. They used dry flies and wet flies, bivisibles and spinners, bluegill baits and muskie baits. For an hour the trout, which hadn't been fed since last Friday, were tempted with every conceivable lure.

But not a fish was hooked. All the anglers had started for the corner hamburger counter when Hotel Manager Harry Rahner sent a squadron of divers into the tank with a seine.

Butler Explains Everything.

William J. Butler, chief engineer of the Shedd aquarium, was one of the disappointed anglers. He said the trout, which had been brought from the pools of the Fin and Feather club at Elgin, were frightened by the lights, the lack of natural cover, and the noises around the pool. They were not one bit frightened by the fishermen, tho, he mused.

But the evening ended well for all —except the trout. Once seined, they were broiled and served.

Fight Decisions

At Marigold Gardens—Nate Bolden beat Billy Pryor [10]; Ramey McKnight beat Tito Taylor [5]; Speedy Schaefer beat George Feltes [4].

At Philadelphia, Pa. — Bob Montgomery stopped George Zengaras [3]; Ray Robinson knocked out Jimmy Tygh [8]; Marty Servo stopped Billy Bullock [3].

BY CHARLES BARTLETT.

Joe Stampf.

Indiana's Hoosiers and Chicago's Maroons played a basketball game last night in the Midway fieldhouse, but the crowd of 2,800 came to see only one of the several young men galloping up and down the floor. He was bespectacled, 6 feet 4 inch Joe Stampf, captain of the Maroons.

Of course, Indiana won the ball game, 49 to 33, but more important to his gratified constituents, Joseph scored 12 points to win the individual scoring championship of this Western conference campaign which ended last night. Those 12 points gave Stampf a season aggregate of 166 points, four more than the total made by Gene Englund of Wisconsin's champions.

Maroons Lead—For a While.

And, as if to celebrate Joe's personal success, the Maroons made a better ball game out of it than the score would indicate. They even went so far as to take a 12 to 8 lead over the conference runnersup after 10 minutes of the first half, holding the advantage thru the 14th minute of play when the Hoosiers went on to a 20 to 15 advantage.

In the second half, Johnny Logan, who had come in for Indiana late in the first period, got to running all over the place, eventually leading all scorers with 17 points.

Thus while the Maroons again wound up in the conference basement, with nary a victory in 12 games, they did have the satisfaction of producing the scoring soloist of the season in Stampf. Between halves Coach Nels Norgren of the Maroons presented Joe with a gold cup, the gift of the entire Chicago student body.

Stampf, Bill Menke Honored.

After the game Joe was the unanimous choice of his associates as the Maroon candidate for W-G-N's most valuable player trophy. Indiana chose Bill Menke in a dressing room meeting.

Stampf's progress to the championship was much more dramatic than might be suspected, for it was not until the 32d minute of play that he clinched it. Going into the game eight points behind Englund, Joe scored only three free throws in the first half in seven attempts. He was obviously tightened up by the situation, not to mention the two-man patrol Indiana placed fore and aft him. The second half was a different tale, for Joe conhected for his three baskets and hit on three out of four penalty tosses.

Joe Finishes with a Rush.

With 14 minutes remaining, the Maroon star made his first field goal, a clean corner effort, and from there on was more himself. He finally

BOLDEN GIVES PRYOR 10 ROUND BOXING LESSON

Nate Wins Easily After Being Knocked Down.

Nate Bolden, 1937 Intercity Golden Gloves middleweight winner, won a unanimous 10 round decision over Billy Pryor of Boise, Idaho, in Marigold Gardens last night. After scoring a one count knockdown in the second round Pryor was handed a boxing lesson. Nate, who weighed 158 pounds, six and a half less than Pryor, sent his aggressive, rugged opponent to the canvas twice for nine counts, in the fifth and final rounds.

Ramey McKnight, promising welterweight prospect of Milwaukee, pounded out a decision over Tito Taylor in the five round semi-windup.

Winners of four round contests were Speedy Schaefer, middleweight; Wayne Fidler, lightweight, and Johnny Rozina, welterweight. Schaefer beat George Feltes, Fidler conquered Jerry Pitro, and Rozina defeated Johnny Williams. Feltes is on a furlough from duty as a member of the 32d United States naval reserve division of Wisconsin.

Despite the blizzard, 909 fans attended. Gross receipts were $975.

Joe Ghnouly, St. Louis lightweight, last night stopped Gene Spencer, South Chicago, in the seventh round of the feature bout of the boxing program in Hammond Civic center. The bout was halted after Spencer suffered a cut near his left eye. Bill Parsons won from George Dixon in the six round semi-final match. Other results:

Bill Petersen knocked out Lloyd Abrams [1].
Mike Sopko knocked out Bob Dalya [4].
Anthony Jones beat Johnny Rhodes [4].
Kit Carson knocked out Harry Oler [3].

HARLEY PARKER, ONCE PITCHER FOR CUBS, DIES AT 66

Dr. Harley Parker, a nerve specialist with offices at 31 North State street, and a former pitcher for the Cubs and Cincinnati, died yesterday in the North Chicago hospital. He was 66 years old.

Dr. Parker played baseball for the Chicago team managed by Cap Anson, and later with the Reds at the turn of the century. His brother, the late Jay Parker, also played with the Cubs. Dr. Parker also was a prominent billiard instructor. Among his pupils was Welker Cochran, present holder of the balkline title.

He was born in Theresa, N. Y., and had resided in Chicago most of his life. He is survived by his widow, Rose, and two daughters, Miss Bernadotte and Mrs. John J. Phelan. Funeral services will be held at 11 o'clock Thursday morning in the chapel at 6216 North Clark street. Burial will be in All Saints cemetery.

TEACHERS BEAT OMAHA, 38-31, IN SEASON'S FINAL

The Chicago Teachers college concluded its third season of intercollegiate basketball competition last night by defeating Omaha university, 38 to 31, on the Teachers' court. It was their 13th victory in 24 games.

WISCONSIN NAMES ENGLUND MOST VALUABLE PLAYER

Gene Englund, star center on Wisconsin's Western Conference championship basketball team, yesterday was named by his teammates as the most valuable player to the quintet and thus became a candidate for the W-G-N Most Valuable trophy.

Englund is the fourth player to be named on the honor roll. The first was Bob Richmond, Illinois senior guard, who was picked by his teammates last Saturday night. The others are Joe Stampf of Chicago and Bill Menke of Indiana, both chosen after last night's Chicago-Indiana game.

16 WIN IN NEW YORK

New York, March 3 (AP).—In a fist swinging jamboree marked by six knockouts, 16 Golden Gloves champions were crowned in Madison Square Garden tonight in the finals of the Daily News Golden Gloves tournament before 17,207.

Winners in the open division tonight qualified for the Golden Gloves Tournament of Champions in which teams from other eastern cities will compete Monday, Tuesday, and Wednesday. From that tourney an all-star eastern team will be selected to oppose midwestern Golden Gloves champions chosen in the Chicago Tribune tourney in Chicago March 26.

Puerto Rican Stars.

Most impressive winners were Diogenes Leon, a Puerto Rican who makes himself understood with his fists, altho he can't talk English; Eddie Saunders, a 147 pounder, and Charles Davis, 126 pounder.

Leon, fighting in the 112 pound open class, knocked out Victor Creelman in 1:10 of the first round. Saunders floored Anthony Deroz in the first round, then knocked him out in 25 seconds of the second. Davis knocked out Salvatore Tornabene in 2:40 of the first round.

Dudley Watson scored the other open class knockout, stopping Jack Jackson in 2:25 of the second round of the 160 pound bout. The referee called a halt because of a cut over Jackson's eye.

Francis, Former All-Star Back, Is Ordered to Camp

Omaha, Neb., March 3 (AP).—Second Lieutenant Harrison S. [Sam] Francis, former University of Nebraska and Chicago Tribune All-Star full back, was ordered to a year's active duty by the 7th corps area today.

Francis, now studying at the University of Iowa, was ordered to report at Fort Francis E. Warren, Wyo., on March 14. He is an infantryman.

YANKEES DECIDE TO PUT GORDON ON FIRST BASE

Daring Experiment Forced by Rizzuto, Priddy.

St. Petersburg, Fla., March 3 [Special].—Comfortably parked in a lobby easy chair New York Yankees' Manager Joe McCarthy restlessly tapped his straw hat with his fingers this afternoon and officially announced what sports writers have been guessing all week: "Joe Gordon will be the Yankee first baseman until he proves he is unable to play the bag."

Called Greatest Experiment.

Thus was launched probably the greatest experiment of the coming major league season, the attempted conversion of one of the game's best second basemen into a first baseman.

McCarthy made the announcement at the first formal press conference he has held in years and shortly after a talk with Gordon, who signed his contract in time for the midday drill.

Rookies Win Jobs.

"I've had this shift in mind for some time," Joe explained. "The Yanks need more punch in the lineup and I think the new infield combination will give it to us."

The decision makes it plain that the star rookie keystone duet, Phil Rizzuto and Jerry Priddy, from Kansas City, will start the season intact unless one or the other shows a vital flaw during the exhibition schedule.

WILLIAMS GIVES IN.

Sarasota, Fla., March 3 (AP).—Ted Williams, last of the Boston Red Sox to come into the fold, agreed to accept the terms of his 1941 contract today. Manager Joe Cronin said he had been informed by telephone that the long range hitter had left Minneapolis for the training camp by automobile.

MAY OPERATE ON JURGES.

Miami, Fla., March 3 [Special].—Shortstop Bill Jurges was ordered to return to New York today by Manager Bill Terry of the Giants where he may undergo a nerve operation that would leave him totally deaf in the left ear. Jurges, beaned last summer by Pitcher Buckey Walters of the Reds, was still nervous and bewildered today from the attack of dizziness and nausea which struck him down during the week-end series with the Dodgers in Havana.

BOILS FLOOR OWEN.

HAVANA, March 3 (AP).—The Brooklyn Dodgers returned to practice today after their week-end series with the Giants and devoted most of the session to a batting drill. Mickey Owen, who signed his contract Sunday, took little part in the workout because he is afflicted by boils under his right arm.

CARDS SIGN SHOUN.

St. Petersburg, Fla., March 3 (AP).—The St. Louis Cardinals' holdout list of five was reduced by one tonight—Pitcher Clyde Shoun signed his contract. The left-hander drove into camp from his Tennessee home and conferred twice with President Sam Breadon before agreeing to terms.

Still unsigned are First Baseman Johnny Mize, Catcher Don Padgett, Infielder Martin Marion, and Pitcher Hy Vandenberg.

ALL BROWNS SIGNED.

San Antonio, Tex., March 3 (AP).—The Browns, for all practical purposes, are one big happy family now on the matter of signed players. Roy Cullenbine affixed his name to a contract today, ending the club's holdout problems.

PIRATE REGULARS WIN.

San Bernardino, Cal., March 3 (AP).—A four run rally which was exploded after two were out in the second inning gave the Pittsburgh Pirates regulars a 4 to 3 victory over the Yannigans in their first practice game of the season today.

HARRIS NAMES PITCHERS.

Orlando, Fla., March 3 (AP).—Manager Bucky Harris about made up his mind today on his pitchers for the Washington Senators' game with the Cincinnati Reds at Tampa on Sunday. He picked young Walter Masterson to pitch the first three innings; Sam Cunningham, who played with Charlotte, N. C., in the minors last year, to handle the next few frames, and either Joe Beck or Alex Zukowski, recruits, to finish out.

St. Patrick Five Gains Tourney Quarter-Finals

St. Patrick of South Chicago last night advanced to the quater-finals of the Queen of Angels' basketball tournament by defeating the Paragon Ahtletic club, 37 to 31, in the Guild hall, 4412 North Western avenue. The R. V. Graham-Shryons won from St. Columbanus, 18 to 15, and the 47th Ward Democrats triumphed over Holy Rosary, 30 to 26, in two other second round games.

Hawks and Bruins End Rivalry in Boston Tonight

After the Blackhawks and Bruins skate off the ice in Boston tonight they will see no more of each other until next season, unless they meet at some stage of the Stanley Cup playoffs, which begin Thursday, March 20.

The Hawks lost a game, uphill struggle to the Bruins in the Stadium Sunday night, 4 to 3, and tonight will be trying to gain an even break for the season with the Stanley Cup champions. Boston has beaten Chicago three times, while losing twice. The other two games have ended in ties.

Two Blackhawks were left behind because of injuries. Art Wiebe has a strained ligament in his groin and Bill Carse is still suffering from the effects of a skate cut on his leg.

Boston, with six remaining games, is tied with Toronto, which also has half a dozen contests remaining. The loss of Syl Apps for all the remaining games is a severe blow to Toronto, and gives Boston an edge in the battle for the league lead.

DYKES DROPS HIS SUNNY WAYS AND CRACKS THE WHIP

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

Pasadena, Cal., March 3.—James Dykes, usually the mild mannered professor when his White Sox spring school is in session, converted himself into a Simon Legree today and his pupils had no trouble noticing the change. The manager donned a baseball jacket promptly at 10 a. m., and for almost three hours kept things humming, either by issuing and enforcing orders or picking out certain individuals for one kind of work or another.

The class, fully assembled for the first time except for Eddie [Lefty] Smith, who is continuing his indoor warfare against a severe cold, didn't seem to object to the professor's sudden inclination toward strenuous chores. After two days of almost complete idleness, one because of the unusual weather, the pupils appeared to be in the mood to keep busy. If that wasn't the reason it must have been a cool breeze, which despite sunshine, made itself felt unless the fellows kept on the move. Then, of course, there was Dykes, who regardless of weather, was demanding more than he usually asks.

Haynes Bears Down.

During the batting drill, featured by the helplessness of Joe Kuhel and Mike Kreevich who were swinging a bat for the first time since they helped polish off the Cubs last fall, a large share of the throwing was done by Joe Haynes, purchased conditionally from Washington, and Johnny Humphries, for whom Clint Brown was handed to Cleveland.

Altho he has been training for only a week, Haynes threw as if he weren't giving any thought to the arm which went dead on him last year. If Trainer Ad Schacht's treatments have done this much in limited time there is reason to suspect the youngster might be able to make use of the skill that once made him an outstanding prospect. Humphries also was throwing in earnest, altho his trouble at Cleveland wasn't so much with his arm as the way he was handled.

Sox to Keep 9 Pitchers.

Both Humphries and Haynes afford experiments such as Dykes delights in attempting, frequently with success, and he might get results from at least one or the other. However, the two newcomers aren't going to find their course simple.

After May 15, the date on which squads must be reduced to 25, Dykes thinks he'll have room for only nine pitchers of the 16 now assembled. When you figure Ted Lyons, Pete Appleton, Bill Dietrich, Thornton Lee, John Rigney, and Eddie Smith as fixtures, there isn't much room remaining. In addition, consideration might be given the possibilities of either Orval Grove or Jack Hallett.

One man who drew Dykes' attention today was Chester Hajduk, a Chicago youth who played for the Sox farm club at Lubbock, Tex., last season. Chester is listed as a first baseman but also plays the outfield. Dykes started him off today in the infield and Kuhel stood around to furnish pointers. The freshman gave proof that he knew more about fly chasing.

Dykes Orders Some Running.

However, the Chicago boy's first basing exercises probably will be continued, not with the thought he is going to supplant Kuhel immediately but that with more minor league experience at the position he might prove handy for the Sox a few seasons hence.

Another thing Dykes deemed worthy of his authority was running, the bane of existence for many ball players. After a week of quiet observation he finally figured out his victims. One of them was Pitcher Hallett, a giant of a lad who with one stride covers more ground than the average fellow can pass in two steps.

Five Loyola Seniors Play Final Tonight

College Basketball

GAMES TONIGHT.

Grinnell at Loyola
De Paul at Bradley.
Macomb at Carbondale.
Lawrence at Carroll.
Drake at Washburn.
Loras at Luther.
Oklahoma A. and M. at Tulsa.
Princeton at Columbia.

Five Loyola seniors will complete their intercollegiate careers tonight when the Ramblers meet Grinnell college in the Loyola gymnasium in the season's final game. They are Capt. George Wenskus, Vinny Graham, Ed Schell, Danny Cahill, and Ed Lee.

Coach Lennie Sachs may forsake the Loyola custom of starting seniors in the final game since Grinnell had been undefeated in eight games until beaten last night at Ripon, 42 to 39.

Wenskus, Graham and Schell complete three years of service which has found them members of the undefeated team of 1938-'39, last year's hard luck squad which dropped 14 of 19 games, eight of them by five points or less, and of this year's team whose record is 12 victories and 8 losses, seven of the defeats within the five point margin.

Grinnell, winner in 12 of its first 16 games, has one of the best teams in its history, including Paul Patterson, its leading scorer, and four seniors. These are Gene Peisner, a graduate of Blue Island [Ill.] High school, Jerry Fort, Stan Zahller, and Dick Adkins.

An interclass preliminary game will start at 6:45, with the varsity game beginning at 8 p. m.

WISCONSIN GETS PLAYOFF BERTH IN TITLE MEET

Wisconsin, winner of the Big Ten basketball championship, was selected yesterday to represent the 4th district, comprising seven middle western states, in the eastern playoffs for the N. C. A. A. championship. Selection of the Badgers was announced by K. L. Wilson, athletic director at Northwestern university and chairman of the N. C. A. A. selection committee for the 4th district. Other members of the committee are George Keogan, Notre Dame; William Chandler, Marquette, and Tony Hinkle, Butler.

At the same time Madison was selected as the site of the eastern playoffs, March 21 and 22, by Coach Harold Olsen of Ohio State, chairman of the N. C. A. A. basketball committee. The four districts which will be represented at Madison include the area east of the Mississippi river.

Box Scores that tell Baseball's History

[This is the 21st of a series of baseball's most famous box scores. All are milestones in the history of the national pastime.]

The Cubs clinched their fourth pennant in five years under Frank Chance when they defeated the Cincinnati Reds, 8 to 4, in Redland field, Cincinnati, on Oct. 2, 1910. The Cubs finished with 104 victories and 50 defeats for a percentage of .675, giving them a margin of 13 games over the second place New York Giants. In 1909, the Cubs won 104 and lost 49 for a percentage of .680, but finished second to Pittsburgh. In their first five years under Chance, the Cubs won 530 games and lost 235 for a percentage of .693.

In the world series of 1910, the Cubs were routed, four games to one, by Connie Mack's Philadelphia Athletics, who had just won the first of four pennants in the next five years. The Cubs were forced to play without the services of Johnny Evers, who had received a broken leg shortly before the game against the Reds in which the pennant was clinched. Box score:

Detroit, Mich., March 3 (AP).—Paul Kromer, University of Michigan football half back, prefers the United States navy air corps to pro football. He passed his physical examination at the Grosse Ile training base today.

Name Boland Assistant to Mal Elward

Lafayette, Ind., March 3 [Special].—Joe Boland, whose appointment as assistant to Mal Elward, Purdue football coach and athletic director, was announced this morning, arrived here this afternoon. Boland, line coach at Notre Dame during Elmer Layden's seven year régime, will begin his new duties tomorrow when the Boilermakers open spring football training. A squad of 100 is anticipated.

Elward and other members of the Purdue athletic staff, as well as the players, were elated over the acquisition of Boland. He resigned at Notre Dame recently after Layden was named commissioner of professional football.

Boland was an outstanding tackle on the Notre Dame elevens of 1924, 1925, and 1926. As a member of the 1924 Four Horsemen eleven he was a teammate of the late Noble E. Kizer, former Purdue athletic director and head football coach.

Boland started his coaching career in 1927 as line coach at Santa Clara under Adam Walsh, and two years later moved to St. Thomas college, St. Paul, Minn., as athletic director and head football coach. He resigned at St. Thomas in June of 1933 to enter commercial radio work, but in January of 1934 he came to Notre Dame as line coach.

DALEYS DEFEAT CALLAS FIVE IN A. A. U. TOURNEY

A basket by Howard Kaplan in the second overtime period gave the Daley A. A. quintet a 39 to 37 victory over the Callas five in the second round of the fourth annual Central A. A. U. greater Chicago tournament, last night in St. Sabina gymnasium. In the other game the Calumet High School Alumni beat Leo High school, 34 to 33.

TRACK RIVAL AND NOTABLES LAUD RICE AT BANQUET

South Bend, Ind., March 3 [Special].—Don Lash, former Indiana university distance runner, paid tribute to the great competitive heart of little Greg Rice, world record holder at two and three miles, at a civic testimonial banquet for the former Notre Dame captain here tonight.

Lash, a rival of Rice during their collegiate athletic days, as now, hailed Rice as the greatest distance runner ever developed in the United States.

Rev. John J. Cavanaugh, C. S. C., vice president of Notre Dame and chairman of the board in control of athletics, spoke of the character of Rice, pointing out the clean living to which Rice adheres and which is exemplified in his track triumphs.

Stampf Wins Scoring Title; Maroons Lose

[Continued from first sports page.]

broke Englund's mark with another side shot, a one hander, with eight minutes left. Before the game was over he left no doubt about his title with another basket and free throw.

Stampf is the free-throwingest scoring champion Big Ten basketball has seen under the modern rules. His total of 166, sixth highest in conference history, was based on 42 field goals and 82 penalty successes. His total of five failures last night was the most he has missed in his three years on the Midway court. His mark sets an all-time record for Chicago basketball, displacing the 157 made under the old rules by Bobby Berkhoff of the 1919 quintet, as well as the 156 made by Bill Haarlow in 1935 under present rules.

Joe Can Pitch, Too.

Stampf came to Chicago after a brilliant prep career at Calumet High. He is majoring in history and is president of his fraternity, Sigma Chi. He has been suspected of being equally good as a baseball pitcher, altho he's never gone out for the nine. Score:

SARAZEN'S EAGLE CAPTURES MATCH IN 4-BALL MEET

Gene and Ben Hogan Beat Dodson and Goggin.

Coral Gables, Fla., March 3 (AP).—Gene Sarazen came up with another of his sparkling shots today—an eagle on the first extra hole—to send his team into the semi-finals of the Miami $5,000 international four ball tournament.

His 30-foot putt for a three on the 500-yard hole cut off a great closing bid by Leonard Dodson of Springfield, Mo., and Willie Goggin of Miami.

For most of the day Sarazen's partner, Ben Hogan, had carried the load. With some help from Sarazen he had built up a two-hole lead by the time they reached the 34th hole. Goggin dropped a 40-foot putt for a birdie on the 34th and Dodson sent a great approach inches from the pin for another on the 35th, evening the match.

Snead, Guldahl Win Easily.

The team of Sammy Snead and Ralph Guldahl, former open champion from Chicago, coasted to a 3 and 2 decision over Johnny Bulla of Chicago and Lloyd Mangrum of Oak Park, Ill., after building up a five-hole edge at lunch time.

The second extra-hole match was taken by Horton Smith of Oak Park, Ill., and Paul Runyan of White Plains, N. Y., on the 38th. They conquered Byron Nelson and Harold McSpaden.

Heafner, Walper Beaten.

Craig Wood of Mamaroneck, N. Y., and Billy Burke of Cleveland stayed in the running with a 3 and 2 victory over Clayton Heafner of Linville, N. C., and his pickup partner, Leo Walper of Washington who substituted for the drafted Ed Oliver of Wilmington, Del.

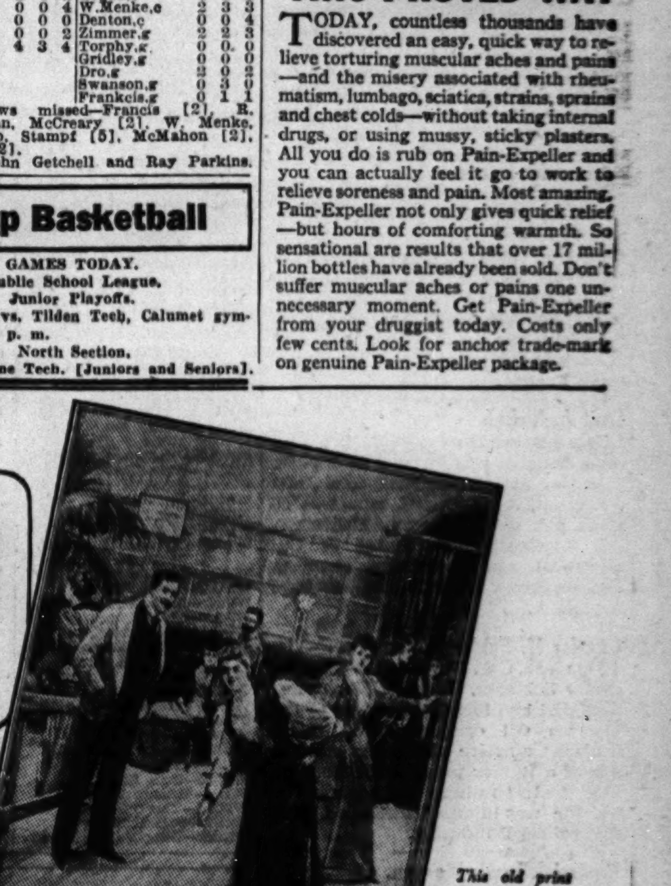
MEISTER BRÄU Brewmaster



This old print shows how they bowled when we started making Meister Bräu

But we still brew Without Added Sugars or Syrups

...and bottle with only Natural Draft Beer Carbonation created in the brew itself

It's not just stubbornness that makes us stick with brewing methods as old-fashioned as this picture. I wouldn't guess how many things we've experimented with in hopes of finding a way to make a little better beer. And I'll defy anybody to beat the old way.

Adding sugars or syrups to the brew is one of the short cuts. We could do it easy as anybody. But we'll keep on making an all-grain beer, as always.

And we won't change our old way of bottling with only natural draft beer carbonation created right in the brew. You get natural life and sparkle—true all-grain flavor unchanged in bottling when you ask for MEISTER BRÄU.

Get the truth about beer flavor for yourself with the test brewing experts use—the "50-Degrees" Test. Taste and compare flavors undisguised by too much cold—at 50 degrees where true flavor—good or bad—shows up.

Order some MEISTER BRÄU and compare with any other—regardless of price. Phone now for free delivery.

MSGR. FOLEY, 77, ST. AMBROSE PASTOR, IS DEAD

Founder of Five Churches on South Side.

Msgr. Foley.

The Rt. Rev. Msgr. William M. Foley, pastor of St. Ambrose church, 1012 East 47th street, died yesterday in the church rectory. He was 77 years old and was a native of Chicago.

Msgr. Foley founded five churches on the south side—Ascension church, Harvey; St. John's, Glenwood; St. Agnes, Chicago Heights; St. Catherine of Genoa, West Pullman, and St. Ambrose. He was pastor of St. Ambrose church for 37 years.

During the world war he was vicar general in charge of Catholic army and navy chaplains in the western states. He was made a monsignor in 1919 in recognition of his wartime services.

Msgr. Foley attended schools in Chicago and was graduated from Niagara university, Niagara Falls, N. Y., in 1887, being ordained the same year. His first appointment was as assistant pastor of Holy Rosary church in Pullman.

He is survived by a brother, Edmond C. Foley. Funeral services will be at 10:30 a. m. Thursday in St. Ambrose church. Burial will be in Mount Olivet cemetery.

FIND CHICAGOAN SANE; HE FACES KIDNAPING TRIAL

Joseph A. Hathaway, former Chicago public accountant who was found insane in 1935 in the Criminal court and committed to the Illinois Security hospital at Menard, has recovered his sanity, Judge A. D. Riess of the Randolph county Circuit court decided yesterday in a habeas corpus hearing at Chester.

Judge Riess ordered Hathaway returned in custody here to face a charge of attempted kidnaping. Hathaway, 49 years old and married, was adjudged insane after he confessed a plot to kidnap and murder a woman who objected to his attentions to her sister.

Wilbert Crowley, first assistant state's attorney, said the state regarded Hathaway as dangerous and would demand another sanity hearing in an attempt to return him to the state hospital. Crowley said Hathaway's wife, Lucille, feared for the safety of herself and three children if he is freed.

OBITUARIES

John William Stevenson.

Funeral services for John William Stevenson, secretary-treasurer of the Luse-Stevenson contracting firm at 873 Blackhawk street, will be held at 2 p. m. tomorrow in the chapel at 4227 Cottage Grove avenue. Burial will be in Glasgow, Mo. Mr. Stevenson died Sunday in his home at 7000 South Shore drive. He was a veteran of the Spanish-American war and was associated with the contracting and building business in Chicago for more than 25 years. He was one of the founders of the Olympia Fields Country club. He leaves his widow, Edna O. Stevenson.

Edward M. Harrison.

Funeral services for Edward M. Harrison, a retired printer, will be held at 9:30 a. m. tomorrow from the chapel at 5018 Chicago avenue to Our Lady Help of Christians church, with burial in Mount Carmel cemetery. Mr. Harrison, who was born 74 years ago in New Jersey, died Sunday in his home at 902 North Latrobe avenue.

Emil A. Siebel.

Services for Emil A. Siebel, a Chicago chemist, will be held at 2 p. m. Thursday at his residence, 3528 Janssen avenue. Mr. Siebel, who was 56 years old, died Friday in California. He founded E. A. Siebel & Co., analytical and consulting chemists and engineers for food and beverage industries.

Charles H. Schlacks.

Pasadena, Cal., March 3 (AP).—Charles Henry Schlacks, 75, Bryn Mawr, Pa., capitalist and former president of the Union Oil company, died today. Schlacks, a native of Chicago, was the son of a former president of the Illinois Central railway and for most of his life was himself identified with the railroad industry.

Frederick Lewis Morgan.

Frederick Lewis Morgan, a retired executive of Marshall Field & Co., died yesterday in his home at 1018 Michigan avenue, Evanston. Mr. Morgan was 69 years old. He leaves his widow, Isabelle, a daughter, and a grandson. Services will be held at 2 p. m. tomorrow in the chapel at 1567 Maple avenue, Evanston.

Leonard Martel.

Leonard Martel, 2717 Hampden court, a timekeeper, died of a heart attack yesterday while on a street car at North avenue and Clark street. He was 58 years old. His widow, Rita, survives. Services will be at 4:30 p. m. today in the chapel at 2701 North Clark street.

ADD BOB EVANS AND HIS DUMMY TO W-G-N SHOW

Bob Evans, the ventriloquist, and his dummy, Jerry, have been added to the cast for In Chicago Tonight, to be broadcast at 7:30 p. m. on Thursday over W-G-N and the Mutual Broadcasting system. Evans, who is appearing in the Palmer House's Empire room, will join Bert Wheeler, stage and screen comedian in a half hour of music and comedy. Wheeler is appearing with Earl Carroll's Vanities at the Chicago theater.

Bob Evans.

Besides engaging in a bit of repartee with Jerry, Evans will play a leading part in an original play, "The Ventriloquist," by William A. Bacher and Ashmead Scott. Bret Morrison, Fran Carlon, and Marvin Mueller, who were featured in Saturday evening's broadcast of "I Pagliacci" over W-G-N and Mutual, will be featured in this sketch.

Wheeler will be master of ceremonies and will be aided by Hank Ladd, his stooge. Harold Stokes will direct the W-G-N orchestra. Bacher will produce the show.

AM. TELEPHONE 1940 PROFIT IS PEAK SINCE '29

Number of Stations at Record High.

American Telephone and Telegraph company, world's largest utility enterprise, yesterday reported that its net earnings last year were the highest since 1929, gross revenues were the largest on record, and new peaks were established in number of telephones gained and in use.

Walter S. Gifford.

Net income of the Bell system applicable to American Telephone and Telegraph company stock during 1940 was $210,497,453, equal to $11.26 a share, compared with $190,280,877, or $10.18 a share, in 1939, and $217,104,872, or $15.22 a share in 1929. The Bell system consists of American Telephone and its principal subsidiaries.

Parent Company Profit Rises.

The parent company alone had net income last year of $188,344,032, equal to $10.08 a share, compared with $172,586,539, or $9.24 a share, in 1939. Dividends on American Telephone and Telegraph stock in each year totaled $168,181,146, or $9 a share.

Walter S. Gifford, president of the company, reported that the number of phones in use in the Bell system increased 950,000 in 1940 to a new high mark of 17,484,000 as of Dec. 31. The increase in 1939 was 775,000.

Gross operating revenues of the system climbed to $1,174,322,517, compared with $1,107,187,698 in 1939 and $1,070,794,499 in 1929.

Taxes continued to increase, Gifford said. The 1940 taxes, including those charged to construction, were $187,598,000, an increase of $28,693,000 over the total of $158,905,000 paid in 1939. The 1940 taxes were equal to about $11 for each telephone in service, Gifford reported. Taxes in 1929 were $83,467,947.

Speed Construction Work.

"National defense considerations greatly influenced the course of events in 1940 in the company and its associated companies in the Bell system," Gifford told stockholders in his letter accompanying the annual report. "Much pending construction was advanced ahead of schedule. Measures were taken to safeguard facilities. Reserve power equipment was installed or ordered. Establishment of alternate toll routes between important points was given further impetus. The companies coöperated with the military services."

The Bell system, including the Western Electric company and the Bell Telephone laboratories, had 322,000 employés at the end of last year, 24,900 more than at the close of 1939. Of the employés at the end of last year, 147,500 were men, and about 57,000 were between the ages of 21 and 35, inclusive.

Pay Roll Up 37½ Millions.

The 1940 pay roll was $607,593,000, an increase of $37,442,000. Investment in telephone plant at the year-end was $4,747,674,000, the report showed.

The number of stockholders was 630,900 at the close of 1940, representing a decline of 5,900. The average number of shares held per stockholder was 30. About a fifth of the employés of the system owned stock in the company, and no stockholder held as much as 1 per cent of the total.

Gifford reported progress was made in the dialing of toll calls by operators. When that method is used, a person telephoning places his long distance call with the operator in the same way as for a local call, and the operator, instead of relaying the call to another operator at the other end of the line, dials the called party directly. About 15 per cent of all toll calls in 1940 were handled in that manner, Gifford said.

Sale of Last British Owned U. S. Steel Stock Expected

New York, March 3 (AP).—A Wall street syndicate prepared today to offer to American investors a block of 200,000 shares of common stock of the United States Steel corporation, reported to represent the last of England's holdings of the shares.

The stock, worth about $11,324,000 at today's final price on the New York Stock exchange, may be brought out for sale after the close of exchange trading tomorrow, a member of the syndicate said.

One of Largest Over Counter.

So far as disclosed publicly, it would be one of the largest liquidating deals off the exchange since British agents began disposing of American securities to raise cash for war supply purchases.

Rumors of the impending sale seemed to influence the day's dealings in steels. United States Steel common closed at $56.62, off nearly $2.

Speeding sale of American securities, British agents distributed substantial amounts in December and January, partly thru deals with investment houses which in turn sold thru numerous dealers contacting buyers directly thruout the country.

Smith, Barney Heads Group.

The United States Steel syndicate was organized under leadership of Smith, Barney & Co.

The so-called "over the counter" transactions were interrupted by a decline in market values but were resumed recently after a recovery in securities.

Whether the 200,000 shares of United States Steel all came from British sources could not be confirmed officially, altho that was the understanding in many brokerage houses.

FEDERAL JURY NAMES MILLWORK FIRMS ON ANTI-TRUST CHARGES

Kansas City, Mo., March 3 (AP).—A federal grand jury indicted 15 persons, 14 corporations, and an association today on charges of conspiracy to violate the Sherman antitrust law by fixing prices on standard millwork. The indictment charged the defendants, all of Kansas, Missouri, and Arkansas, conspired to control jobbers' prices on sashes, doors, and trimmings.

"The Southwestern Woodwork association fixed so-called list prices quoted by jobbers to the retail trade by estimating the jobbers' costs and profits on each item of millwork and adding to the estimate arbitrary markups," the indictment read. The prices paid by retailers, it was charged, were determined by applying discounts fixed by the association to list prices.

NATIONAL INQUIRY PLANNED.

Leo Tierney, head of the federal antitrust division in the Chicago area, said that yesterday's indictments in Kansas City for alleged price fixing of millwork is the beginning of a series of investigations into the millwork industry thruout the country. The situation in Chicago probably will be included in the probe, Tierney said.

ARMY REPORTED PREPARING FORD PLANE CONTRACT

Washington, D. C., March 3 (AP).—The war department, it was reported reliably today, has given the Ford Motor company authority to proceed with the construction of an airplane parts plant at Ypsilanti, Mich., to cost approximately $11,000,000.

A letter expressing the department's intention to enter into a formal contract covering the project was sent to the company on Feb. 26, it was said. The company has until March 15 to accept or reject it.

Since a plant construction contract with Ford is being negotiated, and not let after competitive bids, it was understood it would include no clause requiring compliance with the Wagner labor relations act.

Pennroad Buys 380,500 of Own Shares During '40

New York, March 3 [Special].—Acquisition of 380,500 shares of its own stock in 1940 at an average price of $2.22 a share was reported today by Pennroad corporation in its annual statement. This involved an expenditure of $845,763 and reduced the outstanding shares to 7,504,500, the report said. As previously reported, net income in 1940, after taxes and including book profit on securities, was $2,379,169, compared with $1,312,888 in 1939.

Report Pullman Will Get Airplane Wing Contract

New York, March 3 [Special].—It was reported here today that a contract between the Pullman-Standard Car Manufacturing company and the Douglas Aircraft company involving manufacture of 5 million dollars' worth of wing parts at a Chicago plant soon will be arranged. Pullman has sought such work for some time.

CONFER ON DATE OF NEW RESERVE BANK ELECTION

Consultations among members of the board of directors of the Federal Reserve Bank of Chicago and the Federal Reserve board regarding the date for a new election to choose a president for the bank were reported to have been held yesterday in Washington, D. C. Clifford V. Gregory, deputy chairman of the bank's board, was in Washington. Announcement of the date soon, possibly today, was expected. The call must be issued at least 24 hours before the meeting.

An attempt to elect Emil Schram, Reconstruction Finance corporation chairman, to the bank presidency last Thursday was blocked when the reserve board voided the election by ruling out a disputed vote that had been delegated in Schram's behalf by an absent director. Without the disputed vote, the directors divided 4 to 4, with one group voting for C. S. Young, one of the bank's vice presidents.

The Iowa Bankers' association yesterday sent to the reserve board a telegram expressing the view that the new president should have a country bank background. George J. Schaller, head of the bank since 1934, retired Friday.

6 TO 50% GAINS SHOWN IN SALES AT WHOLESALE

The volume of business transacted in the Chicago wholesale district last month was 6 to 20 per cent larger for most of the various lines than in February, 1940, the Chicago Wholesale Market council reported yesterday in its monthly survey.

In one line—shoes—gains of 20 to 50 per cent were reported. Increases listed included: General merchandise, 6 per cent; men's shirts, 12 per cent; women's and misses' dresses and sportswear, 10 to 20 per cent, and hosiery and lingerie, 10 to 15 per cent.

"Reports indicate a continued improvement in retail business," the council said. "Retail inventories are not increasing, and reorder business is expected to continue its upward trend. Substantial commitments are being made for fall merchandise."

Canadians Sacrifice Silk Stockings on Altar of War

Washington, D. C., March 3 (AP).—Canada has sacrified silk stockings on the altar of war production, the commerce department said today. The dominion arranged with hosiery manufacturers to discontinue the production of all-silk stockings for domestic consumption. It permitted manufacture of all-silk stockings for export.

LIFT LICENSING OF WAR GOODS SENT TO BRITAIN

138 Items Are Freed of Export Control.

Washington, D. C., March 3 (AP).—Blanket authority was issued today for the export to Great Britain and Northern Ireland of 138 war products, including aluminum and aircraft parts.

Gen. R. L. Maxwell.

The office of the administrator of export control, announcing this, said, however, a daily check would be kept on the exports so the flow could be choked off if it appeared too heavy a volume was leaving the United States. Export of many items on the list is also subject to the consent of the Office of Production Management.

In accordance with a federal license order issued by Brig. Gen. Russell L. Maxwell, export control administrator, the state department notified all collectors of customs that any exporter, without the requirement of an individual license, may export any of the

Court Nullifies Pacts Against Style 'Piracy'

Washington, D. C., March 3 [Special.]—The Supreme court today outlawed agreements by which certain makers of women's hats and dresses sought to eliminate style "piracy" by registering new creations and penalizing those copying the designs. Judge Hugo Black wrote two unanimous opinions applying to the Millinery Creators' Guild, Inc., and the Fashion Originators' Guild of America, Inc., both of New York, and their members.

Justice Black declared the agreements violate federal antitrust laws. The plan was defended on the ground that the copied styles were sold cheaply in quantities, resulting in injury to the originators.

Rules in Bond Case.

The Supreme court decided that a jury in the Northern Illinois federal District court was entitled to award damages to the Equitable Life Insurance company of Iowa against Halsey, Stuart & Co. of Chicago for alleged fraud in connection with the sale of $353,000 of Longview, Wash., bonds in 1930.

The court, however, did not consider several other questions and the case was remanded to the Court of Appeals for "further proceedings not inconsistent with this opinion."

Upholds SEC Contention.

The court upheld a contention by the Securities and Exchange commission that a plan for reorganization, under the federal bankruptcy act, of two or more enterprises into a new corporation may provide for meeting bondholders' claims against each company thru payment in securities of the new corporation. The decision set aside a plan of the Consolidated Rock Products company of Los Angeles and two wholly owned subsidiaries.

Another decision gave the Panhandle Eastern Pipe Line company the right to intervene in antitrust proceedings brought by the department of justice against the Columbia Gas and Electric and the Columbia Oil and Gasoline corporations.

In another case the court ruled that the National Labor Relations board does not have power to enjoin violations of all provisions of the Wagner act "merely because the violation of one has been found." The court held that the Express Publishing company, San Antonio, Tex., should be restrained from refusing to bargain "and from any other acts in any manner interfering with" efforts by the San Antonio Newspaper guild to negotiate with the company.

The court held, in effect, that the board's order was too broad in that it was not confined to the single point of negotiation but spread out to include all collective bargaining activities.

BILL REVISING EXCESS PROFITS TAX LAW IS SENT TO WHITE HOUSE

Washington, D. C., March 3 (AP).—A measure designed to relieve hardship cases under the excess profits tax law received final house approval today and was sent to the White House.

Previously passed by the house, it had been amended in comparatively minor respects by the senate and house action today consisted in accepting senate amendments. The senate passed the bill earlier today.

One of the senate amendments would permit a corporation to make a return which computed excess profits under both "average earning" and "invested capital" methods. This would permit the taxpayer later to elect the most favorable method after determination of any appeals for special relief which might be pending.

A NEW DEALER'S FEAR: ECONOMIC CRACKUP AHEAD

Urges Stamp Plan to Stave Off Hunger.

BY WILLARD EDWARDS.

[Chicago Tribune Press Service.]

Washington, D. C., March 3.—A Roosevelt administration spokesman was disclosed today as having admitted that the United States is headed for "an economic crackup" within the next few years.

Milo Perkins.

Testimony to this effect by Milo Perkins, surplus marketing administrator of the department of agriculture, was made public by the house appropriations committee in reporting to congress a bill appropriating approximately 891 million dollars for the 1942 farm program.

Perkins' prediction was made when he urged the committee to extend the government's stamp program for giving away surplus farm products

How the "Iron Horse" helped Chicago grow

IMAGINE a freight train *one hundred and fifty miles long.* That's the approximate amount of freight moving into and out of Chicago *daily!*

Imagine nearly *eight thousand miles* of railroad track, more than enough for an 8-track railroad from Chicago to New Orleans. That's the amount of track in the Chicago Terminal District alone!

Imagine passenger trains entering and leaving a city at the rate of *one every minute.* That's what happens in Chicago almost every day in the year!

Yet, 100 years ago there was not a single mile of railroad in Chicago!

Chicago is the greatest railroad center in the world. Railroad employees in Cook County are paid more than $100,000,000 in wages annually. Railroad purchases made here amount to almost $90,000,000. There is hardly a resident of Chicago who doesn't benefit, at least indirectly, from the huge sums paid out yearly by the railroads.

❖ ❖ ❖

The railroad industry has contributed greatly to Chicago's progress. It has helped to make possible the growth of this bank and its services. The Continental Illinois National Bank and Trust Company is proud of its association with forward-looking industry in the Chicago area.

YIELDS UP TO 12%—*PLUS*
— from Preferred Stocks with Dividend Accumulations

Many preferred stocks, now in arrears, will pay back-dividends in 1941. They include stocks yielding as high as 12% —on the basis of 1940 regular payments—**PLUS** such payments as may be made on arrears.

We have completed an exhaustive study of these stocks, including Standard's forecast of 1941 dividend action for each —and a discussion of the unusual opportunities available. Both parts of this study are now ready:

(A) Dividend Forecasts For 240 Issues

Study of all the most important preferred stocks with arrears, in 22 different industries. The pertinent facts on each, including:
. . . . amount of arrears
. . . . earnings, dividend and price record for recent years
. . . . current price, call price and yield
Stocks are arranged by industry for easy comparison, with a discussion of the outlook for each industry.

(B) 16 Recommended Issues

Standard's selection of the 16 best opportunities in these 240 preferred stocks.

Some are conservative. Some speculative. But all are expected to pay larger dividends in 1941 than 1940.

Dividends paid in 1940 ranged from $1.12 to $23 per share, including payments on arrears.

Cumulative unpaid dividends range as high as $57 per share.

CONFUSING WAR MANEUVERS PUT STOCKS LOWER

Steel, Rail, Motor Issues Are Heaviest Losers.

New York, March 3 (AP).—Stocks backtracked again today as fresh apprehension over European war shifts chilled speculative sentiment. Altho resistant spots were present here and there, losses of fractions to around 2 points were well distributed at the close. Steels, rails, and motors were among the principal losers.

The list was only slightly irregular at the start but a selling flurry in the first hour, altho brief, unsettled prices in virtually all departments. Dealings then slowed and mild recoveries appeared when the final gong sounded.

Customers Step Out.

Confusing Nazi moves in the Balkans caused many customers to get out of the market, brokers said. The general inclination was to ignore a fair assortment of encouraging business items.

Steels seemed to derive scant stimulation from an estimated rise of 1.2 points to 97.5 per cent of capacity in this week's mill operations, a new high under the present basis of measuring production.

Action of the senate in passing the amended excess profits tax bill, already approved by the house and considered bullish by most financial quarters, came after the close.

Chicago Stocks.

Prices declined again yesterday on the Chicago Stock exchange. Only 13,000 shares and 800 rights changed hands. Forty issues declined, 21 advanced, and 19 were unchanged. Cities Service, the volume leader, moved against the trend to close at 4⅝, up ⅛.

Only three dually listed stocks traded from 2 to 3 o'clock recorded changes from the New York close. Commonwealth Edison and Houdaille-Hershey B each lost ¼ point to 28¼ and 11¾, respectively, and Texas corporation gained ⅛ point to 35¾.

New York Bonds.

New York, March 3 (AP).—All categories of bonds—corporate, United States government and foreign—sagged today in a depressed market. Final quotations in the majority of issues were fractionally lower than Saturday's close, but trading was so slow that only $5,173,650, face value, changed hands. Operations generally were curtailed by nervousness over the Balkan situation.

United States governments attracted little attention, either in the stock exchange or over the counter. Final exchange figures showed the treasuries as much as 18-32 lower, but the over the counter range was only 4-32 to 5-32 off.

Bank Stocks.

American National shares declined 2 points and City National and First National each a point yesterday in Chicago bank stock trading. Continental Illinois eased a ½ point.

WHEAT FUTURES SINK AFTER AN EARLY ADVANCE

Buying of wheat futures attributed to mills advanced prices early yesterday on the Chicago Board of Trade, May selling at 84 cents, but the market weakened in sympathy with securities. The close was at losses of ¾ to 1 cent a bushel, July leading the decline.

Corn held within a range of ½ cent. Wet weather in the main producing area was said to hamper the movement of grain from farms. Closing sales were ⅛ cent higher to ¼ cent lower. Oats closed ⅛ to ¼ cent lower and rye was ¼ to ½ cent lower. Trading in soy beans was somewhat less active than recently, with the close ¾ cent lower.

Reports that the department of agriculture was considering both an income certificate program and a higher government loan for the 1941 wheat crop had no effect on the market, and traders also ignored press reports that Turkey had closed the Dardanelles.

CHICAGO LIVE STOCK

Lighter supplies and a steadier tone in wholesale markets for fresh pork lifted hog prices 10 cents or more yesterday. Young hogs weighing from 189 to 237 pounds brought the $8 a hundred pounds top. The average for the session rose 10 cents at $7.70.

The smallest Monday cattle receipts of the year failed to prevent another price cut. Steers and yearlings dipped 10 to 25 cents to new lows for the season. Most beef cows, canners, and cutters sold off 10 to 15 cents. Bulls were strong to 15 cents higher. Calves slumped 50 cents. Lamb prices fell 15 to 25 cents.

Hog receipts, 17,000; shipments, 2,000.
Cattle receipts, 10,000; shipments, 2,500.
Sheep receipts, 13,500; shipments, 2,000.

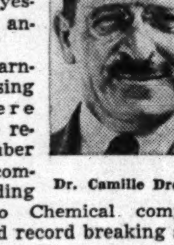
CELANESE CORP. INCOME, SALES BREAK RECORDS

Monsanto Chemical Net Profits Rise.

Last year's sales and earnings of the Celanese Corporation of America were the largest in the history of the company, Dr. Camille Dreyfus, president, told stockholders yesterday in his annual report.



Dr. Camille Dreyfus.

Increased earnings and rising taxes were shown in the reports of a number of other companies, including the Monsanto Chemical company, which also had record breaking sales, and the National Tea company.

Celanese, a large producer of rayon yarns, realized consolidated 1940 net income of $6,376,896, or $3.38 a share. Net income in 1939 was $6,374,100, or $3.38 a share on smaller number of shares outstanding. Net sales totaled $44,510,651, compared with $35,478,947 in 1939, an increase of 25 per cent.

1940 Tax Bill Mounts.

The company's tax bill for 1940 amounted to $5,424,954, against $2,363,782 in 1939. Of the total, $4,091,237 was for federal income and excess profits taxes, compared with $1,660,236 paid for federal income taxes in 1939. The company's main offices are in New York City.

Net income of Monsanto Chemical company, with main offices in St. Louis, Mo., amounted to $5,519,289, equal to $4.04 a share, an increase of 5.6 per cent over the $5,226,891, or $3.81 a share, reported for 1939. Both figures exclude dividends received from British subsidiary.

Net sales were $45,607,600, a gain of 18.4 per cent over the 1939 volume of $38,513,834.

In his annual report to stockholders, Edgar M. Queeny, president, said that excess profits taxes, increased normal tax rates, the cost of a recently adopted pension plan, and chargeoffs on plant were equal to $2.04 a share of common stock.

Income Taxes Doubled.

Estimated income taxes were $3,508,370, compared with $1,168,134 in 1939. The total tax bill came to $6,126,432. Queeny reported that the company's plastics and organic chemicals divisions showed the most improvement in sales.

Net income of the National Tea company, operator of a chain of grocery and meat stores, from headquarters in Chicago, totaled $346,391, or 43 cents a share. The company had a net loss of $369,080 in 1939. Last year was the most profitable for the company since 1934.

Sales, the largest since 1937, amounted to $61,919,443, against $56,824,450 in 1939.

John W. McKinlay, president, said that the company continued to show larger average sales for each location because of the closing of small unprofitable stores and the opening of larger establishments. During 1940, he said, 40 stores were closed, and 29 new ones opened.

He referred to the payment of one year's arrears on preferred dividends last November and the remaining accumulation of $170,536, or $1.19 a share, as of Dec. 31.

"We hope to give attention to the reduction of this amount during 1941," he said.

Ryan Profits at Record.

The Ryan Aeronautical company, San Diego, Cal., reported 1940 net income of $357,343, equal to 82 cents a share, the largest in the company's history. The 1939 earnings were $90,728, or 24 cents a share on stock then outstanding. Net sales were $3,864,575 last year, also a record.

Houdaille-Hershey corporation, maker of a wide variety of automotive products, reported consolidated net income of $2,333,086, or $2.42 a share on class B stock, for 1940, against $1,487,607, or $1.34 a share, in 1939. Main offices are in Detroit.

Banks' Business Loans Rise 7 Million, Exceed 5 Billion

The upward swing in volume of bank loans to business which began four and a half months ago continued without interruption in the week ended last Wednesday, the federal reserve board reported yesterday.

The board's report, covering member banks in the system, showed that commercial, industrial, and agricultural loans outstanding as of Wednesday totaled $5,227,000,000, which was $7,000,000 more than the volume reported for the preceding Wednesday. The gain over the figure for the corresponding 1940 date was $903,000,000.

Loans to brokers and dealers in securities increased $60,000,000 for the week to a total of $478,000,000, but still were $131,000,000 less than a year earlier.

More than $570,000,000 had been loaned industries doing military work by 195 large banks in 79 cities prior to Dec. 31, the American Bankers association reported. P. D. Houston, president of the association, said the survey "by no means represents a complete picture, which would require a survey of 15,000 banks."

Following are comparisons of the principal assets and liabilities of the member banks at the close of business Wednesday [last six ciphers omitted]:

RAIL OPERATIONS MUCH IMPROVED DURING JANUARY

The Association of American Railroads reported yesterday that class 1 railroads earned $62,357,404 before interest and rentals in January, compared with $46,021,810 a year ago. Their annual rate of return on property investment advanced to 4.55 per cent, from 3.35 per cent last year. Figures were based on reports from 133 class 1 roads.

The roads had gross operating revenues totaling $377,374,190, compared with $345,639,123 in January last year. Operating expenses totaled $268,968,882, against $257,395,976.

The railroads paid $35,519,072 in taxes against $21,243,291 in January, 1940.

JUDGE TO TOUR PACKING PLANT IN WAGE DISPUTE

Federal Judge Michael L. Igoe today will make a tour of the plant of Swift & Co., not as a sightseer, but as an observor seeking clarification of an injunction suit against the packing company. The wage and hour division of the department of labor in a test case seeks to restrain the company from allegedly violating overtime provisions of the fair labor standards act.

Altho he said he had worked there "a long time ago," Judge Igoe agreed to the tour yesterday after Frederic Burnham, attorney, for the company, had suggested that points involved could be made clearer by observing the various departments in operation.

Alex Elsen, attorney for the division, contended that the "tolerance" clause, allowing 14 weeks a year exemption from overtime payment, applied only to employés engaged in "handling, slaughtering, and dressing" live stock, and that Swift & Co. had included all of its approximately 5,000 employés in the exemption.

BEGIN FEDERAL TRIAL ON GLASS TRUST CHARGES

Toledo, O., March 3 (AP).—The government opened its antitrust suit against 11 glass container manufacturers and more than 100 individuals before Federal Judge Frank L. Kloeb today. Attempts to settle the case out of court were fruitless.

F. Goodwin Smith, president of Hartford Empire company, Hartford, Conn., the first witness called by the government, said that of all glass manufactured in this country only 3 or 4 per cent is made from machines other than those licensed by Hartford-Empire and Owens-Illinois Glass company.

Start Summation of Three Year Aluminum Co. Trial

New York, March 3 (AP).—After a trial lasting nearly three years, summations began today in the government's suit charging the Aluminum Company of America, Aluminum Ltd., and 60 co-defendants with monopoly and price fixing. Special Assistant United States Attorney General Walter L. Rice said the trial was the "longest in history."

Gutmann Workers to Vote on Union Representation

Washington, D. C., March 3 (AP).—The National Labor Relations board announced today an election would be held within 30 days to determine whether production and maintenance employés of Gutmann & Co., Inc., Chicago, wished to be represented by an affiliate of the International Fur and Leather Workers union [C. I. O.].

U. S. Air Lines to Get Parts, but Warplanes Come First

Washington, D. C., March 3 (AP).—The Office of Production Management gave aircraft makers a go-ahead signal today to supply parts to commercial airlines promptly "when this can be done without interfering with the military aircraft program."

MUNITION MAKER CLEARS ARREARS ON SENIOR STOCK

Directors of E. W. Bliss company, Brooklyn, cleared the arrears on the 6 and 5 per cent preferred stocks, both of $25 par, yesterday with the declaration of dividends of $1.50 and $1.25, respectively. The company makes metal working machinery, rolling mill equipment, torpedoes, and shrapnel.

A participating dividend of $2.82 on the 7 per cent cumulative first participating preferred stock was authorized by the Celanese corporation, New York producer of acetate type rayon yarn. The board declared also a 50 cent payment on the common, the regular semiannual disbursement of $3.50 on the 7 per cent participating preferred, and two quarterly dividends of $1.75 on the 7 per cent prior preferred. The participating dividend last year amounted to $2.72.

Canadian Celanese, Ltd., Montreal, cut the participating dividend on the 7 per cent participating preferred to 60 cents from $1.16 last year.

LIFT LICENSING OF WAR GOODS SENT TO BRITAIN

138 Items Are Freed of Export Control.

[Continued from page 23, column 4.]

articles on the list to Great Britain and Northern Ireland.

The list includes blanket licenses for such things as aluminum, magnesium, optical glass, wool, copper and products, nickel and productions, aircraft parts, armor plate, shatterproof glass, fire control instruments, crude oil, lubricating oil and gasoline.

In addition, a license was issued for the export of specifically enumerated machine tools including dyes, gauges, and many types of machines.

More than one-third of the United States' $4,000,000,000 export trade is now subject to control restrictions.

2,500 on Control List.

There are approximately 2,500 articles on the control list today and the list is steadily lengthening. The restrictions cover a large portion of normal Russian and Japanese purchases here.

A survey by the office of export control shows that, on a valuation basis, approximately 35 per cent of shipments in January required export licenses or were prohibited except to the British empire and western hemisphere nations.

The percentage is expected to mount when February figures are compiled since oil drilling and refining machinery, radium, uranium, calf and kid skins, beryllium, graphite electrodes, and aircraft pilot trainers were placed under control during the last month.

Will Include More March 10.

On March 10 export licenses also will be required for shipments of belladonna, atropine, sole leather and belting leather, and President Roosevelt is reported considering the addition of several other articles necessary in military production.

Officials pointed out that when an article is placed on the control list it does not necessarily mean that its export is prohibited. Licenses are granted, it was explained, when sufficient supplies are on hand to meet production and stockpile needs. Munitions are an exception; they may be shipped only to Pan-American countries or nations resisting or deemed to be threatened with aggression.

The Office of Production Management placed magnesium under a mandatory priority system today. Officials said the step subjected the metal to the same controls imposed on Feb. 24 on aluminum and machine tools.

Chicago Used Car Stocks Cut to 44.9 Days' Supply

Used car inventories in Chicago as of Feb. 1 amounted to a 44.9 days' supply, compared with 54 days' supply on Jan. 1, the Automotive Trade Association Managers reported yesterday. A number of other cities also reported declines in used car inventories.

Stevens Hotel Cuts Its 1940 Loss; Pays More Interest

The Stevens Hotel corporation had net loss of $92,130 for the year ended Dec. 31, the annual report issued by Joseph P. Binns, vice president of the corporation and general manager of the hotel, disclosed yesterday. The 1939 net loss was $128,411 before profit on bonds purchased.

Joseph P. Binns.

The report revealed that interest of 5 per cent, the highest since the bonds were issued, was paid on the mortgage income bonds last year. The rate in 1939 was 2.1 per cent. The 138 per cent increase was achieved in the face of a gross income increase of only 15 per cent, increased room occupancy of slightly less than 10 per cent, and the expenditure of nearly half a million dollars for repairs, maintenance, and capital additions, Binns said.

Total sales and income for 1940, not including profit realized by the corporation from the purchase of its own bonds, amounted to $4,161,054, William F. Krahl, president, said in a letter to bondholders and holders of voting trust certificates. This income was $721,343 in excess of the comparable income for 1939 and $647,639 in excess of the average during 1937 thru 1939, he added.

Binns announced that Chicago for the 15th consecutive year will be host to the National Canners association at its annual convention during the week of Jan. 25, 1942. Meeting in conjunction with the Canners will be the Canning Machinery and Supplies, National Food Brokers, and the National American Wholesale Grocers association.

ILLINOIS BRICK'S SALES REPORTED 20 PCT. ABOVE 1940

William F. Schlake, president of the Illinois Brick company, told stockholders at their annual meeting in Chicago yesterday that business during January and February ran 20 per cent higher than in the same months of 1940.

Arthur R. Jones Jr. was elected a director to fill the vacancy caused by the death of William Schlake, former chairman of the board. John Goodridge, who had been vice president and treasurer, was elected chairman and reëlected treasurer at the annual directors' meeting. Hugo Filippi was elected vice president in addition to being renamed secretary.

7 MILLIONS IN FOOD STAMPS.

Needy families eligible for assistance under the surplus food stamp plan consumed more than $7,000,000 of farm products in January, the department of agriculture announced. Approximately 3,000,000 families received stamps.

COPPER, COFFEE AND LEAD REACH FUTURES PEAKS

New 1941 top prices for copper, lead, and Santos coffee futures, an advance in the cash lead quotation, and an effort to relieve the acutely "tight" zinc situation were the high spots of yesterday's commodity trading. The trend of staples for future delivery was indecisive and markets were generally quiet. Zinc, wool tops, and silk were higher, while rubber, hides, and domestic sugar declined.

In the nonferrous metal markets copper rose to 11.90 cents a pound in the May contract before closing at 11.85. Lead for that position finished at its peak of 5.69 cents a pound. Zinc, unchanged to 0.45 cent higher, was 11 cents in May, and tin dropped 0.10 to 0.35 cent to 50.75 cents bid in the same delivery.

Highest Since November.

The American Smelting and Refining company, a major producer, raised cash lead 0.1 cent to 5.75 cents a pound, New York basis, highest since last November.

In recognition of the acute shortage of actual zinc supplies for the rearmament program the board of governors of Commodity Exchange, Inc., ruled to limit trading in zinc futures to contracts in liquidation of open positions. On and after today the opening of new positions will not be permitted.

Coffee Futures Mixed.

Santos coffee futures, ending 0.09 cent lower to 0.03 cent ahead, reached 8.37 cents a pound in May and closed at 8.25 cents. Active demand left wool tops unchanged to 0.5 cent higher at $1.24 8-10 a pound in May, while the cash price remained at a nominal $1.30. Rubber futures were unchanged to 0.07 cent a pound down, with May at 20.65 cents bid, and the cash market receded 0.05 cent to 20.70 cents. Cash silk jumped 6½ cents a pound to $2.76½, while futures gained 1 to 2½ cents.

CELANESE CORPORATION OF AMERICA

We have examined the condensed consolidated financial statements of Celanese Corporation of America and its wholly-owned subsidiary companies for the year ended December 31, 1940 and, in our opinion, they present fairly the position as at December 31, 1940 and the results of the operations for the year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

New York, N. Y., January 29, 1941 PEAT, MARWICK, MITCHELL & CO.

THE ACCOMPANYING FINANCIAL STATEMENT represents the position of Celanese—expressed in dollars and cents—at the close of the year 1940.

The figures tell only part of the story. Behind the figures stand more than twenty years of pioneering in the modern chemical development of the textile industry. The progress of the Company rests on continuous research—research for broadening the application of present products to new fields—research towards creating new scientific horizons.

Celanese keeps abreast of the times, fully prepared to serve the country's needs to the fullest possible extent.

Summary of 1940 Operations

CONSOLIDATED OPERATIONS for 1940 resulted in net income, before Federal taxes, of $10,468,133—a new high record. After provision for Federal income and excess profits taxes, net income for the year amounted to $6,376,896, equivalent, after regular and participating dividends on the preferred stocks, to $3.38 per common share.

The tax provision for 1940 is $5,424,954—equal to $4.87 per common share—compared with taxes of $2,363,782 in 1939. Federal taxes on income require $4,091,237 for 1940 compared to $1,660,236, for 1939. Included in the 1940 provision is $1,670,000 for excess profits taxes which it is believed may be more than is required. The Company's total tax bill was more than 100 per cent. greater than in 1939 and was equivalent to 85 per cent. of the year's net income.

Volume of business reached a new high level in 1940. Net sales totaled $44,510,651 against $35,478,947 in 1939, an increase of 25 per cent. This improvement represented normal expansion of new and widening fields for the Company's products.

The Company acquired additional cash resources of more than $13,000,000 as a result of financing carried out during the year. These resources will be available for increasing the productive capacity of the Company's plants.

A further reduction in interest rates on the corporation's indebtedness was accomplished in 1940. A new issue of $25,000,000 of 3 per cent. debentures was sold to the public, and $5,000,000 of serial bank loans were arranged at a rate of 1¾ per cent. In addition to providing new longer term capital, this financing retired outstanding 3⅝ per cent. debentures and bank loans bearing interest of 2½ per cent.

ICKES ACCUSED OF CONSPIRACY TO RULE POWER

Charge He Attempts to Dominate Industry.

Portland, Ore., March 3 [Special].—Four private power companies in the Pacific northwest have joined a fight against the power policy of Secretary of the Interior Harold L. Ickes, charging that he is trying to dominate all power and industry in the district.

Ickes' arbitrary allocation of hydro-electric power from the Bonneville and Grand Coulee dams previously had been attacked by Gov. Charles A. Sprague of Oregon, Mayor Earl B. Riley of Portland, and the Portland Chamber of Commerce.

Resentment has reached the point where the legislatures of Oregon and Washington will be asked to adopt resolutions demanding a congressional investigation of Ickes and Paul J. Raver, administrator of the Bonneville power supply.

Calls Defense Justifiable.

The Federal Power commission recently released a report charging that private power companies had spent a million dollars in Pacific northwest political campaigns in the last five years. Paul B. McKee, president of the Pacific Power and Light company, and spokesman for the four companies, replied that every one knows the companies have been forced to defend themselves against incessant attacks by Ickes and other proponents of socialized power.

"No one knows," said McKee, "how many millions of the taxpayers' money have been spent by Ickes' organization in its attempt to promote this public conspiracy, but the cost of maintaining a huge staff of so-called power salesmen like Carl D. Thompson, head of the Public Ownership League of America, the cost of turning out tons of propaganda and the cost of building duplicating transmission lines must be immense.

Raver Fails to Testify.

"The companies made repeated attempts to have Raver and his satellites testify about their activities at the power commission hearing here last fall, but they did not come forward nor did the commission insist that they do so. It is ridiculous to class contributions to chamber of commerce and other civil welfare organizations as political expenditures.

"Coming on the heels of Ickes' interference with the normal industrial development of this region and preceding by only 10 days a public ownership election in Spokane, it looks as tho the commission's statement was timed to tie into the Ickes-Raver attempt to gain domination of all power, industry, and the liberty of the northwest."

Ickes last week refused to sell additional power to the Aluminum Company of America which proposed to build a plant either in Portland or Vancouver, Wash. Ickes' excuse was that he desired to give other companies a chance to buy the power.

Power Goes to Competitor.

Mayor Riley noted that Ickes allocated 40,000 kilowatts to a competitor of the Aluminum company the same day he refused its request, that he is considering a contract with a second competitor and that Oregonians are voting down public ownership at every opportunity.

In refusing federal power last year the city of Eugene, Ore., decided it would be cheaper to expand its plant because the Bonneville administrator attempted to dictate resale rates.

CHECK VOLUME FALLS IN WEEK, BUT TOPS 1940

Transactions by check in the United States last week aggregated $8,785,000,000, the Federal Reserve board reported yesterday. Banks in the 274 reporting cities had listed debits to checking accounts at $10,045,000,000 for the preceding week, while in the corresponding week last year the total was $7,243,000,000.

Debits by banks in the 7th [Chicago] federal reserve district totaled $1,306,731,000. This was a decline of 15.5 per cent from the $1,545,524,000 of the preceding week but was 15.4 per cent ahead of the $1,131,998,000 of the corresponding 1940 week.

Chicago banks reported debits of $691,015,000 compared with $634,987,000 a year ago.

COTTON

Hedging pressure more than offset scattered mill and other buying of cotton futures yesterday and closing trades were .03 cent lower to .01 cent a pound higher. Aggregate trade was light, with speculators disposed to act with caution.

Reports that congress has been asked by department of agriculture officials to consider reducing the acreage for the 1942 cotton crop was ignored by traders.

Cash cotton closed .07 cent lower, with New York, 10.83 cents and New Orleans, 10.42 cents a pound. Futures prices follow:

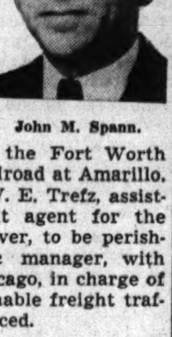
People and Events



John M. Spann.

John M. Spann, who since 1936 has been assistant freight traffic manager at Little Rock, Ark., for the Rock Island Lines, has been promoted to traffic manager in charge of solicitation for that railway, with headquarters in Chicago. Born at Pilot Point, Tex., in 1901, Spann began his railroad career as a clerk in 1917 with the Fort Worth and Denver City railroad at Amarillo.

Promotion of J. W. E. Trefz, assistant general freight agent for the Rock Island at Denver, to be perishable freight traffic manager, with headquarters in Chicago, in charge of solicitation of perishable freight traffic, also was announced.

District traffic managers, passenger service heads, and other supervisory officials of United Air Lines are attending the organization's annual sales show which opened yesterday in the Stevens hotel and will close with a dinner tonight. President W. A. Patterson addressed the meeting yesterday.

D. K. Sheppard, city passenger agent for the Milwaukee Road in Chicago, has been appointed traveling passenger agent in St. Louis.

NORTH WESTERN LETS ORDERS FOR 5 DIESEL ENGINES

Electro-Motive corporation, La Grange, will build four of the five 2,000 horse power passenger Diesel-electric locomotives which the Chicago and North Western railroad will acquire at a total cost of about $875,000.

R. L. Williams, chief executive officer of the road, announced placement of the order yesterday. He said American Locomotive company, Schenectady, N. Y., will build the other engine.

The locomotives represent part of a $7,500,000 equipment expansion program for 1941 recently announced by the railroad. The North Western recently placed contracts for construction of 25 streamlined passenger cars and 1,700 freight cars.

HOTEL MEN MEET TODAY AT SHOW IN PALMER HOUSE

More than 15,000 hotel men from this country, Canada, and Mexico are expected to attend the annual Midwest Hotel show which opens today in the Palmer House. The show, which will continue thru Friday, is being sponsored by the Illinois Hotel association and the Greater Chicago Hotel association.

The latest hotel and restaurant equipment will be shown by 145 exhibitors. Featured in the exhibit will be the "Magic Café," furnished with draperies and rugs of a special dye that reflects fluorescent lighting. A number of American manufacturers have reserved space for showings of newly designed chinaware.

JOINT RETURNS.

In making a joint return for myself and my wife I noticed that the instructions require that we compute our charitable contributions and earned income credits separately on the basis of our separate incomes. However, there is no provision in the income tax return for showing these items separately. What are we supposed to do?—W. E.

Answer: Married couples filing joint returns no longer have to compute separately their charitable contributions, earned income credits, and capital gains and losses. Two decisions of the United States Supreme court last December held that a joint return is to be treated as the return of a taxable unit, as tho for one person.

The court's opinions overruled regulations of the internal revenue department which [1] deprived a husband and wife the right to deduct in their joint return their combined charitable contributions from their aggregate income, and [2] prevented them from offsetting the capital losses of one against the capital gains of the other.

RETIRING IN 1942.

I plan to retire at the age of 65 in March, 1942. I will then receive a pension from my company. I would like to get an idea as to how much I will receive in old age benefits from the Social Security board for myself and my wife, who also will be 65 at that time. I have been earning $150 a month regularly since 1936 and have paid social security taxes all that time.—A. H.

Answer: If your earnings continue at their present rate until you retire, you will receive $31.50 a month and your wife $15.75, or one-half of your monthly old age benefit. Forms for estimating old age and survivors' benefits provided under the social security program may be obtained by sending an addressed, stamped envelope to the Investors' Guide.

KREUGER & TOLL.

What was the business of Kreuger & Toll and what is its present status?—J. S.

Answer: Kreuger & Toll company was a Swedish investment trust dominated by the late Ivar Kreuger which managed and financed various corporations, among which were the Swedish Match company and the International Match corporation. The company also granted credits to governments from which its affiliates received match concessions.

In 1932 the company was adjudged bankrupt after an international scandal involving Kreuger caused creditors to institute bankruptcy proceedings. The American estate of the company was liquidated completely by 1939 but liquidation of the Swedish assets has not been completed.

NEW DEAL AGENT FEARS 'ECONOMIC CRACKUP' AHEAD

Urges Farm Stamp Plan to Stave Off Hunger.

[Continued from page 23, column 8.]

to the poor thru issuance of orange and blue stamps.

"My own judgment," said Perkins, "is that since we are likely to hit an economic crackup somewhere in the 1940s, we need to work toward extending the stamp program to every county in America.

"It would be national insurance against hunger as well as against low prices for commodities used largely here at home."

In proposing an appropriation of $890,824,037 for the department of agriculture, the committee cut approximately five millions from the amounts submitted by Mr. Roosevelt's budget estimators. However, by virtue of permanent appropriations and reappropriations, already in the law, the actual total of the bill was 1 billion 477 million dollars.

Favor Parity Payments.

The committee proposed that the usual 212 millions for farm parity payments [to boost farm income toward the level of 1909-1914] be made available. It suggested, however, that only 50 millions in cash be provided and that the department of agriculture be given authority to make commitments for the remaining 162 millions.

"Congress is making every provision for the national defense," the committee reported, "and it is just as necessary and just as much an element of national defense to provide proper safeguards to protect the farm population of the country from the economic ruin which may well come from the post-war adjustment as it is to provide the requisite arms and munitions for the physical defense of the nation."

Hits Departmental Waste.

The committee, however, directed scathing criticism at the department of agriculture for practices which hitherto have cost the taxpayer hundreds of millions. It noted that there was evident overlapping and duplication of work by department subdivisions. It also assailed the "reprehensible" practice of using unspent money during June, the last month of the fiscal year, for supplies, materials, and repairs. It called upon the department to do away with many of its research and investigation programs which have been outdated.

The Rural Electrification administration was accused by the committee of having furnished false information in connection with personnel promotions. Inasmuch as the appropriations committee has no investigators of its own, and must depend upon government departments for accurate reports, the committee asserted that the matter was of grave importance and merited the attention of congress.

The generally pessimistic tone of the committee's farm report was heightened by its conclusion that an enlargement of the Farm Security administration's rehabilitation program was necessary to keep additional thousands of farm families from joining the 4,000,000 migrants already on the march.

A special committee headed by Representative John H. Tolan [D., Cal.] declared that its investigation had established that large numbers of farmers will join in the migration if the FSA program is not enlarged.

Tolan said that 1,200,000 families still are in need of loans. He asserted that a proposed appropriation of $4,400,000 for migrant camps was inadequate "in view of the needs in many parts of the country as widespread as Michigan, Ohio, New Jersey, Virginia, North Carolina, Florida, Texas, Arizona, and the Pacific coast."

Assails Bureau "Confusion."

Edward A. O'Neal, president of the American Farm bureau, gave the committee the federation's two-point program for helping the farmer—85 per cent parity loans and state extension services aimed at decentralizing the administration of the department's many "action programs."

O'Neal argued that so many government agencies deal with the farmers that there is unnecessary duplication of effort, "waste, extravagance and confusion." He said the department spent $99,293,429 for administration last year.

"Administration has become too concentrated in Washington and the evils of a developing burocracy have become all too evident," he said.

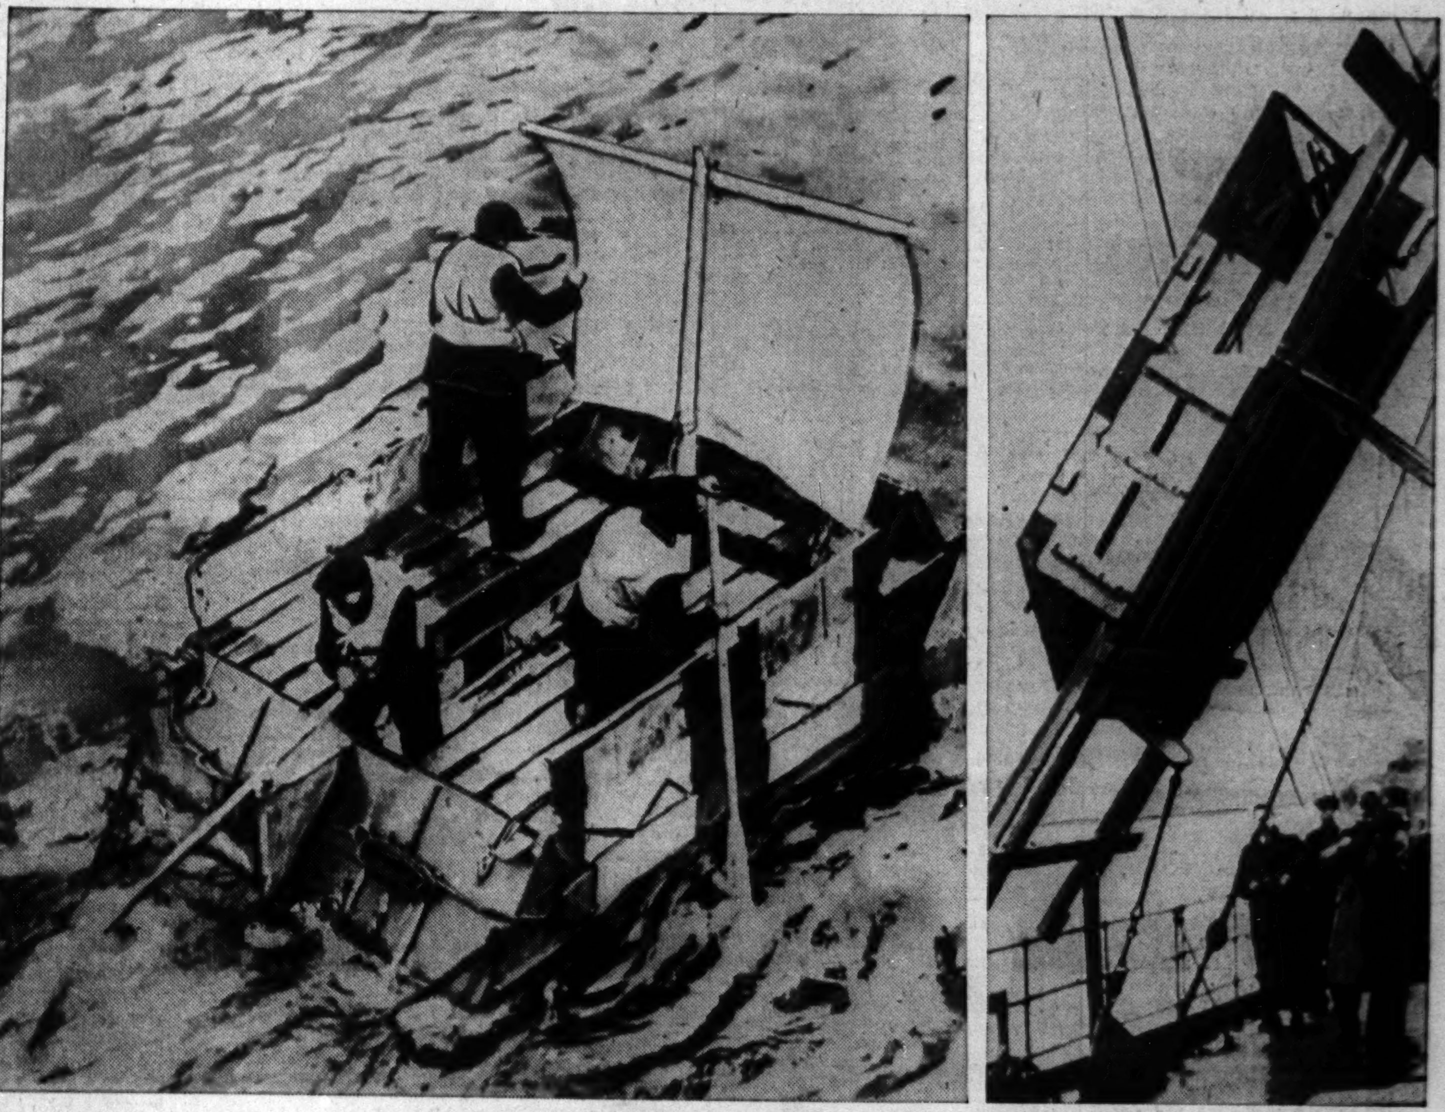
German soldiers pushing a sled carrying a bomb over snow covered ground. The caption stated the bomb was loaded on a plane, but the location of the action was not mentioned.

[Associated Press Wirephoto.]

A German warplane half buried in the mud flats of the Stour river near Ipswich, England, according to British sources. Investigators said they found only a few bullet holes in the fuselage, which had not been hit by antiaircraft fire.



[Associated Press Wirephoto.]

Newly invented liferaft (afloat at left and being launched, right) which has been approved by the British ministry of shipping for the merchant marine. British say the raft is unsinkable and bullet proof and is designed for use by ships attacked at sea.
